ORGANIZE YOUR GARAGE
OR SHOP WITH *Style.*

Official Cabinet Provider of National Guard Panther Racing

Welcome to Moduline Cabinets, designers and manufacturers of quality American-made, modular aluminum cabinets for your home and shop. When it's time to outfit your garage, Moduline is the one name you need to know. We have been providing high-quality aluminum cabinet solutions for garage enthusiasts and professionals alike for over 25 years.

Our designer appearance is certain to enhance any garage or shop. Yet, don't let their incredibly good looks fool you, our aluminum cabinets are workhorses that will stand up to the daily rigors of any garage environment.

In fact, we're so confident in our cabinets that we back them with a lifetime warranty.

Moduline Cabinets have many innovative features and customizable options, though perhaps the most important feature is that they are modular, with the versatility to meet the specific needs of any garage. When you choose Moduline cabinets for your garage, everything has its place, which leaves you room to get things done.

We invite you to learn more about our aluminum cabinet solutions in this catalog and on our website, and see how easy it is to transform your garage.

WE SHARE YOUR PASSION FOR ALL THINGS GARAGE

Planning your dream garage is easier than you might expect. Modular aluminum cabinets are an investment you will enjoy for as long as you own your home. Your choice of Moduline is a first step in turning your dream into reality. To help ensure your satisfaction with our cabinets, we recommend you follow these key steps.

CONSIDER HOW YOU'LL USE THE SPACE

Will you be using these cabinets entirely for storage? Will you need your cabinets to be mobile? Are you going to be doing heavy duty work? These are just a few of the questions that you'll want to consider before you order your cabinets. Understanding how you'll be using the space will also help you answer key questions like, "Do you need larger closet-style cabinets?" or "Will you want more drawer space, or need a mobile tool chest or parts bin?"

MEASURE YOUR SPACE

Moduline cabinets come in a wide variety of sizes. But if needed, many of our pieces can be customized to fit your space. To help ensure your satisfaction, be sure to measure your space carefully. Pay particular attention to any doors and windows. You'll also want to decide if you want single-door cabinets to open with a right- or left-hand swing. And, if you're installing cabinets along the wall, be sure to consider the clearance above and below the cabinets as well as your desired depth. For example, for overhead wall cabinets, consider the depth carefully to be sure they are useful but not in your way when working on the countertop.

BUILD YOUR SYSTEM OR CHOOSE FROM OUR PRE-CONFIGURED COMBINATIONS

A well-planned garage begins with the cabinets, and Moduline offers an abundance of components — from base cabinets and closets to tool chests and filing cabinets — to create the perfect layout. To make things even easier, Moduline offers pre-configured combinations that can be ordered as-is or used as a starting block which you can modify to create the most efficient and effective workspace. For more information on our cabinet combinations, see pages 20-29.

SELECT YOUR OPTIONS AND ACCESSORIES

Do you want cabinets that lock? Do you need some cabinets to have shelves while others need to be open? Do you want a Toe Kick Riser™? Moduline has options for all our components — from cabinets to countertops. Many customers find that browsing our catalog gives them ideas for organization they've yet to consider. That's another great reason to choose Moduline. If you haven't thought of it, there's a pretty good chance that we have. For more information on the many options and accessories available, see pages 30-35.

CALL ONE OF OUR CABINET EXPERTS

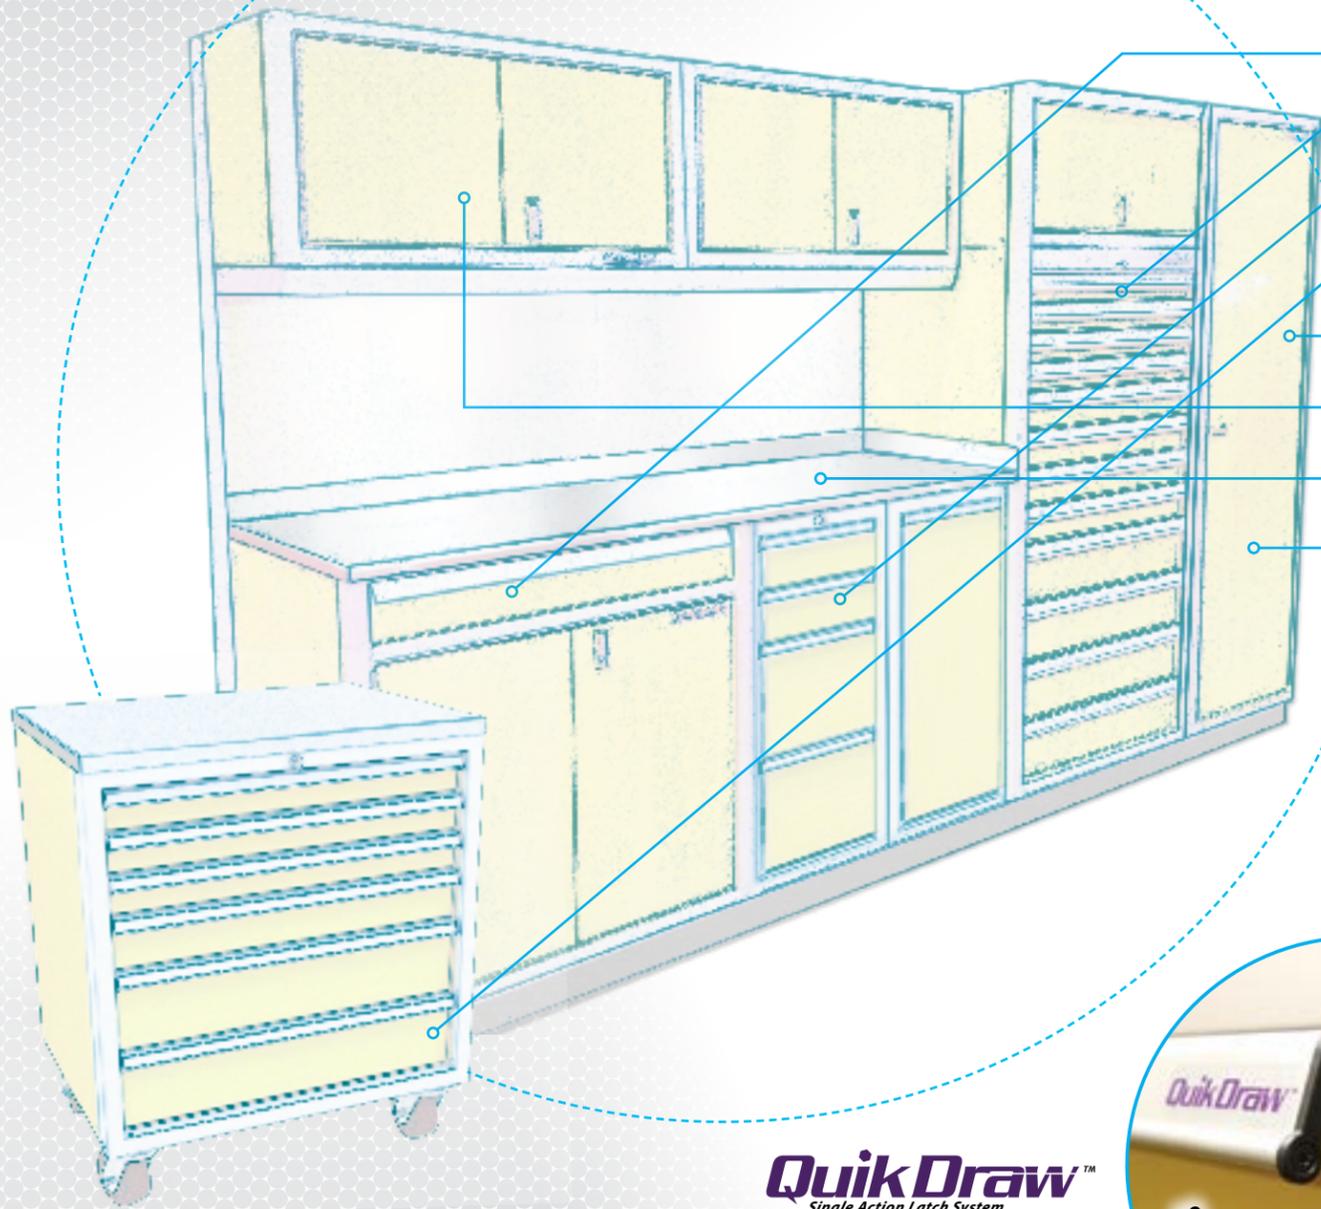

You may know exactly what you want or you may never have designed garage cabinets for your garage before. That's why we offer a full-service, customer service team that will take a personal interest in your project and help you understand your options. We encourage you to give our cabinet experts a call. They will help you with everything from measuring your space, to creating detailed CAD drawings, as well as show you ideas for layouts, designs, and options to make best use of your space.

Moduline Core Values

At Moduline, we are proud to manufacture American-made products that are as functional as they are beautiful. For over 25 years, we've been pursuing a singular goal: to make garage storage systems that take your imagination and productivity to higher levels. To do this we use only professional-grade material, state-of-the-art manufacturing, and American labor and materials. The result is beautiful, innovative cabinet systems that arrive as promised and last a lifetime. There are several reasons why consumers choose Moduline when it's time to turn their dream garage into a stunning reality. Take a few minutes to explore the exceptional features found on all **PROII™** Cabinets.

PROII™ CABINET Features

Designed for the Garage

Unlike steel or wood, our **PROII™** Cabinets aluminum cabinets won't rust or deteriorate if exposed to moisture. And unlike plastic or resin, these cabinets won't attract dust or cause static shock (which can be comforting when storing flammable material). Aluminum is also resistant to discoloration and fingerprints, which ensures your Moduline aluminum cabinets will consistently maintain their "like new" appearance.

Built to Endure

Our cabinets are designed and built to meet the challenges of your garage environment day in and day out. We're so confident that our aluminum cabinets are the best solution for your garage or shop that we back them with a lifetime warranty.

Available in Both Standard and Custom Sizes

Most customers find that our in-stock cabinets are a perfect fit. However, any of our cabinets and closets can be sized for a custom fit.

Moduline cabinets arrive completely assembled and ready to install with simple tools...

MODULAR

Limitless designs • Endless possibilities

An important benefit of Moduline cabinets is their modular design. All components are fully modular and can be mixed and matched to create limitless possibilities. Additionally, the modular design yields a stronger, more rigid product due to the doubling of walls, corners and shared edges.

Innovation to keep you organized

Moduline cabinets are manufactured with state-of-the-art equipment and we continue to make investments to ensure our cabinet systems stay ahead of the curve. Our innovations are evident in features like Quik Draw™, the Adjustable Toe Kick Riser™, trigger latches and more.

INNOVATIVE

DURABLE

Beauty that's more than skin deep

Don't let the designer appearance fool you, Moduline cabinets are created with premium aluminum to stand up to the rigors of your garage. Our craftsmanship features extra rigid, integrated aluminum frames, double reinforced corners, precision hardware construction with no welds to crack, double wall construction doors with inner-hat bracing, full length hinges and under counter bracing. You'll also love the way our aluminum cabinets resist corrosion, discoloration, and fingerprints.

Designed down to the last detail

Why do so many people choose Moduline cabinets? Because they know the cabinets will look as good years from now as they do the moment they arrive. All Moduline cabinets feature a high-gloss baked enamel finish and clear anodized frames. Every detail is considered — from the textured chrome trigger latches, which will not show finger prints, to the Toe Kick Riser™ that conceals the leveling system.

DESIGNER APPEARANCE

QUALITY

Precision detail in everything we make

Computer Aided Design and Computer Controlled Manufacturing means every Moduline cabinet is made with precise attention to detail. Our cabinets are made in our own high-tech, automated precision sheet metal shop with tolerances of 0.005". All manufacturing processes are inspected to ensure the highest quality before leaving our facility.

Built to Last a Lifetime — Guaranteed

How many times have you heard "things just aren't built to last anymore?" Well, that sentiment is never expressed about Moduline cabinets. One of our core values is the assurance that your cabinets will be a once-in-a-lifetime investment. We put that value into practice by offering our customers the peace of mind of our lifetime warranty.

LIFETIME WARRANTY

I. START WITH YOUR BASE CABINETS

- 1 All base cabinets are 36" high — choose the depths that work best for your space
- 2 Mix and match cabinet widths to create the layout you want
- 3 Add optional Toe Kick Riser™, drawers, shelves and locks to any base cabinet
- 4 Remember to leave room for drawer cabinets and closets (next pages)

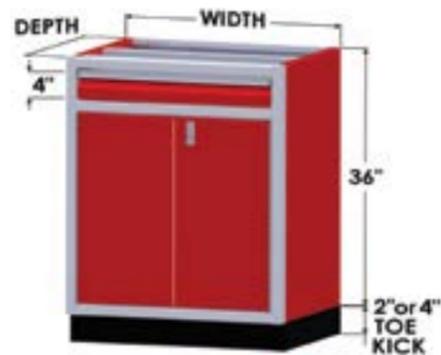

Base Cabinet Features:

- Base cabinets are 36" high, with a choice of 18", 24" or 30" depth
- Many standard sizes available (see chart). Call for custom sizes.

Base Cabinet Options:

- 4" Drawer (add prefix SD to base cabinet part number)
- 2" or 4" Toe Kick Riser™ (see p 30)
- Bottoms not required, but available if needed (see p 30)
- Pull-out or adjustable shelves (see p 30)
- Backs not required, but available (see price list)
- Locking latches available (see p 30)
- Aluminum, stainless steel or butcher block countertop (see p 18)

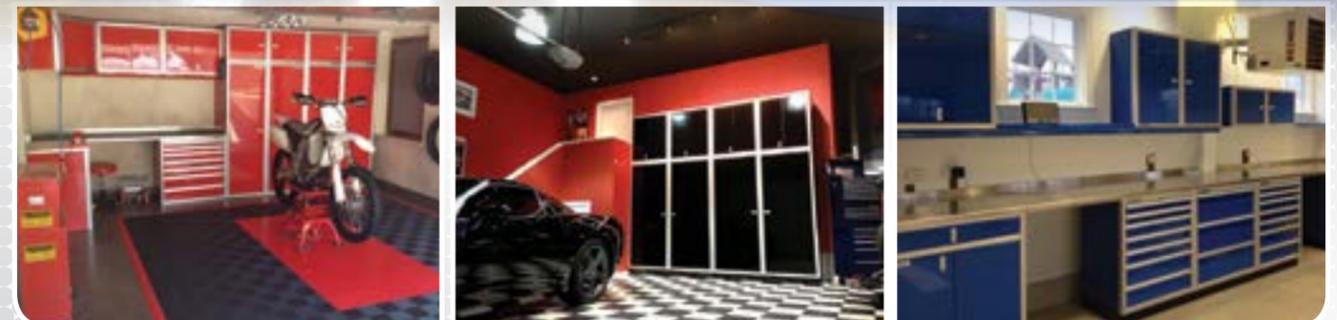

All Base Cabinets are 36" Height

	Width	Part No.	# Doors
18" Depth Cabinets	24"	361824	1
	30"	361830	2
	32"	361832	2

Introducing...

QuikDraw™
Single Action Latch System

Now Included on Every Drawer!

- **SAFETY**
Drawers stay securely closed, especially in transport.
- **INNOVATION**
Patent-pending design sacrifices NO drawer capacity.
- **EASE-OF-USE**
Smooth, whisper-quiet, one-finger operation.

Moduline is proud to introduce our latest patent pending technology; the Quik Draw™ Single Action Latch System. What makes this system so unique is having the dual, independent latch mechanisms on both ends of the handle without sacrificing drawer space.

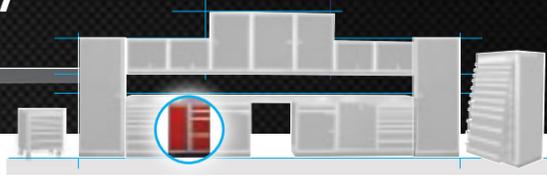

Each latch works independently to ensure the most secure drawer closure: ideal for a stationary environment as well as a mobile application. Effortlessly

lift anywhere along the handle to release the secured latch. So easy you can do it with one finger — great for when you have your hands full.

The ingenious Quik Draw™ design uses virtually no drawer space, retaining your valuable storage space. The smooth and quiet operation reinforces the high quality Moduline is known for and the optional key-lock is ideal for securing valuables.

MR Credit 4.2 : Recycled Content: 20% - All Moduline Cabinets, aluminum and stainless steel counter tops qualify*.

Manufacturing waste: 100% recycled

Environmental Facts: Cabinets, aluminum and stainless steel counter tops are 100% recyclable.

Disassembly is accomplished with common hand tools to separate dissimilar materials.

Packaging: Recyclable cardboard, Recyclable PVC sheeting and wood pallets

Durable and Modular in Design: Moduline Cabinets are designed and manufactured with premium aluminum to last a lifetime. Modular design makes it possible to rearrange and reuse cabinets when storage requirements change.

Adhesives: Moduline aluminum cabinets contain no adhesives and no formaldehyde.

*(Recycle % content definition per LEEDS: Post-consumer recycled content plus one half of pre-consumer content.)

Moduline is located at 20 Holland Street, Brockton, MA 02301
