GC-315 Ceramic Metal Halide Horticultural Lighting Fixture

A.I. Controller
Compatible

Intertek
5008543

MSRP \$299

- Dimmable
- Smart Step
- Super Lumen
- Smart Start
- Soft Start
- Re-Strike
- RF Shielding
- Full Circuit Protection
- Running Temperature
- Silent Operation
- High Energy Efficiency
- Frequency Adjustment
- Lamp Compatibility
- 3 YR Warranty

Grower's Choice Horticultural Lighting has introduced their first digital 315 watt ceramic metal halide fixture. It utilizes advanced low frequency square wave technology and high efficiency 315 watt ceramic metal halide grow lamp. The GC-315 delivers the highest efficiency and closest spectrum to actual sunlight in the commercial horticultural industry.

Technical Specifications

| | |
|------------------------|--------------|
| Rated Main Voltage: | 120V 240V |
| Input Current: | 2.9A 1.5A |
| Input Frequency: | 50/60 Hz |
| Power Factor: | >0.98 |
| THD: | <10% |
| Required Lamp Voltage: | 110V +/- 20V |
| Ignition Voltage: | 3KV-5KV |

Advanced Low Frequency Square Wave Technology
