Finding the Perfect Fit

Larger Tip = Better Noise Cancelling

Choose the largest tip that fits your ear

Creating a perfect seal in your ear is extremely important for getting the best sound quality and the best active noise cancellation. Try different sizes of ear-tips until you reach the fit and sound that you like.

How to Connect

1) Make sure that bluetooth is enabled on your phone or computer

2) Hold the middle button for **6 FULL SECONDS**

   **red** and **blue** lights will flash

3) Click "Back Bay FC-50" in your device's Bluetooth menu
   If a PIN code is required, try "0000" or "8888"

After you've connected once, your device will recognize your earbuds when you turn them on again!

Active Noise Cancelling

Double press the middle button on the control box to toggle noise cancelling on and off

You will see an orange light on the control box when noise cancelling in on

The noise cancelling works best for:

- Airplanes
- Trains
- Traffic Noise

Turn on music to cancel out voices

How to Switch Sound Modes

Switch EQ sound modes by holding both volume buttons on the control box at the same time. The headphones will say the name of the new EQ mode

The earbuds start in mode #1 every time you turn them on

1	**Back Bay Signature**	The classic American Hi-Fi sound. Strong bass, natural vocals, and crisp highs.
2	**Atlanta Bass**	Booming bass that will take any rap or EDM track to the next level.
3	**Stadium Rock**	Tighter and punchier, this setting captures that great 80's concert sound.
4	**Pure Podcast**	Loud and clear vocals with the harsh and boomy noise stripped out.
5	**Clean Classical**	Open and airy clarity with a rich, full tone.

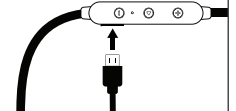

Stabilizers

Push the ear-tip into your ear canal

Tuck the stabilizer under the fold Ⓐ in your ear

Charging

Plug the USB charging cable into the charging port

Red light — charging
Blue light — fully charged

Neck Band

Place the neck band behind your neck when using the earphones
