

Instrucciones Instalación Sistema Antivuelco

Elementos del kit

Para paredes de mampostería
(ladrillo, bloques de hormigón, piedra)

Para paredes huecas
(láminas de cartón-yeso)

Para mobiliario de
hasta 18 mm grosor

Para mobiliario de más de
19 mm de grosor

NOTA IMPORTANTE:

Si en tu kit vienen incorporados dos anclajes antivuelco, deberás instalar uno en cada extremo en la parte superior trasera del mueble[1]. Si tu mueble es de menor tamaño y el kit únicamente incluye un único anclaje, ubícalo en el centro, también en la parte trasera superior del mueble[2].

1.

2.

INSTALACIÓN: PASO A PASO

1. Marca los agujeros con un lápiz antes de introducir los tacos.

2. Taladra los agujeros en la pared.

3. Usa un martillo para introducir los tacos.

4. Atornilla el soporte a la pared con tornillos largos.

5. Atornilla el soporte al mueble con tornillos cortos.

6. Pasa la correa de acero por ambos agujeros del soporte y ciérrala.

Installation Instructions For Anti-Tip System

Kit components

For masonry walls
(brick, concrete blocks, stone)

For hollow walls
(drywall sheets)

For furniture up to
18 mm thick

For furniture over
19 mm thick

IMPORTANT NOTE:

If your kit comes with two anti-tip anchors, you should install one on each end of the top rear of the furniture [1]. If your furniture is smaller and the kit only includes a single anchor, place it in the center, also in the upper rear part of the furniture [2].

1.

2.

INSTALLATION: STEP BY STEP

1. Mark the screw holes with a pen.

2. Drill holes into the wall.

3. Use a hammer to insert expansion nails.

4. Attach the mount to the wall with long screws.

5. Attach the mount to the furniture with short screws.

6. Pass the steel wire strap through both mount holes and fasten the connector.

Instructions d'Installation pour le Système Anti-Basculement

Composants du kit

Pour les murs en maçonnerie
(brique, blocs de béton, pierre)

Pour les murs creux
(plaques de plâtre)

Pour les meubles jusqu'à
18 mm d'épaisseur

Pour les meubles de plus
de 19 mm d'épaisseur

NOTE IMPORTANTE:

Si votre kit est livré avec deux ancrs antibasculement, vous devez en installer une à chaque extrémité du haut arrière du meuble[1].
Si votre meuble est plus petit et que le kit ne comprend qu'une seule ancre, placez-la au centre, également dans la partie arrière supérieure du meuble[2].

1.

2.

INSTALLATION: ÉTAPE PAR ÉTAPE

1. Marquez les trous avec un crayon avant d'insérer les chevilles.

2. Percez les trous dans le mur.

3. Utilisez un marteau pour insérer les chevilles.

4. Vissez le support au mur avec des vis longues.

5. Vissez le support au meuble avec des vis courtes.

6. Passez la rondelle à travers les deux trous du support et serrez-la.

Instruções de Instalação do Sistema Anti-Tombamento

Elementos do kit

Para paredes de alvenaria
(tijolo, blocos de concreto, pedra)

Para paredes ocas
(placas de gesso cartonado)

Para mobiliário com até
18 mm de espessura

Para mobiliário com mais
de 19 mm de espessura

NOTA IMPORTANTE:

Se o seu kit incluir duas ancoragens anti-tombamento, deverá instalar uma em cada extremidade na parte superior traseira do móvel[1]. Se o seu móvel for de tamanho menor e o kit incluir apenas uma única ancoragem, posicione-a no centro, também na parte traseira superior do móvel[2].

1.

2.

INSTALAÇÃO: PASSO A PASSO

- 1.** Marque os furos com um lápis antes de inserir as buchas.

- 2.** Fure os furos na parede.

- 3.** Use um martelo para inserir os tacos.

- 4.** Parafuse o suporte à parede com parafusos longos.

- 5.** Parafuse o suporte ao móvel com parafusos curtos.

- 6.** Passe a correia de aço pelos dois furos do suporte e aperte-a.

Istruzioni per l'Installazione del Sistema Antibasculante

Componenti del kit

Per pareti in muratura
(mattoni, blocchi di cemento, pietra)

Per pareti vuote
(cartongesso)

Per mobili fino a 18 mm di spessore

Per mobili oltre i 19 mm di spessore

NOTA IMPORTANTE:

Se nel tuo kit sono inclusi due ancoraggi antibasculi, dovrai installarne uno su ciascuna estremità nella parte superiore posteriore del mobile[1]. Se il tuo mobile è di dimensioni ridotte e il kit include solo un unico ancoraggio, posizionalo al centro, sempre nella parte posteriore superiore del mobile[2].

1.

2.

INSTALLAZIONE: PASSO DOPO PASSO

- 1.** Segna i fori con una matita prima di inserire i tasselli.

- 2.** Perfora i fori nella parete.

- 3.** Usa un martello per inserire i tasselli.

- 4.** Avvita il supporto alla parete con le viti lunghe.

- 5.** Avvita il supporto al mobile con le viti corte.

- 6.** Passare la rondella attraverso entrambi i fori del supporto e serrala.

Installationsanleitung für **das Kipp-Sicher- heitssystem**

Komponenten des Kits

Für Mauerwerkswände
(Ziegel, Betonblöcke, Stein)

Für Hohlwände
(Trockenbauwände)

Für Möbel bis
18 mm Dicke

Für Möbel über
19 mm Dicke

WICHTIGE ANMERKUNG:

Wenn Ihr Kit mit zwei Anti-Kipp-Anker geliefert wird, sollten Sie jeweils einen am oberen hinteren Ende des Möbels anbringen[1]. Wenn Ihr Möbelstück kleiner ist und das Kit nur einen einzigen Anker enthält, platzieren Sie ihn in der Mitte, ebenfalls im oberen hinteren Teil des Möbels[2].

1.

2.

INSTALLATION: SCHRITT FÜR SCHRITT

1. Markieren Sie die Löcher mit einem Bleistift, bevor Sie die Dübel einsetzen.

2. Bohren Sie die Löcher in die Wand.

3. Verwenden Sie einen Hammer, um die Dübel einzusetzen.

4. Schrauben Sie die Halterung mit langen Schrauben an die Wand.

5. Schrauben Sie die Halterung mit kurzen Schrauben an das Möbelstück.

6. Führen Sie die Unterlegscheibe durch beide Löcher der Halterung und ziehen Sie sie fest.

Instruccions Instal·lació Sistema Antibolcada

Elements del kit

Per a parets de maçoneria
(maó, blocs de formigó, pedra)

Per a mobiliari de fins a
18 mm gruix

Per a parets buides
(làmines de cartó guix)

Per a mobiliari de més de
19 mm de gruix

1

NOTA IMPORTANT:

Si en el teu kit venen incorporats dos ancoratges antibolcada, hauràs d'instal·lar un en cada extrem en la part superior posterior del moble[1]. Si el teu moble és de menor grandària i el kit únicament inclou un únic ancoratge, situa'l en el centre, també en la part posterior superior del moble[2].

1.

2.

2

INSTAL·LACIÓ:

PAS A PAS

- 1.** Marca els forats amb un llapis abans d'introduir els tacs.

- 2.** Trepa els forats en la paret.

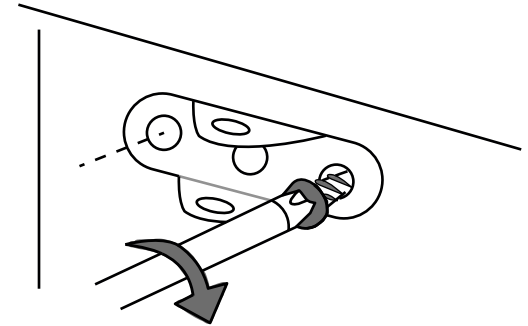

- 3.** Usa un martell per a introduir els tacs.

- 4.** Caragola el suport a la paret amb caragols llargs.

- 5.** Caragola el suport al moble amb caragols curts.

- 6.** Pansa la volandera per tots dos forats del suport i tanca-la.
