## Procedure

Step	Description	Image
1.1	Ensure the Pump is not receiving power by unplugging it from the wall.	 <div>  <b>WARNING</b>  <b>Disconnect Power Supplies Before Servicing or Cleaning.</b> </div>
1.2	Remove the 4 Bolts attaching the Pump Cover. Use a $\frac{3}{8}$ " wrench to hold the nuts on the back in place.	
1.3	Detach the two sets of Spade Connectors before removing the Pump.
