

Heronair PVC Tube Matting

Features

Heronair is designed and manufactured from extremely strong and hardwearing non-toxic food grade PVC. Heronair's tubular top surface and underbars are designed to create maximum cushion comfort underfoot. Its slip-resistant surface constructed from grid formation makes it an ideal working surface where water and other liquids are present.

When you're busy, the last thing you want to have to do is stop to clear up a spillage or broken glass. Heronair's cushioned tread not only reduces breakages but it raises you up slightly above the floor level, so any spillage will drain through where it can be cleaned later.

Heronair does not absorb water or other liquids and it offers insulation from cold or damp floors. It is quick and easy to fit, even into awkwardly shaped areas. It is also chemical, oil, alcohol and flame resistant.

Available in roll lengths up to 10m in 910 or 1220mm widths, and in black, blue or grey.
