- FCC Compliant
- Suitable for Outdoor/Indoor Fixture – Pendants, Wall Lanterns, Wall Light, Post Light

Overview:

Candex Flame Effect LED Light Bulb is designed with three functions – flickering flame effect, full blue general light, and fading glow. This flame bulb is great for adding cool fire ambience to any residential and commercial setting with the benefits of modern energy-efficient LED lighting technology.

The simulating look of a real live flame is great for decorative applications like lanterns, light posts, and more. Repeat turning on and off will toggle through the different modes. Also equipped is an orientation gravity sensor, which will automatically switch the flame direction in accordance with the bulb position. Candex Flame Effect LED Light Bulb provides the look of a real flame without the risk of a real fire.
