SOFTWARE DEVELOPER

Fulltime (m/f)

You

- have a profound IT education or studied informatics
- have at least 2 years relevant work experience
- speak fluently English (German is a plus)
- have a high operational readiness, you are reliable and committed
- have eCommerce experience (is a plus)
- know your way around HTML and CSS
- speak Javascript and know how to manipulate the DOM (with and without jQuery)
- have experience with Python and Relational databases (PostgreSQL is a plus)
- have experience with Backend development and web frameworks (Django is a plus)
- have experience with REST APIs
- have built or deployed at least one website or web application
- have experience with Continuous Deployment (CD) and Continuous Integration (CI) is a plus
- have a working permission for Austria

About us

- we are an internationally successful start-up focused on high quality bikes for kids and teenagers
- we are a small team with a flat hierarchy
- we offer benefits as a free gym next door and the annual ticket for public transport in Vienna and Klosterneuburg; and of course free coffee :)
- we take training and a long-run job perspective seriously
- we have more than 80 innovative projects in the pipeline - some of it revolutionary
- Everyone is important, everyone counts!

Job

- you are responsible for the technical implementation of website design requests
- you will work together with a backend developer, designers and a content manager
- you build IT processes and further develop these processes

This position is paid with EUR 35.000,00 gross per year at minimum. But let's be honest: **we talk about your real salary in the personal interview and we will define it based on your experience and qualification.**

Please send your application incl. your CV, examples of your work (links to live examples are preferred) and your GitHub profile and/or Stack Overflow profile to Valerie Ferencic:
