& Ready to Ship!**

Introducing Copper Creek Hardware's Compact Touchscreen Digital Keypad with Lever. Experience unparalleled convenience, durability, and a sleek design that effortlessly enhances your home. Choose from our timeless traditional lever or our contemporary modern lever, both available in multiple exquisite finishes. These new Touchscreen digital keypad levers revamp your daily routines, making life simpler and more efficient. Whether it's for your office, back entry doors, sheds, or any door that requires added privacy and convenience, this is the perfect solution you've been waiting for.

### Key Features:

- Compact and slender profile, showcasing an intuitive touchscreen display with easy-to read numbers
- Night Latch Mode option automatically disengages all codes at a selected auto-locking time for extra protection
- 20 manageable user codes
- Backup key override for dead batteries
- Long-lasting finishes resistant to dust, rain, & corrosion (ANSI A156.25 compliant)

### Convenient

- Vacation mode (deactivates all user codes temporarily)
- Reversible lever fits both right-handed and left-handed doors
- Easy switch between auto-lock mode and passage mode

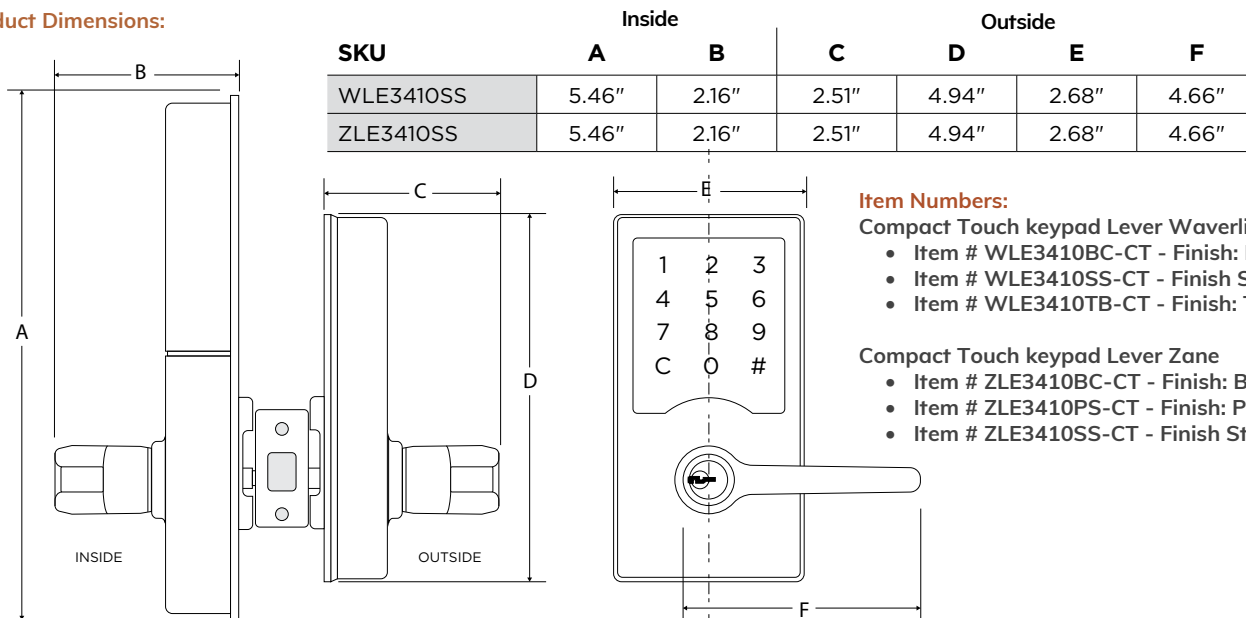

### Easy

- Back-up mechanical keyway
- Easy installation with a Philips screwdriver
- Fits standard door preparations
- Powered by 4 AAA batteries

### Secure

- ANSI Grade 3 security
- Night Latch Mode automatically disengages all codes at a selected auto-locking time
- Temporarily disabled after 4 consecutive incorrect entries
