

Snakes for Hair

Welcome to Snakes for Hair occult offerings. When you select one of our products, you are choosing a work of art and instrument of magic. And it's here to help you realize your mission as a self-creator.

Snakes for Hair candles, named after the mythological Medusa, are designed in the traditions of folk magic, astrology and Tarot. Artwork for a single label takes many months to complete before going into limited production in a Brooklyn studio, where it is applied by hand to our 100% phthalate-free soy wax candles.

Currently, our wholesale offerings for altar candles have a single scent option of patchouli, absinthe, and black currant. If you would like to place a special order for the rose or oud/musk/amber/smoke scents on snakesforhair.com, please send an email to inquire about inventory.
