Introduction

TOKA LITE

HUGI
STONEBATHS

iBel

Stonebaths was established in 2004 marketing stone baths and stone basins online in New Zealand. By 2009 the online demand for cast stone products resulted in Stonebaths growing into one of the leading online distributors in this industry.

The range contained a selection of 40 stone baths and 60 basins and has been available in matte white gloss white and more recently matt black and concrete grey. Initially our clients were predominantly residential house owners.

As a result of customer demand, we now supply to a number of plumbing stores for niche products. Our biggest growth has been to builders, property developers, designers and architects.

We know the growth in online sales of high quality bathroom fittings will continue to grow globally over the next 10 years and with this in mind, we have increased our range and keeping at the forefront of Stone Baths. Our ranges include Toka lite, iBel, and Hugi high end Stone Baths.

Stonebaths Australia was launched in 2012 and has grown expedientially each year. Our New Zealand operation continues to break new ground opening into new markets.

The modern trend now is to place a freestanding stone bath into one of your bathrooms carrying the theme on through the house with matching or contrasting stone basin fixtures.

We are very experienced in helping choose bath and basin fixtures that will compliment the design in your house.

We have a wealth of experience in fit outs for developments, hotels and apartment projects.

We hope you enjoy our range!

Tapware

TOKA
TAPWARE

Toka Tapware is manufactured to meet Australian and New Zealand standards. It is designed in both classical styling and bold symmetrical styles which compliment our basins and baths. This is a specialist range in matt black, brushed gun metal and brushed nickel finishes. It is economically priced in house lot packages and has a 15 year warranty. For wels ratings refer to our website.
