### The Alivio™ Advantage

Alivio guarantee's a minimum 900mg per bottle and ensures this with our available 3<sup>rd</sup> party testing lab results. Alivio 900mg Whole Plant Hemp Oil with NRGZ™ plus Turmeric has amazing benefits and is multi-functional for a broad range of concerns. With the added enhancement of Turmeric, a highly prized herb shown to assist inflammation, plus enhanced energy frequencies utilizing NRGZ™ makes this product second to none.

**Our Organically Grown Alivio Whole Plant Hemp oil is legal to buy in all 50 states via the 2014 Farm Bill under our authorized grower as our Hemp concentrate contains less than .3% THC. U.S. Federal law permits us to ship straight to your door. Our 900mg Whole Plant Hemp with NRGZ has no detectable THC.**

Alivio Products Inc. works with the largest organic practices hemp farm in the U.S. which grows and harvests the whole plant, then extracts the cannabidiol – CBD – using a pure CO<sub>2</sub> process. We then send our tremendously high quality 900mg Whole Plant Hemp to an independent, State approved laboratory in Colorado. This 3<sup>rd</sup> party testing ensures that our mg potency, CBD levels, exact THC level, and microbiological testing is true and accurate.

### What are NRGZ™?

It is here that we begin to enhance Alivio's Whole Plant Hemp oil. We send it to a company that was created by a world renowned scientist. He has taken the principles of quantum physics, and through a patented technology, is able to infuse "subtle subatomic energies" into Alivio's Whole Plant Hemp CBD oil and the results are....

#### Supercharged NRGZ™

- React quickly and significantly with the Body's Endocannabinoid System (ECS)
- Enhanced bio-availability
- Subtle Energies target pain and inflammation (primary cause of pain and disease)

Whole Plant Hemp CBD's are vital to our internal endocannabinoid system (ECS) because CBD's help regulate key aspects of our biology.

### Important Questions and Answers

**Will this Alivio™ 900mg Whole Hemp CBD get me high? Quick Answer: NO, No THC (psychoactive)**

**Are Hemp CBD and Marijuana CBD any different? Quick Answer: NO, CBD is CBD**

**What is the difference between Whole Plant Hemp and Hemp Seed Oil? Quick Answer:** The primary difference is the amount of CBD that each contains. Hemp Seed oil, although rich in omega acids, contains very low levels of CBD (typically less than .0025% or 25 parts per million or none at all), while CBD oil can range anywhere from 2% (20,000 ppm) to 99.9% (999,900 ppm) CBD depending on product, purity and source. This is an extremely important distinction.

## The Body's Endocannabinoid System (ECS)

Because of its crucial role in homeostasis, the ECS is widespread throughout the animal kingdom. It evolved a long time ago, and the ECS can be found in all vertebrate species.

The three key components of the ECS are:

- **Cannabinoid receptors** found on the surface of cells
- **Endocannabinoids**, small molecules that activate cannabinoid receptors
- **Metabolic enzymes** that break down endocannabinoids after they are used

## Suggested Uses

When beginning to take CBD, less can be more. The beauty of this custom formulation is we have taken the guesswork out of how many mg are you actually taking as 1 drop equals approximately 1mg.
