

Jessi Valance

9277

This design was inspired for people that want a simple and professional looking window treatment that is very easy to make.

Valance Description: The straight valance section is 14" to 18" deep and can be any depth. Each jabot covers 9" of board "face". It is 21" at the short side and 57" at the long side. Part of the jabot is wrapped around to cover the end of the board. The jabot can be altered to any depth. The horn is separate and hangs 16" to 20". A bonus pattern is given, this half circle gathered valance is shown on page 10.

Fabrics: Light to medium weight. The jabot and horns should be contrast lined. Use regular lining for the valance.

LEFT FRONT COVER PHOTO, Trims Used Conso® Cabaret Collection, 3" Fringe 22155.

RIGHT FRONT COVER PHOTO, Trims Used Conso® Princess II Collection, 3" Fringe 21305, 2" Buttons 21905, Cord 22046 and Marquise Collection Cord 22030 (are twisted together). Glue the cord to the back of the buttons. Pin to the valance.
