

PIKLER TRIANGLE SAFETY

THANK YOU FOR PURCHASING A LITTLE BIG PIKLER TRIANGLE AND/OR ROCK WALL & SLIDE. HERE ARE SOME GUIDELINES TO KEEP YOUR NEW PURCHASE SHINY AND YOUR LITTLE BIG SAFE WHILE THEY CLIMB EVEREST FROM THE COMFORT OF YOUR LIVING ROOM

- Pikler Triangles are only to be used upon flat level and firm (but not hard) surfaces. Thin rugs and firm carpets are suitable.

- Please ensure close adult supervision at all times. Do not place Little Big people into positions they cannot get into themselves. The purpose and theory behind the Pikler Triangle is that children will discover it in their own time and respect their own physical limits. We need to respect those limits too by not forcing them to climb.

- Pikler Triangle Rock Wall & Slides are designed to be placed on an angle of no more than 60 degrees. If your Little Big climber is ready for vertical climbing, please consider if a Little Big Rock Climbing Tree is more appropriate (coming soon!).

- Rock Walls & Slides should be moved from rung to rung by adults only.

- Pikler Triangles and Rock Walls & Slides are sold raw which means you have an endless list of possible finishes to choose from! To protect the wood, we recommend oiling, painting or varnishing regularly. If you prefer the raw look, a quick sand with fine sandpaper every couple of months will get rid of any grime.

- As with all children's products, it is recommended that you check your Triangle regularly (as often as every use) for structural stability.

- Little Big Pikler Triangles come with a 2 year structural warranty. This does not include natural wear and tear or any damages caused by misuse or incorrect assembly.

- and most importantly... Have fun!
