

STYLE# 3051FR

ARC & FLAME RESISTANT FR FACE MASK "NINJA STYLE"

5.2oz. | Modacrylic/Cotton/Nylon Inherent Jersey Blend

With the worlds supply of N95 masks being used by healthcare workers, and the eminent requirement to wear face masks in environments where arc and flame is a threat, we decided to make a ground-up solution for an FR face mask. Our "Ninja Style" mask is made from material that is safe to wear against your skin, stretches and is comfortable to wear all day. The mask is sewn with 100% inherent FR materials at our in-house production facility in Santa Ana, California. The lightweight material and compact design make this mask the best option for people who are required wear a flame resistant face mask all day.
