

LEARNING TOWER SAFETY

THANK YOU FOR PURCHASING A LITTLE BIG LEARNING TOWER. HERE ARE SOME GUIDELINES TO KEEP YOUR TOWER SHINY AND NEW AND MOST IMPORTANTLY, TO KEEP YOUR LITTLE BIG AS SAFE CAN BE.

- Learning Towers are only to be used with close, adult supervision. As tempting as it may be to sit on the couch with a vino whilst your Little Big person discovers the joy of doing dishes, don't. Instead, stand within arm's length at all times.

- Ensure sharp, hot or dangerous items are out of reach of the Little Big person when in their tower.

- Little Big Learning Towers have steps for climbing onto but otherwise aren't designed for climbing or swinging from. Take a look at our Pikler Triangles if you've got yourself a monkey.

- The chalkboard safety backing is recommended for users under 2 year of age.

- Supervise when Little Big people are climbing in and out of the tower. Towers may tip if rocked or leant out of.

- Learning Towers are sold raw. To protect the wood from the inevitable spillages to come, we recommend oiling, painting or varnishing your tower regularly in your choice of finish.

- Learning Towers are meant for use on level surfaces only. Avoid using them on uneven surfaces such as carpet or grass. As with all products, it is recommended that you check your Tower regularly (as often as every use) for structural stability.

- Little Big Learning Towers come with a 2 year structural warranty. This does not include natural wear and tear or any damages caused by misuse or incorrect assembly.

- Slimline Towers are designed for one user only. Once again, we emphasise close, arm's length supervision at all times, especially if your Little Big people like to play rough.

- and most importantly, have fun!
