

# Medallion Swag

20", 22", or 24" Depth

9308

44" to 54" Wide

Each swag and jabot is cut separately, in order to have all the necessary angles. The pieces are sewn together and then the seams can be "scrunched" by hand, or stack the fullness in accordion style pleats. To install, the seam areas will lay on top of the medallion post. The swags have a top "droop" area of 3" to 4" from the top of the medallion post. The swag droop area and the amount of fullness can be adjusted. **There are no instructions to make the swags a different width or depth.**

The **jabot depth is approximately 37", 42", or 46"**. Instructions to alter the depth of the jabot are included.

**Maltese Cross Rosette 4", 6", or 8"** pattern is included. Instructions to make medallions for the rosette are included.

**Fabric Suggestions:** Do not use bulky fabrics. Interlining is okay because it can be trimmed away from the seam areas. Soft fabrics are best. Stripes and plaids work well. The rosettes have self covered cord sewn into the side seams of the loops.

## YARDAGE

To know what size swag you need, measure straight across from medallion to medallion. The amount for the droop area has already been added. Do not allow more.

With so many different fabric widths and repeats available today, we find it works best if we give you the actual pattern sizes so you can determine how they will fit your fabric.
