

Your new Human Touch® Super Novo
is Alexa enabled with **Virtual Therapist™** 

RELAXATION REIMAGINED

The Human Touch Super Novo massage chair offers a new and distinctive user experience technology called **Virtual Therapist™**. By pairing the power of a Human Touch massage chair with Amazon Alexa's voice recognition, the Super Novo is the first massage chair to implement Alexa capability. This feature is an experience unlike anything else—understanding and anticipating the user's preferences for a truly unique and personalized massage.

For a quick start, just say, "Alexa, ask my Novo to give me a massage," and feel the smooth recline sweep you back into a state of perfect relaxation. Or, say "Alexa, Ask my Novo to Start Virtual Therapist," to build your massage profile and enable Virtual Therapist to choose the perfect massage for you.
