

Bill Reid Foundation Policies
Constituency Engagement

Area: Ends Policies

Date Adopted: November 26, 2016

Reviewed: November 2017

The Board will be proactive in seeking or creating means and opportunities, on a regular basis, to listen to the needs, concerns and perspectives of the constituency groups and to consider their implications for the Bill Reid Foundation and its Gallery.

1. The Board recognizes that the Foundation and its Gallery are comprised of a number of significant stakeholders and other constituencies, including staff, volunteers, contractors, artists, supporters, and guests.
2. The Board will seek input and feedback with members of these constituency groups periodically, both formally and informally.
3. The Board will receive for advice or information, as appropriate, reports on the Director and CEO's meetings with staff, Simon Fraser University and other relevant groups.
4. The Board will continually identify and engage with other important segments of the Foundation's Constituency, such as potential supporters and/or partners, Indigenous communities and organizations with missions aligned with the Foundation.
