## COMPATIBILITY AND INTENDED USE

The BIG FOOT Two-Leg Kickstand is intended to be installed on bikes used for riding on paved surfaces where the tires maintain contact with the ground.

The BIG FOOT Two-Leg Kickstand is designed to fit on frames with or without a kickstand plate, and on bikes with 700c or 26" wheels.

**NOTE:** For frames without a kickstand plate, please consult the frame manufacturer for compatibility. Installation of a kickstand on a frame that is not kickstand-compatible can damage the frame.

## TOOLS

- 8mm hex wrench
- 14mm open-end wrench
- Grease

## INSTALLATION

1. Clean the frame or kickstand plate of dirt, grease, and other contaminants.
2. Lightly grease threads of fixing bolt.
3. For frames with a kickstand plate: insert 8mm socket-head fixing bolt through split washer and kickstand plate of frame and thread into kickstand. Do not use top plate or hex-head fixing bolt.
4. For frames without kickstand plate: insert hex-head fixing bolt through split washer, top plate, between chainstays, and thread into kickstand. Position kickstand as close to the bottom bracket shell as possible without interfering with cables.

**⚠ WARNING:** Before fully tightening fixing bolt, ensure neither the kickstand, fixing bolt, nor top plate interfere with derailleur cables.

**⚠ WARNING:** Over tightening the kickstand on frames without a kickstand plate can damage the frame, rendering it unsafe to ride.

5. Tighten fixing bolt until snug and kickstand can no longer move, or to the frame manufacturer's specification.

## ONGOING MAINTENANCE

Periodically inspect your URSUS BIG FOOT Two-Leg Kickstand to make sure the fixing bolt is tight and the kickstand cannot move.

## WARRANTY REGISTRATION

Proof of purchase is required before a warranty claim is processed. URSUS therefore strongly encourages warranty registration. Failure to register will not affect consumer rights, so long as the consumer can show in a reasonable manner proof of original ownership and the date the URSUS BIG FOOT product was purchased.

If you have any questions visit [URSUSCYCLING.COM](http://URSUSCYCLING.COM) for more warranty information.
