

# Milan Valance

9291

This design was inspired for people who want a simple and professional-looking window treatment that is very easy to make.

This soft valance is made of two separate parts. The optional underlay is also separate. The underlay can attach behind, at the center of the valance where the two pieces meet.

The pattern will fit **windows 48" to 68" wide**. The valance has a **9" short point**. Using the underlay, it has a **14" short point**. The tapered sides hang about **49" deep**.

Depth adjustments can be made at the top only. There are no alteration instructions. This valance is not recommended for narrow windows. The wide sides of the valance would close it up too much.

**Fabric Suggestion:** Medium weight fabric is best. Don't use anything too bulky. Fabric needs to be soft. You can add an interlining to light weight fabrics, if necessary. Works well for stripes or plaids. Valance should be self or contrast lined.

## YARDAGE

With so many different fabric widths and repeat sizes available today, we find it works best if we give you the actual pattern sizes so you can determine how they will fit on your fabric.

Valance can be cut upright or lengthwise. When cutting lengthwise, the width of the pattern will run with the selvage.

### For a valance without seams:

48" window .....	The pattern is .....	56" wide x 52" deep (2 are needed)
56" window .....	The pattern is .....	60" wide x 52" deep (2 are needed)
