

# Nightingale Valance

9313

This valance can have a smooth bottom edge or a dainty scallop edge. It has **flat sections that can be 12" to 22" wide by 18" deep**. The tulip style pleat is placed between the flat sections. **The jabot hangs 23" deep**. All pattern pieces can be altered in depth.

This valance can hang from medallions, or a pole with rings. It can attach with ribbon or loops.

**Fabric Suggestions:** Soft fabrics and lightweight, crisp fabrics work best. Avoid extremely bulky fabrics. Stripes and plaids work well. Drapery lining can be used for the flat sections but may tend to show around the bottom if a trim is not used. The pleats and jabots will need to be self or contrast lined. Interlining is optional.

## YARDAGE

Determine how many flat scallop sections you need by simply dividing your window width into equal units for the size you desire, between **12" and 22"**. A small amount of "ease" has already been added to the patterns.

With so many different fabric widths and fabric repeats available today, we find it works best if we give you the actual pattern sizes so you can determine how they will fit on your fabric. Pattern pieces can be overlapped to eliminate some of the seams when fabric allows.

### Upright Cut

12" flat section .....	the pattern is .....	14" wide x 19" deep
16" flat section .....	the pattern is .....	18" wide x 19" deep
22" flat section .....	the pattern is .....	24" wide x 19" deep
Each pleat .....	the pattern is .....	10" wide x 18" deep
Each jabot .....	the pattern is .....	18" wide x 26" deep

**Lengthwise Cut:** The width measurement will run with the selvage.

Same amount of lining will be needed.

Same amount of interlining (optional).

**Trims:** (Trims must be able to curve).

Each 12" flat section .....	14"
Each 16" flat section .....	18"
Each 22" flat section .....	24"
Each pleat .....	11"
Each jabot .....	22"

You will need the same number of medallions, or rings, as you have pleats.
