Products & Projects

FORTVNY®

An extraordinary cultural project reviving the elegance of early 20th century tastes in the design of lamps.

From silk to glass, the collection express multiple aesthetic and functional needs, adapting to both modern and classic interiors.

Sophistication, refined techniques, a high quality finish and attention to detail are the distinctive features of each original lamp bearing the FORTVNY® trademark.

COMPOSITIONS

SILK LAMPS

The lightness of the opaline silk, the refined decoration and the balance of the silhouettes merge together, creating true sculptures of light.

Perpetuating the tradition, Fortuny continues to produce these wonderful lamps.

Evoking almost fairytale places and times, FORTUNY® lamps are the result of research into lighting, design and ways of filtering light.

Thanks to the particular structure and various models proposed, they fit in with any style of décor, completely satisfying the needs of good illumination and giving the space a soft, evocative and timeless atmosphere.

SCHEHERAZADE

This lamp's name reflects the atmosphere it creates: a mixture of excitement and magnificence, along with intelligence and romance.

It combines Mariano Fortuny's love for Venetian and the Oriental cultures.

The elegant 3-tier structure has the form of an upside-down pagoda and is suspended by a delicate net of cords decorated with Murano glass beads.

The lower tier culminates with a fine engraved drop.

SCHEHERAZADE 2 TIERS
with metal ring

In the two tiers Scheherazade, Oriental style elements combine with Venetian-Saracen decorative motifs.

The lamp is ideal for large, sophisticated interiors. The light filters through the silk and penetrates the inlay of the decorative ring to create an evocative atmosphere.

The lower tier culminates with a fine engraved drop, and the Fortuny® trademark is engraved on the patterned metal ring.

SCUDO SARACENO

Scudo Saraceno translates to Saracen Shield. Saracen was a term used in medieval Europe to describe Muslims.

This exotic design reflects Mariano Fortuny's interest in Saracen artistic themes.

The shield-like shape, decorated with Ottoman motifs and the configuration of its sections starting out from the centre, create a wonderful "sun-like" effect.

SAMARKANDA

Samarkand is a city in present day Uzbekistan, and lies on the famous Silk Road trade route linking Venice and China.

This lamp's unique shape and quintessential Fortuny pattern evoke the mystique of those ancient trade journeys, and the cultural fusion they sparked.

The metal ring adds an interesting contrast of delicacy and strength.

CESENDELLO

A cesendello, or sanctuary lamp, has its roots in Rome and Byzantium, and later became popular in Venice and the Muslim world.

The profile of this elegant spiral structure recalls the twist of a turban.

The refined silhouette represents the synthesis of the Oriental and Renaissance themes present in Venice as early as the 15th century.

Cesendello floor lamp design of Mariano Fortuny's was probably the first electric floor lamp.

The elegant Cesendello silhouette is enhanced by the fabric-covered stand, which has delightful inlays.

GLASS LAMPS

In the glass range Fortuny continues the centuries-old tradition of the Venetian master glass blowers, while retaining the elegance and originality of the shapes found in the silk version.

The brilliance and transparency of the glass enhance the delicate gold decoration, made even more precious by the burnished metal of the decorative metal ring.

SCHEHERAZADE GLASS

This lamp's name reflects the atmosphere it creates: a mixture of excitement and magnificence, along with intelligence and romance. It combines Mariano Fortuny's love for Venetian and the Oriental cultures.

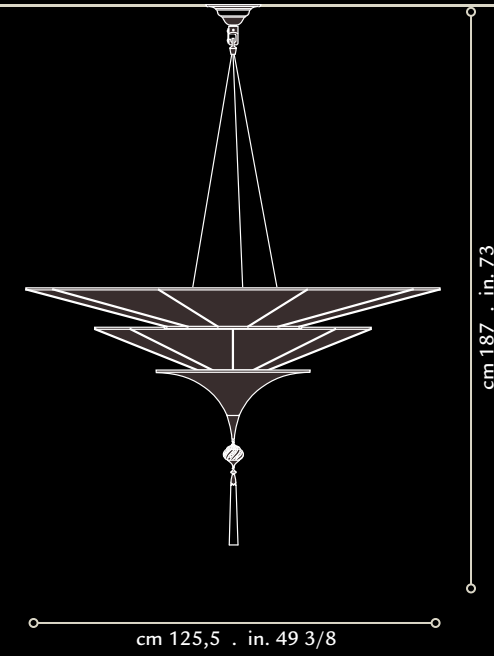

The elegant 3-tier structure has the form of an upside-down pagoda. The lower tier culminates with a fine engraved metal sphere and tassel.

MARIANO FORTUNY

Artist, photographer, designer... it is hard to single out which aspect of the personality and work of Mariano Fortuny was predominant.

His entire artistic production was based on an extraordinary synthesis of worlds and eras, of styles and techniques that only in Venice, a melting pot of civilizations, could be transformed into the creation of exquisite products.

Through philological experimentation inspired by the noble roots of Western art and the magic of the Orient, Mariano Fortuny became one of the most original interpreters of Venice's "Silver Age".

His constant research into lighting led him to file a number of patents, including a device to control light intensity, used in the world's most prestigious theatres.

Design protected.

On request, all our lamps can be produced for North America according to UL* standards and for Europe according to CE standards.

The company reserves the right to modify its products without warning. Colours and patterns may differ slightly from the ones featured in this catalogue.

No part of this work may be reproduced or transmitted in any form or by any means without prior permission. All rights reserved. Made in Venice - Italy

*with the exception of floorstand and rod.
