## Our name says it all...

Frames for Portraits was established in 2005 to provide quality framing products.

We have one of the largest inventories of solid wood, MDF and polystyrene molding in the framing industry, featuring contemporary, traditional, ornate and time-honored profiles in a wide variety of widths and finishes.

Frames for Portraits is a full service manufacturer offering a complete line of products and accessories, including glass and plexiglass; Masonite and easel backs; multiple hanging options; and bevel-cut mats. Specialty items include linen liners, gallery wraps and floater frames.

Our manufacturing facility is located in Cleveland, Tennessee. We can produce orders from minimal case quantities to large volume palletized truck shipments, and even provide a fulfillment service, shipping individual frames directly to your customers.

We also import a line of solid wood, ready-made frames that are beautifully detailed and attractively priced.

The entire staff at Frames for Portraits will always strive to provide you with the best possible products and service.
