The BSCG Certified Drug Free[®] program provides assurance that dietary supplements, natural products, cosmetics, medical devices, or other products are free of banned substances and other drug contaminants that can lead to health concerns or positive drug tests. As part of the program, finished product batches are tested for drugs on the WADA Prohibited List and other banned substance lists in sport as well as prescription, over-the-counter, and illicit drugs not banned in sport. This Batch Certification verifies that samples of the product identified by brand name, product name, and batch number below have been tested at our ISO/IEC 17025 accredited laboratory partner by instrumental screen using liquid chromatography/mass spectrometry (LC/MS) and that no compounds were detected according to the details and method detection levels outlined in the BSCG Certified Drug Free[®] [testing menu](#). The BSCG Certified Drug Free[®] program offers drug testing security to athletes and professionals across the spectrum of WADA, NFL, MLB, NHL, NBA, WNBA, PGA, LPGA, MLS, CFL, ATP, WTA, FIFA, FINA, AFL, NRL, NASCAR, UFC, CrossFit, NCAA, military, first responder, and other workplace drug testing programs.
