

Wilshire Pole Swag

9255

18" & 20" Depth

A Wilshire swag has a Shirred seam in the middle. It also has a decorative scalloped edge. The middle of the swag attaches to the pole as well as the pleated ends. The droop area is 3" to 4" from underneath a 2" pole. The illustration above shows two swags used. **Swag widths extend 32" to 58"**. A **horn, 22" deep** hangs over the swag seam. The **center tail is 18" deep**, and the **jabot hangs 42"**. The horn, tail, and jabot can be altered. The **tieback sizes are 24" to 30"**. Rope and tassels are knotted and used at each end of the pole. The ornament above the pole is a holdback attached to the wall and appears to rest on top of the pole.

Fabric Suggestions: Bulk is not a major problem, but damask and other similar weight, soft fabrics are ideal. Silk and crisp, lighter weight fabrics do well with a heavy trim. Trims must be soft and be able to curve. The horn, tail, and jabots should self or contrast line. Tiebacks should be interlined or interfaced.

YARDAGE

The jabot finishes 11" wide. The swag will overlap it 6".
The center tail finishes 13" wide. A swag will overlap it 2" each side.

Therefore, deduct the following from the pole face measurement: 5" for each jabot and 9" for each center tail used. Then divide by the number of swags desired. This will tell you what your swag size should be.

With so many different fabric widths and repeats available today, we find it works best if we give you the actual pattern sizes so you can determine how they will fit on your fabric.

(Two cuts are needed per swag)		Upright Cut	Bias Cut
32" swag	the pattern is	30" wide x 37" deep	39" wide x 39" deep
40" swag	the pattern is	32" wide x 37" deep	41" wide x 41" deep
