

Florentine Arched Valance

9302

53" to 76" wide

(Measuring straight across half circle at widest place)

This simple but elegant valance is made of two separate sections. There is an underlay that is attached behind the valance where the two sections meet. There are six valance patterns and six overlay patterns. You will only need to use one of each, the ones that have your size on it. The sizes are: 53" to 56", 57" to 60", 61" to 64", 65" to 68", 69" to 72", and 73" to 76". Some of the valance sizes will have more slack than others. Example: The largest size in each group will have a flat fit. As the sizes get smaller in each group, there will be slightly more slack. **ALTERATION INSTRUCTIONS ARE NOT INCLUDED.**

The valance has no returns. **For installation 5 holdbacks are needed.** The valance will tie (or use an elastic loop) to the holdbacks. Instructions are included for a microcord stitched into the outside seam. Braid or gimp is optional to apply near the outside edge.

Fabric Suggestions: Light, medium, or heavy fabrics can be used. With light fabrics, use an interlining. Works well with stripes and plaids. The valance and underlay can have a drapery lining.

YARDAGE

With so many different fabric widths and repeats available today, we find it works best if we give you the actual pattern sizes so you can determine how they will fit on the fabric.

Valance can be cut upright or lengthwise. When cutting lengthwise, the width of the pattern will run with the salvage.

TRIMS

Trims and fringes that hang down are not recommended because they do not have room next to the underlay. A small cord (1.4 mm), or no larger than 1/4" diameter, can sew into the outside seam. Cord must be flexible. Avoid purchased twisted cord. Braid or gimp can apply to the bottom edge, but it must be able to curve.
