# Lamiglas®

## Celebrating 70 Years of Rod Building Excellence The Lamiglas Story

Lamiglas has been innovating in rod development since 1949. Starting as a blank manufacturer of fiberglass designs, Lamiglas evolved into the premier rod and blank company, offering technique-specific fishing rods. Innovating in graphite, fiberglass and composite designs, Lamiglas has always kept at the forefront of the industry through rapid, responsive development work.

The first blank ever rolled at Lamiglas was an 11' fiberglass surf blank. Long one-piece blanks have been a specialty of Lamiglas since the beginning. Building fiberglass blanks gave Lamiglas the ability to provide top-quality USA-made blanks for surf, freshwater, fly and saltwater builders.

Lamiglas invested in hiring top-level Boeing Engineers to pioneer blank designs that had never been produced before. This commitment to innovation and design provided the groundwork that continues to build today.

## The Lamiglas Result

Factory-built Lamiglas fishing rods have been a staple of anglers for decades. Lamiglas has always been focused on innovating, even if it means being the first to try something new. As a result, Lamiglas designs have been emulated by rod builders and companies the world over. While many manufacturers have shied away from fiberglass and composite designs, Lamiglas goes full-steam ahead with them while also offering the best in graphite and high-modulus rods.

With ultra-durable yet highly fishable saltwater options, Lamiglas has a strong foothold in both offshore and inshore rod design. The surf rod lineup is legendary. From the most popular surf rod ever built, the "GSB," to our latest creation, the Nightshift, Lamiglas Surf is here to stay. Salmon and steelhead rods are a first language at Lamiglas. With everything from ultra-sensitive finesse rods to powerful boat rods for trolling, the lineup is unmatched. The bass and walleye options provide tapers and actions that hit classic techniques squarely while allowing for some of the most precise and sensitive feels available. Fly anglers fishing for everything from trout to tarpon will find that there's a Lamiglas rod to meet their needs.

Lamiglas continues to be focused on quality products and servicing our clients to the highest level. Our company looks forward to a continued positive relationship with all of the great anglers worldwide who enjoy this amazing sport of fishing.

The Lamiglas Team is committed to continuous improvement in our manufacturing processes, producing the finest quality fishing rods and blanks, servicing our clients to the highest level and continuing our innovative and industry-leading rod and blank design. That has been the hallmark of Lamiglas for 70 years, and it will continue for many more.

Lamiglas donates to organizations that advocate for healthier runs of fish and create more anglers by teaching people to fish:

# Lamiglas Innovations for 2020

## New Walleye Rod Series

Lamiglas has added two new series, the **Hammer** and **Assassin**, with a total of nine more walleye fishing models this year. All nine new models of ultra-fast actions and maximum sensitivity.

## Tri-Flex Inshore V2

We've completely revamped our legendary Tri-Flex inshore series with new actions, lengths and a fresh new look! The new rods now feature custom CFX carbon fiber weave grips, matte black blank finishes, low profile reel seats on the lighter models...and more!

## Three New Surf Rod Series

The **Nightshift** is the new standard in performance for surf fishing, while the **Carbon Surf** is the new standard for value. The **PNW Surf** was designed just for West Coast anglers.

## New Black Inshore Models

Due to popular demand, we've added some great new models into the Black Inshore Series. Added two the line up are two lighter conventional models, also the new B7325S, a 7'3" versatile inshore rod that is just a touch heavier than the ever popular B7320S.

## Two New Redline Kokanee Rods

We've added a new 9' kokanee rod and a 7'6" Kokanee Kid Redline Composite rod!

## Two New Redline CenterSpin Models

The extremely popular Redline 12' CenterSpin rod has been complemented with 11'3" and 13' models to create an exciting series that offers greater variety for anglers who prefer to pin and spin.

## XCC Kwik Series Makeover

The best salmon trolling rod on the market just got even better. The positive feedback from our team members fishing these new rods has been overwhelming! Updated with custom CFX Carbon Fiber handles and a matte black finish.

## Columbia River Series Sturgeon Rod

The perfect rod for sturgeon fishing the Columbia River. Powerful graphite/fiberglass composite construction, high quality components.

## X-11 Series Updates

We've redesigned our X-11 rods to make them better than ever! All X-11s now feature a graphite gray blank color and upgraded stainless steel guides.

**Note: New rod models are indicated with a red asterisk.**

# Rod Labels, Actions, and Power

## Reading a Rod Label

To select the right Lamiglas rod, pay close attention to the details. (We do!)

Surprisingly, there is no consistent, scientific methodology that all rod manufacturers use to rate their rods. Some use computers, others use complex graphs. We use fish...along with more than 70 years of experience.

Each rating is a collective recommendation of the hi-low thresholds in which the rod is designed to optimize performance. The variable factors for each rod, lure weight, line weight, action, and power are clearly listed throughout this catalog, as well as labeled on the rods just above the handle.

\*GP 86 MC = G1000 Pro 8'6"  
Medium Casting Rod

Line Weight      Lure Weight

Action/Power/Type		
S = Spinning Rod	UL = Ultralight	B = Bouncer
C = Casting Rod	ML = Medium Light	J = Jig
T = Trigger Grip	M = Medium	MT = Mag Taper
-GH = Graphite Handle	MH = Medium Heavy	-AK = Alaska
-M = Michigan Handle	H = Heavy	OS = Old School
RT = Roller Tip	XH = Extra Heavy	F = Mooching Handle
		CS = CenterSpin
		DR = Downrigger

### Action

“Action” is the measurement of deflection or flex the rod exhibits under load, and more importantly, where that flex occurs along the length of the blank. “Extra Fast” actions concentrate more of the flex towards the tip of the rod. “Slow” actions distribute the flex progressively throughout the entire blank. Because there is no single, scientifically accurate measurement system accepted by the entire industry, not all actions are exactly alike. Lamiglas rod actions are dictated by a variety of factors; the intended application, targeted prey, lure weight, line weight and, quite honestly, what the professionals on our team recommend.

### Power

Applicable to all of our rods except our fly rods, “power” is defined by the amount of pressure required to flex the blank. These rods are designed to optimally manage a specific range of lure and line weights. The heavier the line and lure, the more power you’ll need to cast, fight and pull effectively. The lighter the line and lure, the less power you’ll need.

### Weight

A rod that feels heavier each time you cast eventually slows you down. The type and amount of material used contributes greatest to this factor. Lamiglas selects the lightest material and components for the job, but we resist the temptation to go “too light.” All rods can break. We design rods strong enough to cast for a lifetime, without excess weight that would make your arms feel lifeless.

### Taper

The measurement of change in the diameter of the blank from the tip to the butt is known as the “taper.” Many use the term synonymously with “action.” Actually, taper is one of the factors which rod builders use to achieve the desired action. An aggressive taper at the tip creates a faster action. A straight taper (one which changes at an equal rate throughout the blank) creates a moderate or slower action.

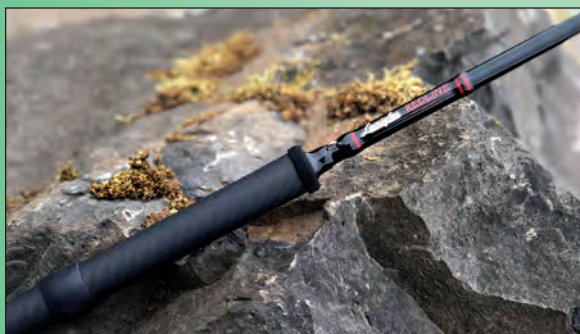

**“The Closer” Centerpin**  

**Centerpin fishing, reinvented**

The Closer has reinvented how anglers think about centerpin rods. Long gone are the days of soft, noodly rods that are hard to mend and can't bury hook sets on a long drift. With the ultra sensitive and fast tip of The Closer, you will mend your line with ease every time, have perfect float control, and will be able to set the hook perfectly at long distances. The moderate action and parabolic nature of the blank will protect leaders from break offs. The guides are over-sized recoils on the top for fewer icing issues, with durable and sleek ceramics on the bottom section. There are “float-depth” indicators along the spine of the rod, to quickly calculate depth from the hook-keeper. The reel seat and sliding ring (“R”) models are optimized for all types of reels and are perfectly positioned on the custom proprietary CFX Carbon-Weave handles. The handle warms to the touch and grips phenomenally, even in cold/wet weather. Designed by Roger Hinchcliff from the Great Lakes and the Lamiglas team, this series will accommodate steelhead and salmon fisheries everywhere.

**Redline CenterSpin** 

**Two rods in one**

The ever popular “Pin and Spin” rods that you can use with either a centerpin or a spinning reel. We've expanded the lineup this year, adding two more models to give anglers more variety. These rods are as effective as they are attractive, allowing easy mends and perfect float control. The smooth carbon fiber handle with sliding rings allows you to move the reel wherever you like it.

## Salmon and Steelhead Rods

### SI Series

The ultimate for steelhead and salmon

The best of the best when it comes to steelhead rods. One cast with an SI, and you will see what we mean. Super lightweight and sensitive, perfectly balanced, yet surprisingly powerful. Carefully handcrafted in the USA and finished with only the highest quality components: a Fuji SK2 reel seat, smoke Titanium guides, and a custom-made carbon fiber handle that is incredibly comfortable in your hand.

# Infinity Salmon/Steelhead

High end quality and performance

Premium USA-made salmon and steelhead tools. These rods, actions, and specs are designed for performance. With updated models and handle design, the Infinity Series has taken an excellent performing and selling rod and made it even more impressive. From bouncing rods, float rods, twitch rods, and even a rod specifically for tossing spinners, look to the Infinity series to take your fishing to the next level.

# XCC Kwik Series

## Redesigned for 2020

The XCC Kwik series rods have long been known as the most functional salmon/steelhead trolling rods on the market. They are now also the most attractive. The CFX carbon fiber grips paired with the ultra thin matte black finish on the blank not only makes them more appealing to the eye, but also creates a lighter overall rod with increased sensitivity, while still maintaining the incredible durability that the rods are known for. These rods allow trolled, back-trolled plugs, and bait to produce more action. The softness of the glass in the tip section of the blank allows for the fish to take the bait before feeling the rod—but the power of the graphite in the bottom section of the rod allows for deep hook penetration and fish fighting power. If you're hanging rods out of rod holders, pulling divers, loading into downriggers, sending plugs out...the XCC Series provides optimal handling. XCCs are graphite/glass composite rods.

# G1000 Pro Alaska Edition

## USA Made—Alaska Proven

The G1000 Pro AK Edition is for salmon powerhouse angling. With blank designs that have been used heavily everywhere from the Kenai Peninsula to Mid-Coast California, these rods are built to perform for powerful salmon. With double-foot guides all the way up and Fuji Reel seats, these are built for continuous fish-catching ability. Names like the "Kenai Special" and "Kenai King" will have anglers telling stories about a big chinook or coho they landed *way back when*.

# G1000 Pro

## The staple rod for salmon and steelhead

The G1000 Pro is a premium and durable USA made workhorse. The light action steelhead models are a dream, fully capable yet light, balanced and effective in hand. The heavier models have accounted for some of the largest king salmon ever caught on the Kenai River. Fuji double-locking reel seats, subtle blue trim, and a gorgeous polished graphite finish round out a beautiful but classic look and feel.

## Redline Salmon Steelhead

### Value taken to the next level

Built from a highly durable, yet sensitive graphite, the Redline series rods cater to the most popular techniques used for salmon and steelhead, yet can handle hard fishing conditions and unpredictable fish. We've incorporated graphite handles with rubberized butt caps for extreme durability and longevity. Double-lock reel seats are featured on medium-heavy and heavy casting rods. These rods are in a class of their own!

## NEW Redline Composite Series

### Affordable Salmon trolling rods

Based on our ever popular and proven XCC Trolling series, combined with the look and feel of our Redline Salmon and Steelhead series, we are proud to bring to you the new Redline Composite series. These fiberglass/graphite composite rods are brought to you in actions that have been proven for decades. The HS934HC and HSI064HC will help you put more salmon in the boat whether you are trolling flashers, plug fishing, plunking or working a downrigger. The moderate action of the fiberglass in the tip will allow you to read what your gear is doing at all times, and allow the fish to take your bait without ever feeling the resistance of the rod, while the graphite in the butt section provides you with all the power you need when guiding the fish into your net.

The smooth graphite handle and slim rubber butt cap will not only feel exceptional in your hands, but will perform great in the rod holder as well. A top quality double locking Fuji reel seat and stainless steel double foot guides round out a component set up that is unmatched at its price point. Backed by a Limited Lifetime Warranty and eligible for our no questions asked "Fast Track" warranty program, the Redline Composite Series from Lamiglas offers a top of the line trolling option at an incredible value.

# X-11 with Graphite Handles Redesigned for 2020

The ever-popular X-11 is available with a graphite handle for extreme durability, solid grip and ease of cleaning. These graphite handles give a modern, attractive look, while offering benefits to boat and bank anglers alike. For salmon rod-holder rods, this is a highly popular choice to outfit a boat. Anglers picking up a rod to cast spinners or floats will find this series very attractive in looks, performance and price-point. This year we've updated the blanks and the guides to offer an even better rod for the same price. Three X-11 graphite handle rods are available in both standard and pink finish: add a "P" to the model number to order pink finish.

# X-11 with Cork Handles

## New look for 2020

A series that teaches that affordability can still come with optimized technique-specific tapers that will fish very well under a wide range of conditions. The X-11 Salmon and Steelhead series comes in everything from steelhead bank rods to powerful salmon boat rods. Hugely popular in Northwest and Great Lakes fisheries, the X-11 has continuously surprised anglers with its performance and value. This year we've updated the blanks and the guides to offer an even better rod for the same price.

## X-11 Great Lakes Series Michigan handle float rods

Michigan-style handles have been a Great Lakes favorite on spinning float models. Our new 10'6", 11'6" and 12' models feature the extended foregrip with shortened butt that so many anglers know and love. The tapers on these rods are ideal for float fishing with ample bend, but a moderate-fast action.

Rod	Length	Pcs.	Line Wt.	Lure Wt.	Hndl.	Action	Power	Use	Retail
S LX106MLS-M	10'6"	2	6-10	1/8-5/8	1	Moderate	Med/Lt	Steelhead Float	\$109
P LX116MLS-M	11'6"	2	6-10	1/8-5/8	1	Moderate	Med/Lt	Steelhead Float	\$109
N LX12MLS-M	12'	2	6-10	1/8-5/8	1	Moderate	Med/Lt	Steelhead Float	\$109

## Classic Glass Classic feel, classic favorite

These classic fiberglass two-piece rods not only hook fish, they land fish effectively as well. The continuous moderate bend of the proven fiberglass blank optimizes your downrigger program, trolls baits flawlessly, allows plugs to "hunt," yet quickly responds to the bite. There is plenty of bend in the rod to keep a salmon hooked on the way to the boat, yet enough backbone to provide lifting power when needed.

Rod	Length	Pcs.	Line Wt.	Lure Wt.	Hndl.	Action	Power	Use	Retail

# Surfcasting Rods

## **NEW** Nightshift Surf The next level of Lamiglas Surfcasting

New M4 nano particle technology meets carbon fiber to bring you a new level of performance in surfcasting. Inspired by the *Surfcasters Journal* Nightshift crew and developed by Lamiglas surfcasting guru Sean Kearney, these rods are created with a new type of M4 nano particle technology and reinforced with multi directional layered carbon fiber. What that adds up to is a lightweight, fast action rod, with a lightning fast recovery that still has the ability to load up evenly on a cast and launch a plug to incredible distances. The carbon fiber bottom section of the rod provides tons of backbone and is designed to stop big fish in their tracks. CFX Carbon Fiber weave material was custom molded to create an ultra comfortable, lightweight handle grip. A matte black finish and the highest quality Fuji components round out this USA-made rod series.

# GSB Series

## A legendary surf option

The Lamiglas GSB surf blanks have long been the staple of surfcasting in the Northeast. For decades the GSB has been the most widely used surf blank in the world, and it continues to be the number one choice for surfcasters today. The reason for that is the extremely durable graphite used in the blanks along with the unmatched versatility it offers, created by the finely tuned moderate action. The GSB will work better than most in open beach situations, but in the rocks, canals, and on the jetties the GSB has been unrivaled for decades. There are one-piece rod options and two-piece rods which are engineered to flex and perform like a one-piece. The rods feature a custom “X Flock” style handle with a double locking Fuji deluxe reel seat. The black stainless steel Fuji K frame guides were laid out to a custom modified New Guide Concept layout to be optimized with the most popular reels used for surfcasting. The thread wraps are black with silver inlays and silver logos on the rod for a modern, stealthy look. Also featured on the 10- and 11-foot models is the “Mark of the 50,” a 50” indicator on the blank, measured exactly 50” from the Fuji buttcap for a quick and accurate measurement of your fish of a lifetime! The new GSB series surf rods are proudly hand-crafted from start to finish in the USA.

# SuperSurf 2G Pro

## Lightweight performance

These powerful, lightweight surf rods are built using our custom blend of two different proprietary graphite materials to shed tip weight and gain sensitivity while increasing the bottom end power and durability. The modified New Guide Concept layout brings out the true performance of the rod blank by distributing the load evenly throughout the blank, translating to more fish-fighting power and longer casting distance. The spiral wrap handle configuration will give you the feeling of more power in your hand and durability in harsh environments. The 2G Pro rods are outfitted with a double locking Fuji Deluxe DNPSSD reel seat tested to fit every size of Van Staal reel along with other popular surfcasting reels on the market. The 70/30 split, fast action, high modulus blanks are built for high end performance. The Super Surf 2G PRO is carefully handcrafted in the USA from start to finish.

# NEW Carbon Surf

## Thoughtfully designed with the surfcaster in mind

This seven-rod series was meticulously designed by today's top surfcasters and gives surfcasters a choice of the most desired lengths and actions used today. These rods are built with 30-ton carbon blanks to provide incredible power and durability; something that Lamiglas has been known for in the surfcasting community since the creation of our first "honey" fiberglass surf blank in 1949. The crisp moderate/fast actions provide anglers with unmatched versatility in the surf, and the rods are outfitted with the highest quality components.

## Insane Surf

A new level of value

The Insane Surf series offers fine tuned performance at an affordable price. The moderate/fast action of the Insane Surf creates an extremely versatile rod for surfcasting and will do it all—throwing plugs and jigs from the rocks, to casting chunk baits from the sand. The rods feature a high gloss coat of black paint with red thread wraps and black components for an attractive, modern look. The custom “X Flock” style handle gives you a solid grip on the rod while contributing a light, sensitive feel. SeaGuide black K Frame style guides and reel seats were chosen for optimum performance. These 50/50 split two-piece rods come in four spinning models and two casting models to give you options for any situation.

## NEW PNW Surf

Exciting new surf rods for the West Coast

We designed these rods with input from anglers and industry professionals up and down the West Coast to bring you the perfect rods when you hit the beach. They are incredibly lightweight, yet still powerful enough to launch a three-ounce sinker over the breakers. The extremely sensitive tip allows you to feel the slightest nibbles from a surf perch, and the parabolic taper of the rod keeps them pinned the entire way in. Made with high quality components, these rods are built to last.

# Saltwater Rods

## Tri-Flex V2 Inshore Series

### The top tier of inshore fishing rods

The Tri-Flex has become a household name in inshore fishing over the past few years. That's because the power and durability of these rods is unrivaled. Composed of a proprietary blend of two parts graphite and one part fiberglass, you get the lightweight and sensitive characteristics of a graphite rod while gaining the power and durability of fiberglass. This year we've completely revamped the entire lineup to bring you the new TriFlex Inshore V2 series! Back by popular demand are some of the fabled CGBT blanks, trimmed to fit the most popular jigging and bottomfishing applications. We've also added new spinning models for albies, stripers, fluke and more! The rods now come in a stealth matte black finish and feature custom built CFX carbon fiber weave grips. The USA flag is also prominently displayed on every TriFlex rod to show your support for USA-made products.

## Black Inshore Series

### Incredibly popular inshore options

You will be hard pressed to find a better value in an inshore rod. The Black Inshore series rods are fast action rods with incredible fish fighting tapers. The lightness of the rods allows you to fish them all day long without fatigue, but don't let the weight fool you, these rods are incredibly powerful! Thoughtfully designed with premium components. New for this year are three exciting models: an incredible 7'3" spinning rod that is just a touch heavier than the best-selling B7320S, and two conventional models that will excel in jigging for sea bass, porgy, fluke and lighter tog and striper applications!

## Bluewater Powerful composite rods

From vertical jigging to trolling, fishing live bait to casting swimbaits, the Bluewater is one rod you will not want to put down. These rods are made from a composite of fiberglass and graphite, allowing them to handle more weight and pressure than most rods could only dream of, yet they have an ultra-thin diameter and are super light. Strong high quality components and an offshore style “X Flock” handle will keep this rod going for years to come. A stunning aqua blue finish will make it stand out from the rest.

# SI Bass

## Perfectly balanced and designed

Jaw-dropping power, yet as sensitive as it gets and light as a feather, these rods are the best of the best when it comes to bass fishing. The SI Bass rods are perfectly balanced and will have you asking for one more cast every time. Tapers that tournament bass anglers prefer, blanks that are a rod builder's dream, and the highest quality components on the market--you owe it to yourself to fish one of these rods!

	Rod	Blank	Length	Pcs.	Line Wt.	Lure Wt.	Handle	Action	Power	Retail

# XP Bass

## Tournament tested, bass approved

The XP Bass rods bring a new value to bass fishing. These rods are tournament tested and proven, yet carry a price tag that everybody can afford. With five casting and two spinning models to choose from, there will be an option for you, no matter the technique or situation. All-graphite rods feature a split grip cork handle design that bass anglers love.

# Kokanee and Trout Trolling Series

## Our incredibly popular kokanee rods

Our kokanee and trout trolling rods are known as some of the best rods available. These ultra-limber rods are designed to allow kokanee to thrash around while still keeping the hook pinned in their soft, delicate mouth. These rods work well both flat lined or in a downrigger. The CGR762L comes in a Gloss Red Finish; to order it in a Pink finish, add "P" to the end of the model number. Two USA-made versions are offered, the 7'6" classic Honey "FC" rod and the extremely popular 7'6" "Kokanee Kid" rod, which both come with a Limited Lifetime Warranty. All other Kokanee rods have a One Year Limited Warranty.

Rod	Color	Material	Length	Pcs.	Line Wt.	Hndl.	Action	Power	Retail
C LX702ULC	Graphite	Graphite	7'	2	2-8	7	Mod/Fast	Ultra/Lt	\$77

HS90GH*	White	Fiberglass	9'	2	6-12	8	Moderate	Medium	\$120

## XCC Bait and Trolling Series

### Versatile USA-made trolling rods

These rods are comprised of a unique blend of fiberglass and graphite, and actually allow you to see the tapers and blends in the material. This provides an ultra-soft tip which will let your plugs or bait do the work for you, while shedding weight in the bottom section with the use of graphite and also providing impressive backbone. Carefully handcrafted in the USA from start to finish.

Rod	Blank	Length	Pcs.	Line Wt.	Lure Wt.	Hndl.	Action	Power	Retail
S XCC705GH	HCCB845M	7'	1	8-20	3/8-1 1/2	1	Fast	Med/Hvy	\$299
P XCC795GH	HCCB935M	7'9"	1	12-25	1/2-2	1	Fast	Heavy	\$299

## NEW Columbia River Series

### Rods designed for the famous Columbia River

With the Lamigas headquarters situated conveniently right next to the sturgeon fishing mecca of the Columbia River, why wouldn't we build the perfect rod for sturgeon fishing? This rod is made from a proprietary blend of fiberglass and graphite, which allows the sturgeon to nibble on your bait without feeling the rod, and allows you to read exactly what is going on under the surface. The bottom section of the rod is all power, meant to be able to subdue the biggest of the biggest. EVA foam foregrips make for a comfortable handle while fighting these powerful fish, and a double locking aluminum reel seat provides peace of mind.

# Walleye Rods

## The Closer Walleye Series Taking walleye jigging to the next level

"The Closer" Walleye rods prove that the perfect walleye rod will produce more fish hooked and more fish in the boat. An extra fast tip action will help immensely on hook sets in deeper water and strong currents. The extremely high modulus graphite is truly capable of feeling fish both on the top of a jigging motion or on the fall. With custom woven CFX carbon handles that are optimized for a sensitive, balanced feel, high quality double locking Fuji reel seats, and larger guides to decrease icing when jigging in colder temperatures, we've made every effort to provide the best walleye rod design ever. Designed by Roger Hinchcliff from the Great Lakes and the Lamiglas team.

	Rod	Blank	Length	Pcs.	Line Wt.	Lure Wt.	Handle	Action	Power	Retail

	CW63MHS	CWB75MH	6'3"	1	8-15	¼-1	1	Extra Fast	Med/Hvy	\$249

# NEW The Assassin Walleye Series

## The end game for walleye

Brand new for 2020 is the Assassin Walleye series. Not only are these rods eye-catching, they will also help you catch more walleye! Extremely lightweight and sensitive, but also very capable with extra fast actions and the backbone needed to work jigs in deeper water. The 5'6" model, dubbed "The Detroit," is the stiffest walleye jigging rod we make and is the perfect option for heavier jigs in depths of 50 feet of water or more. Backed by a 5 Year Limited Warranty from Lamiglas. Pick up one of these rods and become The Assassin.

	Rod	Length	Pcs.	Line Wt.	Lure Wt.	Handle	Action	Power	Retail

# NEW The Hammer Walleye Series

## Put the hammer down!

This exciting new series of jigging rods from Lamiglas brings walleye anglers an incredible option at an exceptional value. The rods are extra fast action and ultra sensitive for maximum performance when jigging walleye in shallow or deep waters. Stainless steel guides with alconite inserts allow your line to travel through the guides smoothly and efficiently. A classic cork handle is complemented by a carbon fiber tube underneath the reel seat with an adjustable foregrip to fit almost any size spinning reel. The rods also feature a polished graphite finish for maximum sensitivity and attractive walleye green accents. Backed by a One-Year Limited Warranty and eligible for our "no questions asked" Fast Track warranty program, you will be hard pressed to find a better walleye jigging option in this price range!

# Fly Rods

## G1000 Pro Fly USA-Made Fly Rod Perfection

Pure USA two-piece performance. These graphite fly rods are built in the USA from the blank to the finished rod. This is a high performance set of sensitive, faster action fly rods with backbone to handle anything you might hook into. If you want a precise rod that has the ability to put the heat on a fish, choose the USA-Made G1000 Pro Fly. These rods are popular for various inshore species, trout, salmon, steelhead, and bass fisheries. This year we have added three new 10' models to the lineup.

# Lamiglas American-Made Fishing Rod Blanks

Custom rod building is more than a hobby, it's the art of embracing anglers' unique needs. Our USA-made and proven blanks provide the canvas for the builder. Lamiglas started as a blank builder in 1949, and our designs have kicked off multiple technique-specific rod staples.

Unlike many other blank manufacturers, we are not afraid to take on unique challenges, blending many types of materials, classic proven fiberglass options, highly optimized graphites, and other new developments. Lamiglas supplies rod builders who believe their handiwork should be utilized on a respected blank.

USA-made from the first roll to where we tag the finished blank, Lamiglas blanks give you the assurance that you've built your custom rod on a premium blank with tested and optimized actions.

## SALMON-STEELHEAD BLANKS

### The Closer Centerpin Blanks

How could you describe a fast tip with a beautiful moderate bend? Two words...THE CLOSER. This series has shaken the "float rod" world. It sounds idealistic to have power, sensitivity, leader protection, and beauty all in one blank, but it's not. We are confident when we say that The Closer series models are the finest float blanks in the world, and that's why they continue to sell to builders and anglers anywhere steelhead and salmon are found.

#### Polished Finish with Fiberglass Butt.

Blank No.	Length	Pcs.	Line Wt.	Lure Wt.	Butt Dia.	Tip Size	Avg Wt.	Action	Power

### SI Blanks

When you've decided you're ready to build the best rod possible, the SI series will be waiting for you. With the perfect combination of sensitivity, power and lightweight performance, these blanks will translate to finesse techniques. The graphite weave in the butt section counterbalances perfectly, the tip sections are efficient fish catchers.

#### Polished Finish with Graphite Weave Butt.

## SURF BLANKS

### Nightshift Surf Blanks

Created using a proprietary new M4 Nano Resin system, these blanks bring a new level of performance to the surf. Extra fast actions with a super crisp recovery, lightweight yet extremely powerful, they are everything a surfcaster could ask for. Two piece blanks are a 70/30 split, providing a one-piece feel while fishing.

### Matte Black Finish.

NS1321H	11'	1	20-50	2-8	0.840	10	10.1	Fast	Heavy

## GSB Series Blanks

GSB series blanks are hands down the most well-loved surf blanks ever produced. They are ridiculously durable, but they are also amazing to fish. The versatility of these blanks cannot be overstated. Anglers have long used them for plug fishing, live bait, bucktails, and every other imaginable technique. The moderate action makes for easy casting, with depth and accuracy. They have the power to pull fish around rocks and boulders and are a Northeast staple for that reason. Beautiful gloss graphite in one- and two-piece options. The GSB1101ML is the ever popular "John Skinner" blank, and the OS models designate popular actions from decades ago created using newer materials.

Just ask a surfcaster. They'll know about the GSB.

### High Gloss Clear Finish.

## GSB RAW

A few of the more popular GSB blanks in a raw finish. With an unsanded gloss graphite, the durability on these blanks is unreal. They have extreme power and fish fighting ability and are a serious blank to be reckoned with. At the same time, there is still excellent feel and control.

### Unsanded Raw Graphite Finish.

Blank No.	Length	Pcs.	Line Wt.	Lure Wt.	Butt Dia.	Tip Size	Avg Wt.	Action	Power
GSB1081L-RAW	9'	1	12-25	1/2-2 1/2	0.682	7	5.2	Moderate	Medium
GSB1201L-RAW	10'	1	14-30	1-3	0.755	10	7	Moderate	Light
GSB1321L-RAW	11'	1	14-30	1-3	0.843	10	8.2	Moderate	Light
GSB1321M-OS-RAW	11'	1	17-40	3-7	0.831	12	8.8	Mod/Fast	Medium

## Super Surf 2G Blanks

These surf rods are all about sensitivity, fast action and moving power. Perfect for launching plugs or bait out into the open surf, the SuperSurf 2G blanks are also the most attractive blanks on the beach without a doubt. With 70/30 split options and telegraphic tip sections, these go out of their way to provide rod-builders a modern surf blank to build upon.

### Brilliant Blue Finish

Blank No.	Length	Pcs.	Line Wt.	Lure Wt.	Butt Dia.	Tip Size	Avg Wt.	Action	Power
SSS1082MH	9'	2	15-25	1-3	0.715	7	6.0	Fast	Med/Hvy

SSS1322MH	11'	2	17-40	2-5	0.836	8	9.3	Fast	Med/Hvy

## Fiberglass Surf Blanks

We wouldn't need to promote these one bit, and they'd just keep flying out the door. We've sold these for decades upon decades, since 1949, in fact. Absolute durability, power, and strong flex means these blanks can launch baits and weights farther than you'd like to know. Ideal for surf, catfish, sturgeon, salmon plunking, and beyond. See why builders keep relying on our Fiberglass Surf Blanks. To order a blank with black finish, add "B" to the beginning of model number (example, BSB1362M).

### Honey or Black finish, except for SBI665F and SBI805F, Black finish only.

Blank No.	Length	Pcs.	Line Wt.	Lure Wt.	Butt Dia.	Tip Size	Avg Wt.	Action	Power
SB1362M	11'6"	1	14-30	3-5	1.095	11	9.5	Moderate	Medium
SB1363M	11'6"	1	14-40	4-8	1.080	13	13.6	Moderate	Medium
SB1604M	13'6"	1	20-40	6-12	1.200	13	20.6	Moderate	Medium
SB1665F	13'8"	1	20-50	6-16	1.320	13	26.8	Fast	Med/Hvy
SB1805F	15'	1	20-50	6-16	1.340	12	29.0	Fast	Med/Hvy

## SALTWATER BLANKS

### Fiberglass Trolling Blanks

Classic blanks with modern technology. These blanks are exceptional for many saltwater applications, especially trolling. A great moderate action allows you to detect bites with the rod bent in trolling situations and also absorbs the impact of a thrashing fish to keep the hooks pinned in its mouth. Model numbers below are for Honey colored blanks. To order in a Black or White finish, add either a "B" or a "W" to beginning of model number.

### Honey, Black, or White Finish.

Blank No.	Length	Pcs.	Line Wt.	Lure Wt.	Butt Dia.	Tip Size	Avg Wt.	Action	Power
BT842M	7'	1	15-30	N/A	0.605	10	4.6	Moderate	Medium
BT857S	7'	1	20-40	N/A	0.785	16	7.3	Slow	Med/Hvy
BT963M	8'	1	20-30	N/A	0.765	8	7.1	Moderate	Medium
BT1083M	9'	1	20-30	N/A	0.846	9	9.3	Moderate	Medium

## Tri-Flex Inshore V2 Blanks

Two parts graphite, one part glass. These options span the range of inshore techniques but provide one consistent message: durability and finesse can be one. With blanks that can do everything from heavy three-way bait techniques to plug fishing and jigging, this inshore series has been depended on for fisheries that require something special. Ratings on blanks differ based on casting or sinker weight. These blanks tend to run slightly heavier than the usual blank ratings. Check our website for more information on this classic series. This year we've added a few brand-new blanks to the series and brought back some of the ever-popular CGBT models.

### Matte Black Finish.

Blank No.	Length	Pcs.	Line Wt.	Lure Wt.	Butt Dia.	Tip Size	Avg Wt.	Action	Power
TXC721ML	6'	1	8-17	¼-1	0.487	5.5	1.4	Fast	Med/Light

## Graphite Popping Blanks

As the name implies, these are the ultimate popping blanks, but it doesn't stop there. The fast but responsive tip works effortlessly with jigs, crankbaits and other powerhouse techniques. Gorgeous polished graphite with time-honored tapers...the Graphite Popping series.

### Polished Finish.

Blank No.	Length	Pcs.	Line Wt.	Lure Wt.	Butt Dia.	Tip Size	Avg Wt.	Action	Power
IMP843	7'	1	6-15	¼-½	0.485	4.5	1.5	Mod/Fast	3 power
IMP844	7'	1	8-17	⅜-¾	0.500	5	2.1	Mod/Fast	4 Power

IMP964	8'	1	8-17	⅜-¾	0.530	5	2.6	Mod/Fast	4 Power

## Fiberglass Live Bait Blanks

On the water, fiberglass is a favorite because it just keeps catching. That's what these blanks do, consistently. Powerful yet with tapers that allow live bait to attract predatory fish...and when those fish bite...it's on. Classic finishes on a well rounded series of live bait blanks. These blanks work for everything from tuna to catfish. Model numbers are for Honey blanks. To order Black, add a "B" to beginning of model number.

### Classic Honey or Black Finish.

Blank No.	Length	Pcs.	Line Wt.	Lure Wt.	Butt Dia.	Tip Size	Avg Wt.	Action	Power
MB841E	7'	1	10-25	½-1½	0.775	6.5	3.4	Xtr/Fast	Med/Light

MB1143F	9'3"	1	15-30	1-3½	0.940	7.5	9.6	Fast	Medium

# FRESHWATER BLANKS

## Infinity Ultralight Blanks

Sensitivity is mentioned time and time again, but maybe we need to emphasize it here. The expensive but necessary graphite we buy to create these blanks responds quickly, but the taper we designed still feels totally "ultra-light." Diameter is small, balance is excellent...this is probably one of the most enjoyable blanks in the world to fish.

### Polished Finish.

Blank No.	Length	Pcs.	Line Wt.	Lure Wt.	Butt Dia.	Tip Size	Avg Wt.	Action	Power
AFW84ULF2	7'	2	2-6	1/16-3/8	0.436	4.5	0.9	Mod/Fast	Ultra/Lt
ESH902UL	7'6"	2	2-8	1/8-3/8	0.443	4.5	1.0	Mod/Fast	Ultra/Lt

## SI Bass Blanks

Fast action high-modulus graphite blanks built for pinpoint accuracy and thunderous hooksets. Graphite weave in the butt sections of these one-piece blanks. The sensitivity cannot be overstated.

### Polished Finish with Graphite Weave Butt.

Blank No.	Length	Pcs.	Line Wt.	Lure Wt.	Butt Dia.	Tip Size	Avg Wt.	Action	Power
SI843	7'	1	8-17	3/16-5/8	0.500	4.5	2.2	Fast	3 Power
SI863	7'2"	1	10-20	1/4-3/4	0.510	4.5	2.4	Fast	3 Power
SI864	7'2"	1	12-25	1/4-1	0.520	5	2.5	Fast	4 Power
SI875	7'3"	1	12-25	1/4-1 1/2	0.528	5	3.0	Fast	5 Power

## Kokanee and Trout Trolling Blanks

Ultra-light trolling blanks for the kokanee and trout rod builders. Optimized for downriggers or flat-lining, the honey glass and black gloss options provide the perfect blank to build a top-level trolling rod.

### FL - Honey Yellow Finish; XCC - Black Gloss Finish.

Blank No.	Length	Pcs.	Line Wt.	Lure Wt.	Butt Dia.	Tip Size	Avg Wt.	Action	Power
FL9041	7'6"	1	4-8	1/16-1/4	0.440	5.5	1.6	Slow	Ultra/Lt
XCC900-1	7'6"	1	4-10	N/A	0.450	5.5	2.0	Moderate	Ultra/Lt

## XCC Bait and Troll Blanks

All glass in the tip, all graphite in the butt section. You'll see the layers of composite materials in this blank, which results in a unique look. Beyond just the look, the action of the tip is perfect for plugs, bait and other trolling techniques. Once you get to the graphite butt section, the fight will be in your favor. Loads of backbone with that limber tip you need for some fisheries.

### High Gloss Clear Finish on Graphite/Honey Blend Blank.

Blank No.	Length	Pcs.	Line Wt.	Lure Wt.	Butt Dia.	Tip Size	Avg Wt.	Action	Power
HCCB845M	7'	1	8-20	3/8-1 1/2	0.702	6.5	3.6	Fast	Med/Hvy
HCCB935M	7'9"	1	12-25	1/2-2	0.848	7	4.4	Fast	Heavy

# WALLEYE BLANKS

## The Closer Walleye Blanks

Three options that truly will hook and land more walleye. With light biters, people tend to miss fish. When a builder wants the best of the best, the Closer Walleye will not disappoint. Ultra-lightweight blanks with extra fast action.

**Polished Finish with Graphite Weave Butt.**

Blank No.	Length	Pcs.	Line Wt.	Lure Wt.	Butt Dia.	Tip Size	Avg Wt.	Action	Power
CWB68MH	5'8"	1	8-15	1/4-1	0.433	4.5	1.6	Ex/Fast	Med/Hvy
CWB72MH	6'	1	8-15	1/4-1	0.444	4.5	1.7	Ex/Fast	Med/Hvy
CWB75MH	6'3"	1	8-15	1/4-1	0.450	4.5	1.8	Ex/Fast	Med/Hvy

## FLY ROD BLANKS

### G1000 Pro Fly Rod Blanks

Precision casting, powerful two-piece fly rod blanks. The bass and inshore markets are especially partial to these blanks, though trout, steelhead and salmon anglers have been building on them for decades. Classic designs with modern graphite development.

**Polished Finish.**

Blank No.	Length	Pcs.	Line Wt.	Butt Dia.	Tip Size	Avg Wt.	Action	Power
GF1085	9'	2	5	0.440	4.5	1.7	Mod/Fast	5 wt
GF1086	9'	2	6	0.440	4.5	1.8	Mod/Fast	6 wt
GF1088	9'	2	8	0.450	5	2.1	Mod/Fast	8 wt
GF1089	9'	2	9	0.450	5	2.3	Mod/Fast	9 wt
GF10810	9'	2	10	0.510	5	2.4	Mod/Fast	10 wt

### Fiberglass Fly Rod Blanks

Vintage honey yellow fiberglass blanks that capture the angler's imagination. To build a truly vintage and effective glass rod, what is a better option than this USA-made fiberglass fly rod blank? We've got builders that can't help but keep building on these blanks. The 3-, 4-, and 5-weight options are perfect for smaller stream trout and panfish fisheries.

**Honey Yellow Finish.**

Blank No.	Length	Pcs.	Line Wt.	Butt Dia.	Tip Size	Avg Wt.	Action	Power

FL965	8'	2	5	0.490	6	2.0	Moderate	Med/Lt

# Prolong The Life And Performance of Your Lamiglas Rod

Lamiglas fishing rods are built with the finest materials available and constructed to exacting standards. Our expectations of every rod are extremely high. With some common sense and careful handling, your Lamiglas rod will offer a lifetime of exceptional experiences. The following are some tips and tactics that will help out along the way.

## Line Ratings

The individual characteristics built into each and every Lamiglas rod highlights the rod's intended use. As a part of that, the strength and flex of the blank is balanced to the recommended line ratings. A Lamiglas rod is rated so that when the rod is held at a 45-degree angle or less, line will break before the rod does. Angles greater than 45 degrees transfer undue stress to the tip section of the rod (practically eliminating the ability of the stronger butt section to carry any load), and in extreme cases can result in rod failure with as little as two pounds of directed pressure. This is known as "high sticking." It is not only proper use that requires a rod angle of 45 degrees or less, but this is also the area where you'll find the greatest power from the rod and have the best control over the fish.

## Lure Ratings

Lure ratings provide a range of lure weights in which exceptional performance will be found. Using a lure that is lighter than the listed weight will not properly load the rod, resulting in reduced casting distance and sensitivity. Using a lure that is heavier than the listed weight will overpower the rod. Again, distance and sensitivity will suffer, along with the compounded problem of overstressing blank fibers.

## Reel Installation And Removal

Prior to reel installation, lubricate the reel foot and threads of the reel seat. Insert the reel and tighten the lock nut finger tight. Move the reel side to side and tighten again. Repeat the process until the reel no longer moves. Graphite reel seats should never be over tightened and pliers should never be used in that process. Over extended periods, the reel seat may seize to the reel foot. Slowly loosen the locking nut. If it starts to seize, tap the reel seat hood. This will break loose the deposits that have built up over time. Continue to loosen the nut. If the hood is not tapped loose from the reel foot, you risk separating the hood from the locking nut.

## Transportation

The key to rod transportation is eliminating sharp impact to the blank. The best place for a rod to travel is inside a protective sleeve or tube. If not carried in a tube, the rods should not be left to bounce against other rods or terminal rigging (weights, swivels, lures, etc.). Always affix the sections tip to tip and butt to butt. This keeps the delicate tip from being crushed against the uneven and much larger handle.

## Storage

Store rods in either the horizontal or vertical position. If leaned in a corner, a set or bow can occur over time. Never leave your rods where critters can get to them. Scents, salt from perspiration and other biological contaminants are a surefire attraction to undesirables.

## Cleaning The Rod Blank

The best cleaner we have found for cleaning the blank and handle is a mixture of one part isopropyl alcohol and four parts warm water, along with a good dose of liquid dish soap. Using a soft sponge, scrub the blank and handle, then rinse with clean water. Dabbing problem areas with the soap mix for a few minutes before scrubbing can soften heavy build up. Once you have the rod clean, a coat of wax will simplify the maintenance of a beautiful finish. We recommend any of the carnuba based car waxes. Fish scales and many types of bait will not stick to a waxed rod and makes cleaning them very easy. If you are fishing every day, a coat of wax every week should suffice.

## Cleaning Guides And Reel Seats

As strange as it may sound, the use of a toothbrush and toothpaste will remove the stubborn deposits on rod guides and reel seats. After cleaning the reel seats, coat with any light oil. This method works on all reel seats.

## Rod Repair/Replacement | Limited Lifetime Warranty

### Summary

**View More Info - [www.lamiglas.com/warranty](http://www.lamiglas.com/warranty)  
Questions? Contact us: [warranty@lamiglas.com](mailto:warranty@lamiglas.com)**

Did you step on your rod? Run over it with your car? Come home to an angry significant other who got even with you for spending all of your time on the water by attacking your rods? No worries, we've got you covered.

With our new Fast Track program, you can have your rod replaced, no matter the age of it or the cause of the break, for a small fee, depending on series. The Fast Track program offers affordable replacement pricing and quick turn-around time. To make it even easier for you, you do not have to mail the entire rod in. Simply cut out the small label section of the rod and stick it in an envelope with a check for the appropriate fee, addressed to:

Lamiglas Warranty Service  
1400 Atlantic Avenue  
Woodland, WA 98674

We'll also pay the shipping back to you, free of charge to 48 US states!

You can even use this warranty program at any participating retailer, so you can get back to fishing that day instead of having to wait for the snail mail to go through.

### Fast Track Pricing

If your rod model is not listed below it may be a discontinued model. Please send an e-mail request for Fast-Track replacement pricing, and we will e-mail the comparable replacement model and cost.
