The Company

Ghidini1961 of Villa Carcina, in the province of Brescia, belongs to Italy's manufacturing excellence, thanks to their unparalleled production skills.

A specialist in die casting brass, aluminum and steel, the company excels in combining advanced technologies with traditional craft skills. With these solid foundations, the creative team composed by international designers has been able to enhance the properties of metals by creating innovative, timeless products chiseled with all the care for every detail that is distinctive of Ghidini's fine craftsmanship.

In this catalogue, you will come across products destined to become iconic, to erase the boundary between art and design and to establish with the public a communion of intentions and views such as to translate into a loyal and lasting relationship, just like artistic artefacts. A demonstration of how the reliability and quality of a brand can become a warranty of an investment capable of acquiring value over time.

The craft

The entire production cycle takes place in-house and is characterized by a meticulous attention to detail: from the idea to the end product, passing through the various processing stages – from pressure die casting to lost wax and gravity casting, from machining to drilling, from satin-finishing to sand-blasting and polishing. These are the solid foundations of Ghidini1961.

With over 60 years of history behind it, and an entrepreneurial wisdom that has been handed down from father to son, Ghidini1961 presents furnishings, lamps and home accessories that are true testimonies of great Italian craftsmanship combined with state of the art production technologies, care for materials, aesthetics and attention to detail.

With this foundation, our products are not just meant to decorate a refined environment, but they represent something valuable,

to be cared of, that can be passed over through generations thanks to its intrinsic and long lasting value blended with iconic and timeless design.

The products

The collection includes works of art, where metal acquires an almost sculptural power, upholstered furniture, dining tables, beds, cabinets and finely chiseled home accessories, bearing witness to Ghidini's obsession for details.

The series embrace almost all articles for use at home, which are interpreted in an unusual and joyful way: from comfy and versatile sectional sofas, to very seductive, almost sculptural upholstered design statements, such as the Abbracci sofa, conceived Lorenza Bozzoli or Stefano Giovannoni's Frame collection, where geometric shapes are softened by the velvety surface of metal to create a sleek collection of sofas, armchairs, dining tables, cabinets, bookshelves and beds.

Casted metal elements have given life also to a series of other iconic products, such as the Shaker sofa and table, with the casted wheel that defines the language, to the brass and leather buckle of the Leisure sofa and armchair.

In its rich variety, the collection is a selection of the most significant contemporary creative expressions, interpreted and enhanced by Ghidini's skillful expertise and ability to interpret metal in all its possible forms.

The designers

The brand has put together a diversified creative team able to enhance the properties of metals, in a constant dialogue with precious leathers, fabrics, marbles and woods.

By combining these valuable materials the team has developed a remarkable collection of items, furniture and accessories for daily use. All these products are characterized by innovative design and high quality manufacturing, creating an exclusive mood coherent with the nature and the best tradition of Ghidini1961.

The collection has been designed by renowned international firms such as Aldo Cibic, Alessandro Mendini, Andrea Branzi, Branch Creative, Fernando and Humberto Campana, Noé Duchaufour-Lawrance, Setsu & Shinobu Ito, Johanna Grawunder, Richard Hutten, Elisa Giovannoni, Stefano Giovannoni, Paolo Rizzatto, Tomek Rygalik, Studio Job and Nika Zupanc. The collection ranges from large furniture statements to tiny golden accents that decorate and give warmth to stylish residential environments.

Tasca

— Sofas and armchair

Robert Stadler

The name Tasca refers to the cushion's elegant leather pockets in which the sofa structure is housed. Both the pockets and the metal parts are reminiscent of distinct equestrian accessories.

Flo__Sofas and armchair

Lorenza Bozzoli

The Flo series pays homage to mid-20th century Brazilian design, emphasizing high quality materials and comfort such as the use of leather straps to support the seat and backrest. The thick natural leather armchair, padded with goose down, suggests a fusion of luxury, craftsmanship and design.

The back view of the Flo family of seaters emphasizes the dialogue between precious materials, such as casted aluminum, cotton velvet and saddle leather. Customization is once again at the center of the project, thanks to the almost endless combinations between these materials.

The two and four seater sofas are both made with a significant metal structure, typical of the craftsmanship of Ghidini1961. The black cotton velvet provides a strong and distinctive character suitable for both modern and traditional environments. A reinterpretation that fully embraces the principles of contemporary design. The soft armrest suggests an informal interaction with this sofa, reminding that comfort is always a core design element.

Mambo__Modular sofa

Lorenza Bozzoli

This modular sofa is not simply a piece of furniture but a celebration of the movement, fluidity and expressiveness of the famous Caribbean dance. The sinuous shape allows the sofa to unfold in the space in an elegant way, evoking the graceful and lively movements of mambo dancers.

Each module of the sofa is composed in harmony with the others in a dance that invites you to sit down and let yourself be lulled by its comfort. The color of the chosen velvet recalls the energy and fertility of the tropical land, its generous curls the costumes of Creole dancers.

The Mambo family is completed with a generous and comfy armchair, which shares the same distinctive elements of the large sofa.

The folds and curves of the seat and backrest recall to a convivial language, which blends seamlessly with the large dimensions of the modular sofa.

Tria

_Tables/Small tables

Lorenza Bozzoli

Dining table with irregularly shaped top, inspired by the section of a river stone, evokes the fluidity and harmony of nature making it a prominent element in any environment.

Selected for its exceptional quality and color, Portuguese pink marble is renowned for its delicate veins that run across the surface, with nuances that make it unique. The top is supported by zoomorphic sculptured bases made of the same material.

The Tria series also includes coffee tables with triangular tops of three different sizes and heights for numerous compositional possibilities accentuated by the availability of being combined with a wide choice of marbles.

The generous supporting leg of the table allows this family to be offered with sizes up to 280cm. Instead, the coffee tables are offered in three different sizes and heights, allowing very beautiful combinations between different marbles and shapes.

Spritz__small armchairs

Lorenza Bozzoli

Made up of dining and living armchairs, the Spritz seating family evokes the sparkling world of aperitifs. The 360° swivel movement adds a playful and dynamic element to the armchair, making it perfect for informal environments where conversation and interaction are at the center of the experience. In the dining version, the swivel movement with return allows the seats to return to their always tidy position around the table.

Artù _Tables

Paolo Rizzato

The large circular top is well supported by a solid base formed by a series of overlapping concave and convex rotation volumes alternating the metal (brushed burnished metal scots) and stone (grooves and spheres in precious colored marbles).

The whole communicates a feeling of well-constructed stability and security and of noble architectural richness. The circle evokes the legend of the "Knights of the Round Table", and "King Arthur", stone and metal recall the "Sword in the Stone" back to Excalibur.

Thanks to the strength and visual presence of the supporting leg, the Artù is presented also in a rectangular and oval configurations. The rectangles are ranging from 200 up to 280cm, and the ovals go up to 200cm in length on a single leg.

Arch_Dining chair

Richard Hutten

The Arch chair draws inspiration from the iconic arches of Rome's Colosseum. Its graceful contours and enduring elegance seamlessly marry contemporary style with timeless craftsmanship. Embracing the materiality, the external frame exudes a sense of celebration, while the gentle curves of the backrest promise endless comfort during long evenings. This chair effortlessly infuses richness and sophistication into any space, seamlessly adapting to diverse environments with its versatile charm.

Merlino__Tables

Paolo Rizzato

The marble top instead seems to float supported by an unusual structure surprisingly rich and light, airy and iridescent as the points of view change. The linear and curvilinear shapes in burnished and brushed metal that compose it they refer to organic vegetal forms and when reflected in a mirrored surface they multiply and they seem to mysteriously sink in the floor plane.

Hillary

_Dining chair

Richard Hutten

The Hillary chair, named after the butler of Lara Croft in Tomb Raider, serves you in a very elegant way. The generous proportions of the backrest gives the chair its presence, while at the same time providing high comfort, like a tailor made jacket. With its sleek design, impeccable craftsmanship, and innovative features, it infuses sophistication and opulence into any space. Through a shared dedication to quality, this extraordinary furniture piece emerges as a timeless masterpiece.

Shaker__Console

Stefano Giovannoni

Family of consoles in different sizes, a classic object wisely redesigned to bring it back to a contemporary dimension. The elegant metal wheel that characterizes the sofa is proposed here as the end of the sinuous turned legs, allowing the console to be moved. The Shaker console is made of cherry wood or matt black lacquered wood.

Frame__Console

Stefano Giovannoni

Frame is a collection composed of sofas, armchairs, dining tables, consoles and coffee tables, bookshelves, cabinets and beds. Everything starts from a simple element: "the joint", which, combined with elegant rounded 45 degrees extrusions, creates an almost infinite family.

Arnold__Small tables

Paolo Rizzato

Three geometric shapes (a Line, a Plan, a Volume) and three materials (Metal, Wood, Marble) exploiting the artifice and techniques of "tapering" take the form of: a solid tapered column (in two heights) completed with connections at the base and at the head providing a comfortable support surface characterized by a thin rounded edge and a stable truncated cone base. The several combinations of the three geometries and

the three materials are enriched by some dimensional variations and, with the study and fine-tuning of their overall proportions, take their definitive and complete form where the elegant brass column, which draws and solves the connection and attachment between the top and the base, becomes the distinctive element of the project without taking over the other elements that take part in the compositional game.

Dapertutto

__Small tables

Paolo Rizzato

"Dapertutto" is a disturbing character, part magician and part devil from "The Tales of Hoffmann", Offenbach's opera fantastique. "Dapertutto" could be the perfect name for this side table designed to sneak "everywhere", in every environment with its form that is both archetypal (think of the Diablo game) and very contemporary (reminiscing black holes), but still ambiguous and reversible.

Helios_Lamps

Branch Creative

With this year collection we present an evolution of the Helios family of lights: the lamps are presented with new handmade finishes in polished silver and black finishes. The iconic blown glass lampshade now fully hides the lighting source when switched off.

Butterfly_Mirror

Richard Hutten

Butterflies have been a source of inspiration through Art History. From the ancient Egypt's, to the Renaissance until now it has always been a theme. The Butterfly mirror is both playful and elegant.

Yarns of different types and thicknesses create a textural weave and confer a slight matelassé effect to the surface. Soft and consistent to the hand, hardwearing and ideal for heavy duty seating.

Bringing together both natural beauty and a sense of finesse, the creative team have mixed colours of yarn in warp and weft to create an elegant yet casual fabric. The result has a unique structured surface that adds an extra dimension to any interior design scheme. With a back cloth that gives extra stability, Clay is perfect for upholstering furniture. The colours are inspired by the designer's love of both art and interiors and include cool shades of cement, blue, and salvia but also the natural shades of wood and clay.

Panama weave with slightly shot yarns. Even here the Dedar offer extends with the linen and viscose cloth, which is durable, bright, boasts a rich texture (Flair, Fifty Fifty, Chambray, Aut Aut, Arbus). A special, careful blend of linen and viscose and a new construction which enables a reduction of the textile weight whilst guaranteeing the aesthetic quality, usage and durability, and also offering good value. This textile, just like the others in this range, feature a waterrepellent treatment which offers specific protection from liquids and oils.
