

Estelle Valance

9261

This valance has the simplicity of only two swag pleats, but their deep angles make the valance look amply full. The construction is simple and easy.

Swag widths extend 14" to 18". Not including trim, the **swag depth is 15" to 18"**. The **horn depth is 12" to 15"**. Choose from the gathered return, which hangs the same depth as the valance, or the **jabot depth of 33" to 36"**. It is not recommended you alter any of the pattern pieces.

Fabric suggestions: Soft fabrics and fabrics that lend themselves well to holding pleats. Stay away from extremely bulky fabrics. Stripes are acceptable. The jabots and returns should be self of contrast lined. The swags and horns can be lined with regular drapery lining. If no trim is being used, it is best to add a small facing (decking) to the bottom of the swags and horns. A purchased rosette can be added to the top of the horns.

YARDAGE

To decide how many swag sections to use, subtract 11" from the board measurement (do not include ends) then divide into equal units. **Swag width size should stay between 14" to 18"**.

You will need a horn between each swag.
 You will need a *pair* of returns or a pair of jabots.
 You will need a horn between a swag and a return.
 You will need a horn between a swag and a jabot.

With so many different fabric widths and repeats available today, we find it works best if we give you the actual pattern sizes so you can determine how they will fit on your fabric.

Swag the pattern is (upright cut) 29" wide x 24" deep, (bias cut) 29" wide x 30" deep
Horn the pattern is 14" wide x 18" deep
Return the pattern is 20" wide x 20" deep
Jabot the pattern is 20" wide x 38" deep

Same amount of lining will be needed. (Using interlining is optional.)

Yardage for trims

Trims must be able to curve.

Each swag 21"
 Each horn 14"
 Each return 21"
 Each jabot 31"

More detail information about yardage and alterations is given inside packet.
