Lamiglas®

The Lamiglas Legacy Continues

The Lamiglas team is committed to continuous improvement in manufacturing processes and continuing our innovative industry-leading rod and blank design.

Innovative Design, the Lamiglas Hallmark for over 60 Years

Lamiglas has been innovating in rod development since 1949. Starting as a fiberglass blank manufacturer, Lamiglas evolved into the premier rod and blank company, offering technique-specific fishing rods. Innovating with graphite, fiberglass, and composite designs, Lamiglas has always kept at the forefront of the industry by responding rapidly to anglers' demands. Many of the top brands in the industry have their roots at Lamiglas.

It's more than just a fishing rod...it's a Lamiglas.

The first blank ever rolled at Lamiglas was an 11' fiberglass surf blank. Long one-piece blanks have been a specialty of Lamiglas since the beginning. Building fiberglass blanks gave Lamiglas the ability to provide top-quality USA-made blanks for surf, freshwater, fly and saltwater builders.

Lamiglas invested in hiring top-level Boeing engineers to pioneer blank designs that had never been produced before. This commitment to innovation and design provided the groundwork that continues today.

Dick Posey founded Lamiglas and was President from 1965 until 2015.

Factory-built Lamiglas fishing rods have been a staple of anglers for decades. Lamiglas has always been focused on innovating, even if it means being the first to try something new. As a result, Lamiglas designs have been emulated by rod builders and companies the world over. While many manufacturers have shied away from fiberglass and composite designs, Lamiglas goes full-steam ahead with them while offering the best in graphite and high-modulus rods.

With ultra-durable yet highly fishable saltwater options, Lamiglas has a strong foothold in both offshore and inshore rod design. The surf rod lineup is legendary. From the number one Northeast surf blank, the GSB, to the built factory sticks, Lamiglas surf is here to stay. Salmon and steelhead rods are a first language at Lamiglas. With everything from ultra-sensitive finesse rods to powerful boat rods for trolling, the lineup is unmatched. The bass and walleye options provide tapers and actions that hit classic techniques squarely while allowing for some of the most precise and sensitive feels available. Fly anglers fishing for everything from trout to tarpon will find that the lineup can outfit the most demanding of anglers.

As promised, we are continuing the Lamiglas Legacy!

Lamiglas donates to organizations that advocate for healthier runs of fish and create more anglers by teaching people to fish:

New for 2019

NEW SERIES GSB Surf

Legendary blanks have become a legendary USA surf rod. Lamiglas has created a new series based upon GSB blanks, which have proven to be the first choice of surf rod builders. These rods have special features like new guide spacings for smoothest operation with the most popular reels. The GSB Series is optimized with 14 models ranging from 8' to 11'.

NEW SERIES X-11 Great Lakes

Designed to fit the needs of Great Lakes anglers, these float rods have Michigan Handles and are available in 10'6", 11'6" and 12'0" models.

NEW MODELS The Closer Centerpin

Three 13' steelhead float models have been added. Rods are two-piece with moderate bend and fast tip in medium-light and light powers. These rods unlock USA-Made steelhead prowess.

NEW SERIES XCC Bait and Troll

Built on layered composite blanks, these rods are all graphite in butt section and all glass in the tip. Ultra-durable Fuji components and construction. Both of these models are multi-technique USA products.

NEW FEATURES Infinity Salmon and Steelhead Series

Completely revamped graphite handles with updated Fuji double-lock reel seats make these rods even more effective. The new SpinSation 9' spinning rod features the new SpinSation reel seat, which is optimized for casting spinners with a minimal foregrip so that you can touch the blank and feel the spinner blade turn.

NEW SERIES Redline Trolling

A special series for downrigger anglers, these rods feature mooching style Canadian handles. This new series will satisfy needs of Columbia River salmon trollers and beyond. These rods will spread baits out, yet achieve optimal action to lock fish in.

NEW FEATURES Super Surf 2G Pro Series

Updated with a modified new guide concept layout, these rods feature Paco handles with double-lock Fuji reel seats.

NEW SERIES SI Bass

A stealth mode updated version of the Infinity Bass, this series features a tactical black titanium guide setup on a high-modulous graphite composite blank with layering of intermediate modulous near butt sections. Reel seats are Fuji SK2.

NEW BLANK SERIES GSB RAW Blanks

The paramount surf blank, now available as a raw, unsanded graphite blank for unmatched durability.

Note: New rod models are indicated with a red asterisk.

Surfcasting Rods

Lamiglas President Tom Posey at the surfcasting capital of the world.

Over 60 years of dedication to the surfcasting community.

Surfcasters are a unique breed of fisherman. They put in long, sleepless nights, expose themselves to some of the harshest weather conditions, and are probably harder on their gear than anyone else on the water. This is why for over 60 years surfcasters have relied on Lamiglas for their day in and day out workhorse surf rods.

The first blank Lamiglas ever produced was a 1 piece 11' fiberglass surf rod back in 1949 and the surfcasting community has had a special place in our hearts ever since. When graphite was first introduced to the fishing rod market in the mid 70's, Lamiglas was one of the first companies to create a graphite surf blank. The line of blanks that Lamiglas introduced in the late 70's, rightfully named the GSB, or Graphite Surf Blank, became the most popular surf blanks ever made, and still are to this day.

Lots of companies have come and gone on the surf scene over the years, but Lamiglas has always been there to support the surfcasting community, and we can assure you that we are here to stay. We have exciting new developments in our surf rod and blank lineup for 2019 that we are proud to share with you. Whether you are slinging eels in the boulder-fields of Montauk, casting pencil poppers in the Cape Cod Canal, or tossing heavy jigs in Sebastian Inlet, Florida, Lamiglas has an option that you can rely on, day in and day out.

NEW GSB Series

Legendary Performance, Versatility, Durability

Lamiglas GSB surf blanks have long been the staple of surfcasting in the Northeast. For decades, the GSB has been the most widely used surf blank in the world, and it continues to be the number one choice of surfcasters. The reason for that is the extremely durable graphite used in the blank along with the unmatched versatility created by the finely tuned moderate action. The GSB will work better than most rods in open beach situations, but in the rocks, canals and on the jetties the GSB has been unrivaled for decades. Lamiglas now offers the renowned GSB blanks in an incredible factory-finished surf rod series.

This new series offers 14 models, so you will always have the right tool for the job. There are one-piece rod options and two-piece rods which are engineered to flex and perform like a one piece. The rods feature a custom "X Flock" style handle with a double locking Fuji deluxe reel seat. The black stainless steel Fuji K Frame guides were placed to a custom modified New Guide Concept layout optimized with the most popular surfcasting reels. The thread wraps are black with silver inlays, paired with silver logos on the rod for a modern, stealthy look. Also featured on the 10- and 11-foot models is the "Mark of the 50," an indicator on the blank exactly 50" from the Fuji buttcap for quick, accurate measurement of your fish of a lifetime!

The series also features the 9'2" "Skinner Rod," named after legendary New York surfcaster and avid Lamiglas fan, John Skinner. Old School models, 10' and 11', are meant to mimic the actions of GSB blanks from decades ago using newer graphite materials.

The new GSB series surf rods are proudly handcrafted from start to finish in the USA and are backed by a Limited Lifetime Warranty.

SuperSurf 2G Pro Series

Completely revamped for 2019

These powerful, lightweight surf rods are built using our custom blend of graphite materials to shed tip weight and gain sensitivity while increasing the bottom end power and durability. The Super Surf 2G Pro has been completely rebalanced. The modified New Guide Concept layout brings out the true performance of the rod by distributing the load more evenly throughout the blank, which is going to translate to more fish fighting power and longer casting distance. The thicker handle configuration will give you the feeling of more power in your hand and better durability in harsh environments. The 2G PRO was also updated with a double locking Fuji Deluxe DNPSSD reel seat tested to fit every size of Van Staal reel along with other popular surfcasting reels on the market. A rubber Fuji butt cap was added for better blank protection and functionality.

The thicker handle configuration will give you the feeling of more power in your hand and better durability in harsh environments. The 2G PRO was also updated with a double locking Fuji Deluxe DNPSSD reel seat tested to fit every size of Van Staal reel along with other popular surfcasting reels on the market. A rubber Fuji butt cap was added for better blank protection and functionality.

These 70/30 split, fast action, high modulus blanks are built for high end performance and are updated with features to set them apart from the competition.

The Super Surf 2G PRO carries a Limited Lifetime Warranty and is carefully hand-crafted in the USA from start to finish.

Insane Surf

High end performance at an affordable price

The Insane Surf series offers fine tuned performance at an affordable price. The moderate/fast action of the Insane Surf creates an extremely versatile rod for surfcasting and will do it all from throwing plugs and jigs from the rocks or chunking bait on the sand. The rods feature a high gloss coat of black paint with red thread wraps and black components for an attractive, modern look. The custom "X Flock" style handle gives you a solid grip on the rod while contributing to a light and sensitive feel. SeaGuide black K Frame style guides and reel seats were chosen for optimum performance. These 50/50 split two-piece rods come in four spinning models and two casting models to give you options for any situation.

One Year Limited Warranty.

Saltwater Rods

Tri-Flex Inshore Series Toughest inshore rods on the market

One type of Lamiglas blank and built rod has earned its place in saltwater fame for years now, the legendary Tri-Flex series.

Named for their tendency to layer different types of materials to achieve their desired action and durability, the rods are built of graphite and fiberglass. This material selection is totally necessary to achieve what we believe is the ideal inshore saltwater action. Limited Lifetime Warranty.

“Nice sensitive tip with plenty of backbone. Very strong; can withstand heavy use without breaking. Cork grip is attractive with a nice foregrip for fighting fish.” - Capt. Mike Roy

NEW Black Inshore Series
Trout to tarpon, and everything in between

The Black series is an exciting, affordable new inshore saltwater series from Lamiglas. This series will have a wide selection of models to cover every type of inshore application. The rods feature all Fuji components and a custom tapered cork handle. The high modulus graphite blank is reinforced with carbon fiber in the butt section for added backbone and durability. This series has five spinning models ranging from a light 6'11" rod for small jigs and plastics to a heavy 7'6" model for casting large plugs or bait to striped bass or tarpon and five casting models which are based upon our ever popular TriFlex Inshore series. A "T" indicates trigger grip. With a Limited Lifetime Warranty to protect you from defects, you will not find a better option for inshore saltwater fishing. Period.

Bluewater

Beautifully designed jigging and trolling rods

Honed-in on technique-specific saltwater options, the Bluewater series is an attractive choice to anglers who want capable but enjoyable actions. The lightest jigging rod is designed for finesse vertical jigging, while the options above range from live-bait to trolling rods. X-Flock grips, Fuji reel seats, gorgeous aqua blue finish...a set of these is not only a visual statement but a fleet of fish catchers. Limited Lifetime Warranty.

Big Fish Offshore Series

Powerful rods for powerful fish

Offshore fisheries can demand brutal rod designs, yet may require a continuous, load distributing tip. That's why we make the Big Fish Offshore. Whether you're chunking bait down deep or trolling fast for tuna, the BFC's must be reckoned with. The 5'6" models are available in roller or conventional tip. They are extra-heavy composite rods that are meant to deal with unrelenting saltwater species. The 6'6" spans the gap between a heavy troll rod and a bait-chunking rod, while the lighter 7'0" is an incredible live-bait and trolling rod. One Year Limited Warranty.

Insane Saltwater

Affordable toughness, exceptional performance

A powerhouse Saltwater lineup, the Insane Salt rods are made for powerful hook-sets, sensitive feel and strong backbone. With a range of rods that runs from light spinning options to powerful deep-water offshore rods, the Insane Salt Series brings a lot to the table. Insane Saltwater series is affordably priced and backed by a one-year warranty to protect you from any defect. These rods are all one-piece with X-Flock handles and a beautiful black finish with red trim.

Salmon and Steelhead Rods

“The Closer” Centerpin

The ultimate float rod ...

The Closer Centerpin Series has already achieved legendary status within a year of release, but we haven't stopped at three pioneering models. We've released three new 13' models for top-level steelhead and trout fishing. Designed by Roger Hinchcliff from the Great Lakes, who also fishes the West Coast, this series will accommodate steelhead and salmon fisheries everywhere.

It all starts with a graphite composite blank, which features a fiberglass layer in the butt section for exceptional balance and power. The guides are over-sized recoils on the top for fewer icing issues, with durable and sleek ceramics on the bottom section. There are float-depth indicators along the spine of the rod, to quickly calculate depth by hooking into the hookkeeper.

The reel seat and sliding ring models (“R”) are optimized for all types of reels and are perfectly positioned on the custom proprietary CFX Carbon-Weave handles. The handle *warms* to the touch and grips phenomenally, even in cold/wet weather. Limited Lifetime Warranty.

Roger Hinchcliff,
Olympic Peninsula

We've reinvented how anglers think about centerpin rods. Choose from agile light action models to powerful medium-heavy rods. The concept is always the same: perfect hooksets, leader protection, and optimal mending.

SI Series

Salmon and Steelhead, Perfected

With four new models, the SI Series has been updated with black titanium Fuji K guides.

If there ever was a rod that felt like a surgical grade instrument, the SI Series is it. Pick one up...you'll find sensitivity, power, lightweight performance, and incredible look and feel.

The look is covert, and the feel is unreal. Sensitive and powerful, the rod feels absolutely capable in the hand, yet has the finesse to feel fish activity immediately.

Handmade from the blank to the finished rod in the USA. Four new models fill the lineup of performance salmon and steelhead rods: a 10'6" 10-20 spinning rod for optimal float, drift, spinner and spoon performance, a 9'4" spinning rod for multi-technique salmon and steelhead fishing, plus a 9' 8-12 casting rod and 9'6" 4-10 spinning rod have been brought back due to requests from anglers.

Limited Lifetime Warranty will protect you from defects.

Infinity Salmon/Steelhead

Brand new handle design...Introducing the SpinSation

Premium USA-Made Salmon and Steelhead tools. These rods, actions and specs are designed for optimal catch rates. With updated models and handle design, the Infinity Series has taken an excellent performing and selling rod, and made it even more impressive.

The new handle design maximizes sensitivity and fits comfortably in hand for casting and feeling rod response. The new "SpinSation model" is a 9'0" 8-15 lb. rod designed to be the optimal spinner rod for steelhead, coho (silver salmon), and chinook (king salmon.) It is also extremely effective as a spoon, drift or bobber-dogging rod. Limited Lifetime Warranty.

The latest bouncer, a 7'10" 10-25 lb. rod, is designed to bounce 1/2 - 6 oz effectively. Very responsive and incredible feel in the handle.

The 10'6" MLS is an anglers' dream of a steelhead float rod. With incredible finesse, it is the perfect marriage of light and powerful steelhead float techniques.

XCC Kwik Series

Finest boat rod ever made

Everything is proven: from the USA-Made blanks to the tough, performance Fuji Components. These are the best boat rods that money can buy. If you're hanging rods out of rod-holders, pulling divers, loading into downriggers, sending plugs out...it will be optimally handled by the XCC Series. XCCs are graphite/glass composite rods. Limited Lifetime Warranty.

G1000 Pro Staple Salmon/Steelhead Rod

Few rods are as historically revered as the G1000 Pro Series. With designs that pull from the best of our past, and new developments and features that give this rod modern appeal, the G1000 Pro is a premium, durable workhorse. The light action steelhead models are a dream, fully capable yet light and well balanced.

New models in the G1000 Pro include 10' two-piece 10-15 lb. casting and spinning models, truly versatile rods. These rods will float fish, bobber-dog, drift fish, cast spinners, cast spoons...you name it. It's the ultimate bank and boat rod for casting to salmon and steelhead. We've also added an 11'6" Michigan handle model.

Fuji double-lock cast and spin reel seats, subtle blue trim, and gorgeous polished graphite round out a beautiful but classic look and feel. Limited Lifetime Warranty.

NEW G1000 Pro Alaska Edition

USA Made—Alaska Proven

The G1000 Pro AK Edition is for salmon powerhouse angling. With blank designs that have been used heavily everywhere from the Kenai Peninsula to Mid-Coast California, these rods are built to handle powerful salmon. With double-foot guides all the way up and Fuji Reel seats, these are built for continuous fish-catching ability. Names like the Kenai Special and Kenai King will have anglers telling stories about big chinook or coho. Limited Lifetime Warranty.

X-11 with Graphite Handles

Modern handles, proven models

These graphite handles give a modern, attractive look, while offering benefits to boat and bank anglers alike. For salmon rod-holder rods, this is a highly popular choice to outfit a boat. Anglers picking up a rod to cast spinners or float will find this series very attractive in looks, performance and price point. Three X-11 graphite handle rods are available in both standard and pink finish: add a "P" to the model number to order pink finish. One Year Limited Warranty.

X-11 with Cork Handles

A best seller with prime actions

A series that teaches that affordability can still come with optimized technique-specific tapers that will fish very well under a wide range of conditions. Hugely popular in Northwest and Great Lakes fisheries, the X-11 has continuously surprised anglers with its performance and value.

Sean Kearney, LX86MHS,
Kenai River

The classic cork handle options on our X-11 series harken back to Lamiglas series of old, and are extremely popular among anglers the country over.

The models in this series have continuously proven themselves in technique specific salmon & steelhead fisheries. From strong & steady salmon boat rods to steelhead finesse options, this series accomplishes what anglers need consistently.

Features a one-year limited warranty, to protect anglers from any defects.

NEW X-11 Great Lakes Series Michigan handles, optimal tapers

“Michigan-Handles” have been a Great Lakes favorite on spinning float models. Our new 10’6”, 11’6” and 12’0” models feature the extended foregrip with shortened butt that so many anglers know and love. The tapers on these rods are ideal for float fishing with ample bend, but a moderate-fast action. One Year Limited Warranty.

Jarett Carlson,
Illinois Steelhead

Caylen Phegley, HS94MHS,
Olympic Peninsula

Redline Salmon Steelhead Angler favorite, completely optimized

If you only considered appearance, the Redline series would be a standout rod, but there is much more to these rods than just a deadly appearance. The designs are built for multi-technique tapers, with a high degree of durability. This aspect makes them a versatile option that is great for anglers who need to get the most technique applications out of one rod.

The components are meant to match the boat and bank techniques anglers love with double-locks on the medium-heavy and heavy casting models. Limited Lifetime Warranty.

Graphite handles with rubberized butt caps. Guides are spaced optimally to provide line control for consistent casts and an even bend.

Redline CenterSpin Pin and spin

The HSI2CS CenterSpin is a 12' two-piece steelhead and salmon "Pin and Spin" rod that you can use with either a centerpin or spinning reel. This rod has an efficient tip that can mend lines very smoothly, and it's deadly accurate for placing the float exactly where you need it.

The blank is durable, agile mid-modulus graphite with midnight gloss finish and red trim. The sliding rings allow you to use any size reel. The CenterSpin has a rubberized aluminum butt cap for durable protection and tip balance. Graphite handle with white Lamiglas logo. Limited lifetime warranty to protect against defects.

	HSI2CS	12'	2	6-15	1/8-3/4	1	Mod/Fast	Medium	Pin and Spin

NEW Redline Trolling Series Maximize your odds

Made just for the boat anglers who like to cover water efficiently. Redline trolling rods will completely satisfy the downrigger angler, mooching reel user, or classic weight and bait troller. Grip lengths, reel seats, and guide spacings are specifically designed to work hand-in-hand with your trolling technique. Features graphite handles with red rubberized aluminum butt caps, except HSI06HC (black butt cap). Limited lifetime warranty to protect against defects.

Classic Glass A continuous history of success

Classic fiberglass two-piece rods that earn massive angler satisfaction, these rods not only hook fish, they *land* fish. The continuous moderate bend of the proven E-Glass blank optimizes your downrigger program, trolls baits flawlessly, allows plugs to "hunt"...yet quickly responds to the bite.

There is plenty of distribution of forgiving power to keep a salmon entertained on the way to the boat. One-year warranty to protect against defects.

Freshwater Rods

Infinity Ultralight No bite goes undetected

The ultra-sensitive and ultra effective Infinity Ultralight. Premium high-grade graphite blank designs provide the ultimate action for casting lures and baits to trout. These are the top-end USA designs, with a balanced deluxe graphite handle and ergonomic reel seat. You'll be amazed by the overall feel, but your awe will grow when you cast, and hook into a fish.

We've updated these rods for even more beauty and performance, with striking green Infinity trim, and a brand new handle design. Limited Lifetime Warranty to protect you from defects in material.

Rod	Blank	Length	Pcs.	Line Wt.	Lure Wt.	Handle	Action	Power
S P I N IF702UL	AFW84ULF2	7'	2	2-6	1/16-1/4	1	Mod/Fast	Ultra/Lt
IF762UL	ESH902UL	7'6"	2	2-8	1/16-1/4	1	Mod/Fast	Ultra/Lt

X-11 Ultralight Classic build, exceptional performance

The feel in hand of these models is highly pleasing to the angler, and they really perform. The actions on the 6' and 6'6" models are a little faster than the average trout rod, which allow for quick, hook-pinning reactions. The bend throughout the rod keeps these fish hooked while protecting the light leaders necessary to lure fish. The 7' models are slightly more moderate, ideal for trout and kokanee trolling or bait fishing. These rods are simply ultra-fun! One Year Limited Warranty.

NEW SI Bass Stealth and accuracy

Absolute stealth, deft, accuracy, and fast hooksets, with hook-pinning tapers. The SI Bass is the premier USA-Made bass rod. With four models that cater to a need for sensitivity, power, and ultra balance, these rods are simply unbelievable on the water.

Lightweight balance keeps you fishing effortlessly for hours. Power can quickly convert numerous bass, while fast-action tips provide perfect response. No dangerous “cutoff point” in the blank which can break leaders or lose fish. The SI Bass is a premier USA-made bass-catching machine.

	Rod	Blank	Length	Pcs.	Line Wt.	Lure Wt.	Hndl.	Action	Power

XP Bass Bass fishing, unlocked

A series of effective bass fishing instruments designed for lure presentation and hooksets that also focus on distribution of bend to keep fish hooked. These graphite, split-grip cork bass rods are prime tools for smallmouth and largemouth fishing. The medium-action rods are ultra-versatile, able to cast jigs and plastics or reel back crankbaits. The heavier rods are lightweight and enjoyable to fish, but with serious backbone. This series consistently suits serious bass anglers, including tournament competition needs. Limited Lifetime Warranty.

The Closer Walleye Series

Extra fast, extra sensitive

The Closer Walleye rods prove that the perfect walleye tip will produce more fish caught and landed. The extra fast tip is truly capable of feeling fish both on the top of a jig motion, or on “the fall.” With woven graphite handles that are optimized for sensitive, balanced feel, Lamiglas has made every effort to provide the finest walleye design ever. Limited Lifetime Warranty.

You'll be absolutely floored with the percentage advantage you have over other walleye Jigging Rods. Three models for highly effective jigging techniques. Designed in conjunction with Roger Hinchcliff and walleye experts.

Roger Hinchcliff
Lake Erie walleye

Kokanee and Trout Trolling Series

Hook more, land more

This series catches huge amounts of fish every year, on lakes where kokanee and trout are found. Lake anglers fishing from a boat are often the most productive in terms of numbers. Watching a takedown on a light action trolling rod is an exciting experience. Kokanee and trout are notorious for having soft mouths. Combine that with the way kokanee and trout thrash around when hooked, and you have a recipe for fish that have the ability to spit the hook easily. The right rods must be limber enough to give in to the thrash of the fish and not pull back too hard against the lip with the hook. They also must load into a downrigger if using one. One year Limited Warranty, except FC76UL and XCC762ULGH, which have a Limited Lifetime Warranty. The CGR762L is available with a pink blank—add P to model no. to order.

XCC Bait and Trolling Series

All glass tip, powerful graphite butt

Unique, brilliant blank construction, rugged and premium components, built for long-term success.

With an all glass tip section, leading into a powerful graphite butt, you can actually see the composite layering on the rod itself. The tip action is unparalleled for crankbaits (plugs), live-bait and trolling. Rugged premium Fuji double-lock reel seat and guides, graphite handle built for long-term success. USA-Made with a Limited Lifetime Warranty to protect you from defects.

Actions

Action is the measurement of deflection or flex the rod exhibits under load—where the flex occurs along the length of the blank.

“Extra fast” rods concentrate the flex near the tip of the blank whereas “slow” distributes the bend completely through the blank. Actions can vary in different rod types. Fast action in a bass rod is typically slightly faster than a steelhead rod.

Line/Lure Rating

Line rating is meant to suggest the normal breaking strength of line that can be paired with a properly adjusted reel without harming the rod. Suggested line rating offers the best castability.

Renee Johnson ,
hooked up in Oregon

Lure rating is the ideal weight range for casting with the rod. Some trolling, bouncing or anchor rods, like the XCC series, are designated with a lure-rating for weight to use without casting.

Power

Power is defined by the amount of pressure required to flex the blank.

Buoy 10, Astoria
Oregon

Lamiglas American-Made Fishing Rod Blanks

Custom rod building is more than a hobby, it's the art of embracing anglers' unique needs. Our USA-made and proven blanks provide the canvas for the builder. Lamiglas started as a blank builder in 1949, and our designs have kicked off multiple technique-specific rod staples.

Unlike many other blank manufacturers, we are not afraid to take on unique challenges, blending many types of materials, classic proven fiberglass options, highly optimized graphites, and other new developments.

Lamiglas supplies rod builders who believe their handiwork should be utilized on a respected blank.

USA-made from the first roll to where we tag the finished blank, Lamiglas blanks give you the assurance that you've built your custom rod on a premium blank with tested and optimized actions.

Surf Blanks

Super Surf 2G Blanks

These surf rods are all about sensitivity, fast action and moving power. Perfect for launching plugs or bait out into the open surf, the SuperSurf 2G blanks are, without a doubt, also the most attractive blanks on the beach. With 70/30 split options and telegraphic tip sections, these go out of their way to provide rod builders a modern surf blank to build upon.

Brilliant Blue Finish.

Fiberglass Surf Blanks

We wouldn't need to promote these one bit, and they'd just keep flying out the door. We've sold these for decades upon decades, since 1949, in fact. Absolute durability, power and strong flex means these blanks can launch baits and weights farther than you'd like to know. Ideal for surf, catfish, sturgeon, salmon plunking, and beyond. See why builders keep relying on our Fiberglass Surf Blanks. To order a blank with black finish, add "B" to the beginning of model number (example, BSBI 362M).

Honey or Black finish, except for SBI 665F and SBI 805F, Black finish only.

GSB Series Blanks

The GSB series is hands down the most well-loved surf blank series ever produced. Not only are they ridiculously durable, but they are amazing to fish. The versatility of these blanks cannot be overstated. Anglers have long used them for plug fishing, live bait, bucktails, and every other imaginable technique. Moderate action makes for easy casting, with depth and accuracy. They are a northeast staple. Beautiful gloss graphite in one- and two-piece options. Just ask a surfcaster—they'll know about the GSB.

Fiberglass Trolling Blanks

Classic blanks with modern technology. These blanks are exceptional for many saltwater applications, especially trolling. A great moderate action allows you to detect bites with the rod bent in trolling situations and also absorbs the impact of a thrashing fish to keep the hooks pinned in its mouth. These blanks are available in three colors, Honey (H), Black (B), or White (W). Use H, B or W to indicate the color desired when you order.

Honey, Black, or White Finish.

BT1083M	9'	1	20-30	N/A	0.846	9	9.3	Moderate	Medium

Tri-Flex Graphite Inshore Blanks

Two parts graphite, one part glass. These options span the range of inshore techniques with durability and finesse. With blanks that can do everything from heavy three-way bait techniques, to plug fishing and jigging, this inshore series has been depended on for fisheries that require something special. Ratings on blanks differ based on casting or sinker weight. These blanks tend to run slightly heavier than the usual blank ratings. Look to our website for more information on this classic series.

High Gloss Clear Finish.

Salmon-Steelhead Blanks

The Closer Centerpin Blanks

Two words describe a fast tip with a beautiful moderate bend: The Closer. This series has shaken the float rod world, and it's not likely to recover. It sounds idealistic to have power, sensitivity, leader protection, and beauty all in one blank, but it's not. The Closer series models are the finest float blanks in the world, which is why they continue to sell to builders and anglers anywhere steelhead and salmon are found.

Polished Finish with Fiberglass Butt.

SI Blanks

When you've decided you're ready to build the best rod possible, the SI series will be waiting for you. With the perfect combination of sensitivity, power and lightweight performance, these blanks translate to finesse techniques. The graphite weave in the butt section counterbalances perfectly; the tip sections are efficient fish catchers.

Polished Finish with Graphite Weave Butt.

Freshwater Blanks

NEW SI Bass Blanks

Fast action high-modulus graphite blanks built for pinpoint accuracy and thunderous hooksets, with a graphite weave in the butt sections of these one-piece blanks. The sensitivity cannot be overstated.

Polished Finish with Graphite Weave Butt.

Blank No.	Length	Pcs.	Line Wt.	Lure Wt.	Butt Dia.	Tip Size	Avg Wt.	Action	Power
SI843*	7'	1	8-17	3/16-5/8	0.500	4.5	2.2	Fast	3 Power
SI863*	7'2"	1	10-20	1/4-3/4	0.510	4.5	2.4	Fast	3 Power
SI864*	7'2"	1	12-25	1/4-1	0.520	5	2.5	Fast	4 Power
SI875*	7'3"	1	12-25	1/4-1 1/2	0.528	5	3.0	Fast	5 Power

NEW The Closer Walleye Blanks

Three options that truly will hook and land more walleye. With light biters, people tend to miss fish. When a builder wants the best of the best, the Closer Walleye will not disappoint. Ultra-lightweight blanks with extra fast action.

Polished Finish with Graphite Weave Butt.

Blank No.	Length	Pcs.	Line Wt.	Lure Wt.	Butt Dia.	Tip Size	Avg Wt.	Action	Power
CWB68MH*	5'8"	1	10-15	1/4-1	0.433	4.5	1.6	Ex/Fast	Med/Hvy
CWB72MH*	6'	1	10-15	1/4-1	0.444	4.5	1.7	Ex/Fast	Med/Hvy
CWB75MH*	6'3"	1	10-15	1/4-1	0.450	4.5	1.8	Ex/Fast	Med/Hvy

Kokanee and Trout Trolling Blanks

Ultralight trolling blanks for kokanee and trout rod builders. Optimized for downriggers or flat-lining, these options provide the perfect blank to build a top-level trolling rod.

FL - Honey Yellow Finish; XCC - Black Gloss Finish, FL - Honey Yellow Finish.

Blank No.	Length	Pcs.	Line Wt.	Lure Wt.	Butt Dia.	Tip Size	Avg Wt.	Action	Power
FL9041	7'6"	1	4-8	1/6-1/4	0.440	5.5	1.6	Slow	Ultra/Lt
XCC900-1	7'6"	1	4-10	N/A	0.450	5.5	2.0	Moderate	Ultra/Lt

Infinity Ultralight Blanks

We need to emphasize sensitivity here. The expensive but necessary graphite we buy to create these blanks responds quickly, but the taper we designed still feels ultralight. Diameter is small, balance is excellent...this blank is fun to fish.

Polished Finish.

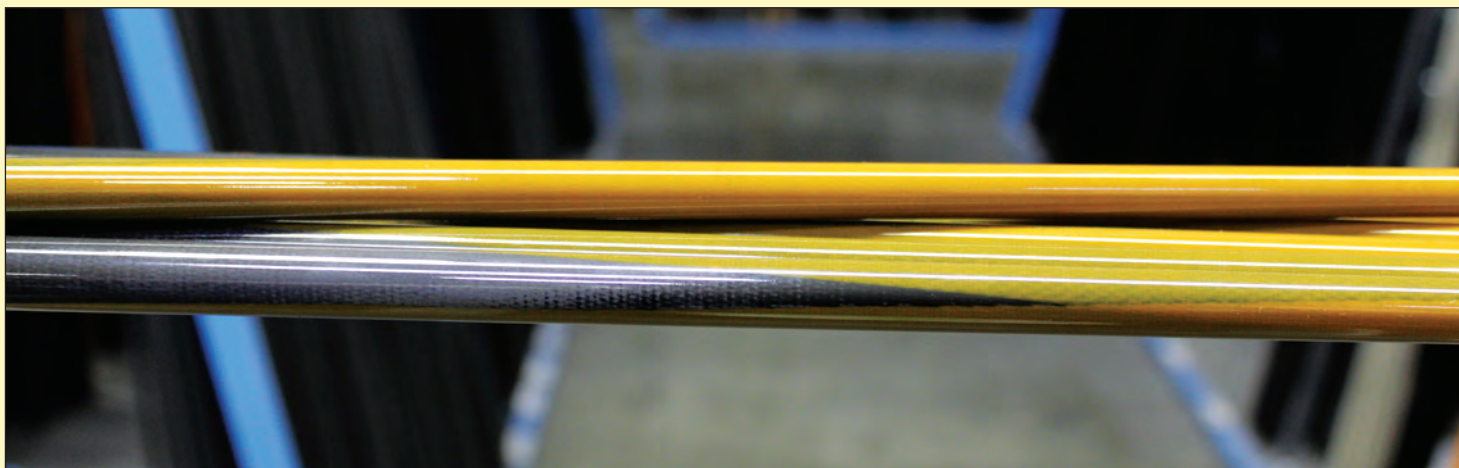

Blank No.	Length	Pcs.	Line Wt.	Lure Wt.	Butt Dia.	Tip Size	Avg Wt.	Action	Power
AFW84ULF2	7'	2	2-6	1/6-3/8	0.436	4.5	0.9	Mod/Fast	Ultra/Lt
ESH902UL	7'6"	2	2-8	1/8-3/8	0.443	4.5	1.0	Mod/Fast	Ultra/Lt

XCC Bait and Troll Blanks

All glass in the tip, all graphite in the butt section. You'll see the layers of composite materials in this blank, which results in a unique look. The action of the tip is perfect for plugs, bait and other trolling techniques. Once you get to the graphite butt section, the fight will be in your favor. Loads of backbone with that limber tip you need for some fisheries.

High Gloss Clear Finish on Graphite/Honey Blend Blank.

Blank No.	Length	Pcs.	Line Wt.	Lure Wt.	Butt Dia.	Tip Size	Avg Wt.	Action	Power
HCCB845M	7'	1	8-20	3/8-1 1/2	0.702	6.5	3.6	Fast	5 Power
HCCB935M	7'9"	1	12-25	1/2-2	0.848	7	4.4	Fast	5 Power

Fly Rod Blanks

G1000 Pro Fly Rod Blanks

Precision casting, powerful two-piece fly rod blanks. The bass and inshore markets are especially partial to these blanks, though trout, steelhead and salmon anglers have been building on them for decades. Classic designs with modern graphite development.

Polished Finish.

Blank No.	Length	Pcs.	Line Wt.	Butt Dia.	Tip Size	Avg Wt.	Action	Power
GP1085	9'	2	5	0.440	4.5	1.7	Mod/Fast	5 wt
GP1086	9'	2	6	0.440	4.5	1.8	Mod/Fast	6 wt
GP1088	9'	2	8	0.450	5	2.1	Mod/Fast	8 wt
GP1089	9'	2	9	0.450	5	2.3	Mod/Fast	9 wt
GP10810	9'	2	10	0.510	5	2.4	Mod/Fast	10 wt

Fiberglass Fly Rod Blanks

Vintage honey yellow fiberglass blanks that capture the angler's imagination. To build a truly vintage and effective glass rod, what is a better option than this USA-made fiberglass fly rod blank? We've got builders that can't help but keep building on these blanks. The 3-, 4-, and 5-weight options are perfect for smaller stream trout and panfish fisheries.

Honey Yellow Finish.

Blank No.	Length	Pcs.	Line Wt.	Butt Dia.	Tip Size	Avg Wt.	Action	Power
FL783	6'6"	2	3	0.345	4.5	0.9	Moderate	Light
FL843	7'	2	3	0.405	5.5	1.6	Moderate	Light
FL904	7'6"	2	4	0.445	5.5	1.8	Moderate	Light
FL965	8'	2	5	0.490	6	2.0	Moderate	Med/Lt

Rod Repair/Replacement | Limited Lifetime Warranty

Summary

View More Info - www.lamiglas.com/warranty

Questions? Contact us: warranty@lamiglas.com

Every new Lamiglas comes with either a one-year Limited or Limited Lifetime Warranty. Our warranty will protect you if your rod breaks due to a defect in the rod or material. Our warranty does not cover wear-and-tear, accidental breaks, and misuse/abuse of the rod. Warranty is limited to original owner and does not transfer with second-hand sales.

Our rods are built to last for their intended use. Using the right tackle for your fishery is essential – do not overload, high-stick or otherwise abuse the rod. Those type of breaks are not covered under warranty.

Will I have to pay to get my rod replaced if it breaks?

1. The rod broke due to a defect in the rod or material: **No**, you will not be charged for the replacement of the rod (within warranty period.) You may need to cover shipping.
2. The rod broke due to an unfortunate accident, misuse or abuse: **Yes**, you will be charged for the replacement but Lamiglas will work to offer you the **best possible replacement price** to get your rod fishing again. Our Fast-Track program offers very appealing replacement costs.

If your rod fails for any reason send the entire rod in a disposable container to:

Lamiglas Warranty Service
1400 Atlantic Avenue
Woodland, WA 98674

If you believe your rod was defective and needs a warranty review, include a note within the package describing what happened. If the rod broke due to an accident, abuse or wear-and-tear you can request "fast-track" and take advantage of affordable replacement pricing and quick turn-around time.

We'll need your address, contact information, and any pertinent information related to the rod included with the shipment. If you have questions on the status of your rod, e-mail warranty@lamiglas.com

Note: Lamiglas Dealers are not authorized to make warranty decisions. In order for your rod to obtain the proper warranty inspection and determination, the damaged rod must be sent to Lamiglas Warranty Service.

A rod can still be replaced/warrantied even if discontinued, but our replacement may need to be a current, comparable model: <http://www.lamiglas.com/warranty>
