- Nocturnal Infrared Heat Lamp™
- Daylight Blue™
- Nightlight Red™
- Moonlite®
- Repticare® Ceramic Heat Emitter
- Reptisun® 5.0
- Reptisun® 10.0
- Naturesun®

**Use with these fixtures**
- LF-11
- LF-12
- LF-15
- LF-13
- LF-18
- LF-19
- LF-50
- LF-55

**Heat**

**Basking**
- Basking bulbs provide a focused beam of heat which is essential for many reptile species.

**UVB**
- UVB is essential to the health of many reptiles and helps them maintain strong bones.

**UVA**
- UVA helps reptiles to see accurately and can promote natural behaviors.

**Night Time Viewing**
- Night time viewing bulbs provide enough light for people to watch their pets at night, but do not disturb the day and night cycle of the animal.

**Daylight**
- Visible Daylight is important to establish a natural light cycle for the animal and should be used for 12-14 hours a day.
