## INTRODUCTION

Mooer Audio is an energetic and innovative audio technology company that is dedicated to researching and manufacturing professional audio equipment and accessories.

Utilising their extensive experience in analog and digital technologies, Mooer's highly skilled team of engineers works with their world class R&D division to create sonic masterpieces. Mooer's dedication to pushing the boundaries, while providing their customers the highest quality products at affordable prices has ensured an ever growing number of highly accomplished musicians join the Mooer family.

*"High quality products and customer satisfaction" is our driving goal.*

**Mooer Audio is committed to providing the best products & service to musicians the world over!**

## MICRO PEDALS - TUNER

**BABY TUNER / MEP-BT**  
**\$129.95**  
**TUNER PEDAL**

A precision micro pedal Tuner, accurate to 1 point. Works with most Electric or Acoustic-Electric instruments including 7-String guitars & 5-String basses.

## MICRO PEDALS - OVERDRIVE

**HUSTLE DRIVE**  
MEP-HD  
\$109.95

Tube-like Overdrive with ultra-wide dynamic range.

**THE JUICER**  
MEP-JC  
\$129.95

Neil Zaza signature pedal. Transparent Lo-Gain Overdrive.

**GREEN MILE**  
MEP-GM  
\$109.95

2 Modes: Warm/Hot. A smooth creamy Overdrive.

**BLUES CRAB**  
MEP-BC  
\$119.95

Classic Blues Overdrive.

**RUMBLE DRIVE**  
MEP-RD  
\$129.95

Smooth creamy Overdrive with excellent dynamic response.

## MICRO PEDALS - DISTORTION

**BLACK SECRET**  
MEP-BS  
\$119.95

Distortion with 2 modes: Vintage & Turbo.

**CRUNCHER**  
MEP-CR  
\$119.95

A high gain Distortion Pedal with powerful mid frequency.

**BLADE**  
MEP-BL  
\$119.95

Metal Distortion. 3 Modes: Lo Boost, Hi Boost & Boost Off.

**SOLO**  
MEP-SO  
\$119.95

High-gain Distortion with excellent dynamic response.

**ULTRA DRIVE MKII**  
MEP-UD  
\$119.95

Classic Rock Distortion with 3 Modes: Original/Extra/Ultra.

**RAGE MACHINE**  
MEP-RM  
\$149.95

Wide variety of heavy metal style Distortion tones.

**BLUE FAZE / MEP-BF / \$119.95**  
Vintage Fuzz Pedal for classic Hendrix Tone.

**TRIANGLE BUFF / MEP-TB / \$119.95**  
Legendary rich creamy Fuzz tone.

**GREY FAZE / MEP-GF / \$129.95**  
A smooth, Vintage Fuzz with vintage Germanium transistors.

## MICRO PEDALS - DELAY

**ECHOLIZER / MEP-EC**  
**\$119.95 - ANALOG**  
Very similar to analog Delay, warm, vintage Delay sound.

**ANA ECHO / MEP-AE**  
**\$119.95 - ANALOG**  
Full analog circuit. Warm, clear, smooth analog Delay.

**REECHO / MEP-RE**  
**\$139.95 - DIGITAL**  
3 Delay modes: Analog, Real Echo & Tape Echo.

**REPEATER / MEP-RP**  
**\$139.95 - DIGITAL**  
Delay times from 25ms to 1000ms. 3 modes: Mod/Normal/Kill Dry.

**MICRO LOOPER**  
**MEP-ML / \$149.95**  
**LOOP RECORDING**  
Unlimited overdubbing, 30 minutes recording.

**BABY WATER**  
**MEP-BW / \$149.95**  
High quality Delay & Chorus for acoustic guitar.

**ECHOVERB**  
**MEP-EV / \$139.95**  
High quality Reverb and digital Delay, either effect can be used alone or simultaneously.

# MICRO PEDALS - MODULATION

**ENSEMBLE KING**  
MEP-EK / \$119.95

Analogue Chorus pedal with warm clear chorus sound.

**SOUL SHIVER**  
MEP-SS / \$139.95

Multi-modulation pedal with 3 high quality effects: Chorus, Vibrato & Rotary.

**NINETY ORANGE**  
MEP-NO / \$119.95

Full analog circuit, warm, deep, rich phasing tone. 2 modes: Vintage/Modern.

**TRELIPTER**  
MEP-TC / \$119.95

Classic optical Tremolo with a huge range of speeds/depths.

**ELECTRIC LADY**  
MEP-EL / \$129.95

Classic analog Flanger with filter mode & oscillator. 2 modes: Normal/Filter.

**MOD FACTORY**  
MEP-MF / \$149.95

11 classic Modulation EFX using high performance DSP chip.

**THE VARIMOLO**  
MEP-VM / \$149.95

Wide range of adjustment options. 3 tremolo modes: Normal/Filter/Variable.

**LIQUID PHASER**  
MEP-LQ / \$129.95

Digital Phaser with 5 modes ranging from subtle vintage to wacky extreme modulation.

**TRIANGOLO**  
MEP-TG / \$129.95

Digital Tremolo pedal with speed and depth adjustment, true bypass, featuring 5 different timing modes and 3 different wave patterns.

**JET ENGINE**  
MEP-JE / \$129.95

High quality digital Flanger with true bypass depth, width and rate controls.

**SHIMVERB**  
MEP-SV  
\$129.95

High quality Reverb with 3 modes: Room, Spring or Shimmer.

**MODVERB**  
MEP-MV  
\$129.95

Flanger, Vibrato or Phaser with a high quality pristine digital Reverb.

**SKYVERB**  
MEP-SKV  
\$139.95

32-Bit fixed point DSP chip. Delivering stunning Studio, Plate or Church Reverb effects.

**WOODVERB**  
MEP-WV  
\$149.95

**DIGITAL REVERB**  
Designed for acoustic guitar with true bypass. 3 modes: Reverb, Mod or Filter.

## MICRO PEDALS - PITCH

**PURE OCTAVE**  
MEP-PO  
\$129.95

Precise polyphonic octave effect, 11 different modes.

**PITCH BOX**  
MEP-PB  
\$129.95

Harmony & Pitch Shifting pedal with 3 modes: Harmony, Pitch Shift & Detune.

**TENDER OCTAVER**  
MEP-TO  
\$149.95

**PRECISE OCTAVE PEDAL**  
Precise octave Modulation. Separate volumes for sub and upper octave. Suitable for many different music styles.

## MICRO PEDALS - DYNAMIC

**FLEX BOOST**  
MEP-FB / \$109.95

Boost pedal with wide-range gain control. Based on classic tube Boost Pedals.

**PURE BOOST**  
MEP-PBO / \$119.95

High quality Boost pedal with 20db of clean boost & 2 band EQ.

**NOISE KILLER**  
MEP-NK / \$129.95

High quality Noise reduction pedal with 2 modes: Soft/Hard.

**GRAPHIC G**  
MEP-GG / \$129.95

Smallest guitar graphic EQ pedal in the world. ±18dB adjustable gain range per band.

**YELLOW COMP**  
MEP-YC / \$129.95

Classic optical Compression with smooth attack & decay.

**SLOW ENGINE**  
MEP-SE / \$139.95

Violin type volume swells, without attack.

**LOFI MACHINE / MEP-LF / \$139.95**  
**SAMPLE REDUCING**

Producing unique electronic sounds. 3 modes: Guitar/Bass/Synth.

## MICRO PEDALS - WAH

**ENVELOPE**  
MEP-ENV / \$129.95

Dynamic Auto Wah pedal with slap-back funk, subtle sultry, ambience, static frequency filter & more.

**FUNKY MONKEY**  
MEP-FM / \$139.95

Wide range Auto Wah with 3 peak modes: Hi/Mid/Lo.

**DIGITAL WAH**  
MEP-@WAH / \$139.95

Digital Auto Wah with 2 modes: Auto & Touch.

**MICROBUFFER  
MEP-MB**  
\$129.95

Accurately copies the input signal frequency & removes unconventional signal frequencies to perfectly output original signal.

**ACOUSTIKAR  
MEP-AC**  
\$129.95  
**ACOUSTIC GUITAR  
SIMULATOR**

Simulates the sound of an acoustic guitar from piezo to standard to jumbo.

**TRESCAB  
MEP-TCAB**  
\$149.95

Five high-quality digital speaker cabinet simulations in a single pedal.

**MICRO DRUMMER  
MEP-MD**  
\$149.95

Digital Drum Machine with 11 styles, 121 drum beats in total. Volume, tone & speed settings.

**MOOERGAN  
MEP-MO**  
\$TBA

Classic Organ Tones with superb note tracking. For Electric or Acoustic guitar.

COMING SOON

## MICRO PEDALS - BASS

**SWEEPER  
MEP-S**  
\$119.95

Dynamic envelope Filter for guitar or bass. Clean & Fuzz sweeping switch.

**FOG  
MEP-FOG**  
\$119.95

Classic bass Fuzz tone, also sounds great on guitar.

**THUNDERBALL  
MEP-THB**  
\$119.95

Mean and edgy in 'fuzz' mode and a bit more subdued in 'dist' mode.

**BLUES MOOD  
MEP-BM**  
\$139.95

Transparent tube-like Overdrive tone to rich and vigorous sound. 2 modes: Bright or Fat.

**ENSEMBLE  
QUEEN  
MEP-EQ**  
\$149.95

Analogue Chorus pedal specifically designed for bass guitar.

**GRAPHIC B  
MEP-GB**  
\$129.95

5-Band Bass EQ. True bypass,  $\pm 18$ dB adjustable gain range per band.

**GAS STATION / MEP-PA1**

**UK GOLD 900E / MEP-PA2**

**POWER ZONE / MEP-PA3**

**DAY TRIPPER / MEP-PA4**

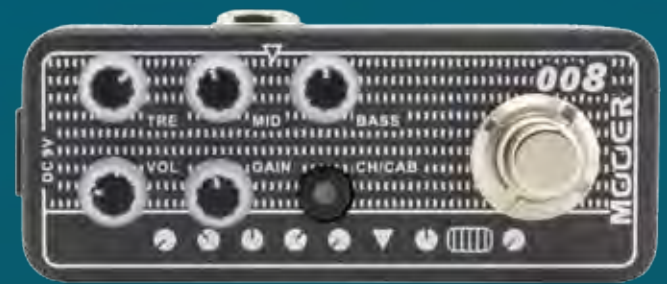

**FIFTY FIFTY / MEP-PA5**

**US CL DELUXE / MEP-PA6**

**REGAL TONE / MEP-PA7**

**CALI-MK3 / MEP-PA8**

**BLACKNIGHT / MEP-PA9**

**TWO STONES / MEP-PA10**

### MICRO PRE-AMPS / \$169.95

MOOER Micro Pre-amp pedals are sonically accurate digital recreations of the preamp sections of popular tube amplifiers. These pedals were developed by directly analysing real tube amplifiers using brand new technology to capture their sound, dynamics and response.

Each Micro Preamp comes complete with dual channels, integrated speaker cabinet simulation and dual operating modes to suit the needs of all users. Micro Pre-amps can be used with your existing guitar amplifier, or via the cabinet simulation mode connected directly to a soundcard, interface, powered monitor or P.A. system.

High quality dual channel preamp / Independent 3 band EQ, Gain and Volume controls for each channel (settings automatically store when changing channels) / Speaker cabinet simulation on-off / 2 different modes for footswitch operation: On/Off or channel A/B.

**REECHO PRO / MEP-REPRO / \$249.00**  
**DUAL DIGITAL DELAY**

Powerful, compact, 6 Delay effects & 5 Delay modes.

**SHIMVERB PRO / MEP-SVPRO / \$249.00**

Adjustable Shimmer effect. Individual Dry & Wet controls. Hi & Low Cut controls. Trail On/Off Switch.

**REVERIE CHORUS / MEP-REVCH / \$249.00**

5 effect modes: Chorus, Rotary, Ambiance, Shimmer and Multiple. Every mode respectively adds 8 kinds of modulation.

**DIGITAL REVERB / MEP-REVREV / \$249.00**  
**DUAL REVERB**

Stereo input and output, storable presets, equipped with 5 unique reverb tones: Reverb, Plate, Shimmer, Octave and Modulation.

**TENDER OCTAVER PRO / MEP-TOPRO / \$249.00**

A whole host of new features and options, making it possible to have harmonization, pitch shifting, whammy and detune chorus effects.

**MOD FACTORY PRO / MEP-MFPRO / \$TBA**

High quality modulation effects featuring 2 independent processors with 16 modulation effects.

# WAH-STYLE PEDAL FAMILY

**THE WAHTER PEDAL / MEP-WAHT / \$189.95**  
Classic Wah Tone, steel shell Micro pedal, fold out foot plates.

**REDKID TALKING WAH / MEP-RK / \$169.95**  
A Wah Wah and a Talk Box, clearly replicates 2 different vocal sounds like you may expect to hear from a talkbox or vocoder device.

**EXPLINE / MEP-EP**  
**\$129.95**  
Mini Expression pedal which houses high quality electrical components providing smooth and precise control at all times.

**PHASER PLAYER / MEP-PP**  
**\$169.95**  
High quality Phaser with 3 different tones. Built into a convenient mini expression pedal for easy, on the fly, speed control.

**LEVEL LINE / MEP-LL**  
**\$169.95**  
Volume pedal featuring comfortable operation with smooth transition and no loss of original tone.

**FREESTEP / MEP-FS / \$199.95**  
Wah & Volume in one. Featuring smooth and seamless volume transition, with adjustable minimum value and Mooger's unique pressure sensing footswitch.

**PITCHSTEP / MEP-PS / \$TBA**  
Harmony & Pitch Shifting pedal.

## **AIR SWITCH**

Designed to pair with the  
Moer Ocean Machine.

*See page 15*

# MOOER

**MEP-OM / \$499.00**

Designed and developed over two years in collaboration with Devin Townsend.  
More details page 14.

## OCEAN MACHINE

**Devin Townsend Signature Pedal**

**Premium Dual Delay Reverb and Looper unit**

### PE-100 / MEP-PE100 / \$149.95

Pocket sized, desk top unit containing everything the guitarist needs. A full range of amp models, a myriad of effects and stompboxes, a precision tuner, drum patterns and metronomes.

### Main features

- There are 6 effect blocks containing 39 types of effects in PE100's effect Chain.
- 98 factory presets and 99 user presets
- 2 auto wah effects
- 10 Overdrive and distortion effects
- 7 Amp models
- 11 Modulation effects
- 5 different delays
- 4 reverb types
- Each effect block provides a different kind of effect.
- 40 drum patterns and 10 metronomes rhythms.
- Tap tempo functionality. Tap tempo control for use with the drum machine, metronome and delay effects
- The QUICK RECALL buttons A,B,C,D provide an easy way to instantly store and recall 4 of your favorite presets.
- Press the TUNER button at any time to access the tuning function page. The tuner is set to A=440Hz as standard, rotate the VALUE control to change this calibration.

### GE-100 / MEP-GE100 / \$189.95 MULTI-EFX PROCESSOR

The GE-100 sets a new benchmark in compact multi-effects units. Easy to operate & ready to gig!

### Main features

- Large, high brightness LCD display.
- 8 Effect Modules & 66 Effect Types.
- 23 Drive sounds.
- 7 legendary amp simulators.
- 80 Factory preset patches & 80 User patches.
- 40 Drum rhythms & 10 metronome rhythms.
- Tap tempo function.
- 180 seconds looper. Scales & Chords dictionary.
- Assignable expression pedal.
- Light weight & small for easy transportation.
- DC 9V Adapter or AA battery (X4) power supply.

### VEM BOX / MEP-VEM / \$229.00 VOCAL EFX PROCESSOR

### Main features

- 8 Effect Modules & 54 Effect Types.
- 40 Preset Patches & 40 User Patches.
- Phrase Looper with 16 seconds of recording time.
- Vocoder Function and Patch Pre-Select Recall Function.
- Assignable Expression Pedal.
- Mic Input : both XLR and 1/4" jack.
- Instruments Input : 1/4" mono jack.
- Instruments Through : 1/4" mono jack.
- Output(Phones) : 1/4" stereo jack.
- DC 9V Adapter or AA/LR6 battery(x4).
- Power supply.

# MULTI EFX

## RED TRUCK / MEP-RT \$499.00

An all in one solution for the professional guitarist on the go. Following diligent research we've integrated a combination of the most commonly used and desirable effects pedals into one, simple to use floor unit.

The all analogue Boost, Overdrive and Distortion circuits provide lush warm tones. A fully comprehensive collection of high quality digital effects including Modulations, Delays and Reverbs with Tap tempo control provide spacious and ambient atmosphere via the stereo outputs. A highly visible and precise tuner will make sure you are always in tune on stage.

A built in parallel effects loop makes it easy to use with your favorite stompboxes or connect to your favorite amplifiers using the 4 cable method. The Red Truck has stereo outputs and a dedicated Mixer output with speaker simulation for direct connection to your favorite mixing board or audio interface. All the parameters and functions are laid out in front of you just like a traditional pedalboard.

Easy to view and adjust on the fly. The Red Truck is compact and easy to transport and comes in a padded carry case.

### Main features

- 6 effects pedals built into 1 simple unit, Overdrive, Distortion, Modulation, Delay & Reverb.
- Fully featured controls for each effect.
- Tap tempo synchronisation.
- 7 legendary amp simulators.
- 8 Integrated effects loop for connecting external pedals.
- Stereo outputs.
- Dedicated direct output with speaker simulation for connection to a mixing desk, computer or headphones.
- Includes heavy duty carry case.

## OCEAN MACHINE / MEP-OM / \$499.00

Designed and developed over two years in collaboration with Devin Townsend, the Ocean Machine is a high fidelity professional Delay, Reverb and Looper unit which brings together the best available hardware on the market and very complex algorithms to create lush, heavenly effects.

A multitude of programmable control options makes the ocean machine ideal for any musician; from bedroom beginners to industry professionals, the Ocean Machine easily integrates into the existing setups for a multitude of instruments. We have brought all of this together into a small, stylish and highly competitive, cost efficient package.

### Main features

- 2 independent DELAYS with 15 different delay types, 0-2 seconds of delay time and optional ping pong effect.
- A high fidelity spacious REVERB with 9 different reverb types and shimmer effect.
- Programmable order of effects chain.
- Delay and Reverb freeze effect.
- Tap Tempo functionality with independent relative tempo options.
- An audio looper with 32 MB of storage memory providing a total of up to 44 seconds of recording time.
- 2 standard modes of operation.
- A multitude of extra programmability options via the LCD menu.
- External switch and expression pedal inputs for more control options.
- All basic delay and reverb parameters can be adjusted via dedicated control knobs for fast and easy adjustment on the fly. There are 8 banks with 3 presets on each, providing a total of 24 preset spaces.
- Midi programmable.
- Full stereo inputs and outputs.
- Adjustable Global EQ settings, input and output levels for easy integration and great results with all different kinds of instruments and setups.
- Use with the Mooger Air Switch for even more control power (Sold separately).
- Periodical firmware updates available via [www.moeraudio.com/?firmwareupdate.html](http://www.moeraudio.com/?firmwareupdate.html)

# PEDAL CONTROLLERS & SWITCHES

**MICRO ABY2  
MEP-ABY2  
\$109.95  
CHANNEL SWITCH**

Signal path flows from Y to A/B.

**MICRO DI  
MEP-DI  
\$129.95  
DIRECT INPUT BOX**

Smart direct input. Balanced & unbalanced outputs with gain switch.

**PEDAL CONTROLLER  
MEP-L6 / \$349.00**

Pedal controller for up to 6 guitar pedals, including built-in tuner. 2 modes: Play, live pre & post buffers.

**AIR SWITCH C4  
MEP-ASC4 / \$89.95**

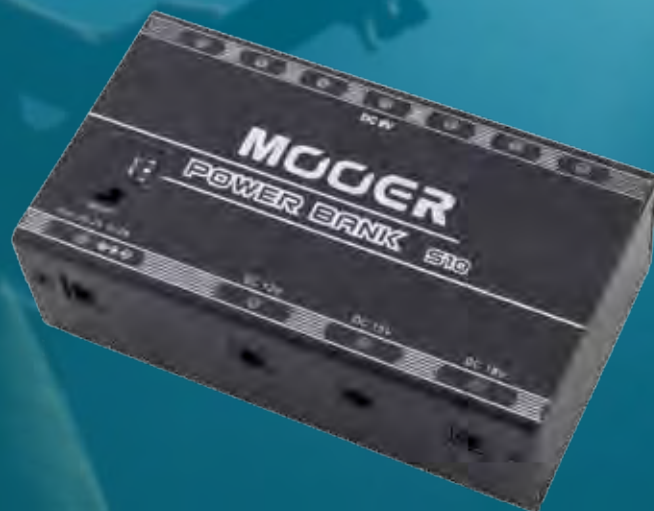

Wireless footswitch for use with Ocean Machine.

# POWER SUPPLIES & CABLES

**MACRO POWER / MEP-MACP8 / \$179.95**

Macro pedal Power Supply with eight isolated ports. Outputs: 4 x independent 9V/200mA outputs, 1 adjustable 9V, 12V, 15V or 18V (center minus polarity). 4 x independent 9V outputs with total 400mA capacity.

**POWER BANK S10 / MEP-PBS10 / \$329.00**

Professional pedal board Power Supply with a high capacity, rechargeable lithium battery. 10 outputs: 7 x 9V / 1 x 12V / 1 x 15V / 1 x 18V.

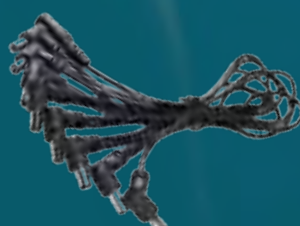

**MICRO POWER SUPPLY  
MEP-MP / \$149.95**

Stable 9V DC power with max. output current of 300mA. With eight isolated outputs with short circuit protection & 8 LED status lights. With 12 volt power adapter and 8 power connecting cables.

**POWER SUPPLY  
MEP-9V2A  
\$36.95**

9 Volt, 2 Amp Centre Pin Negative power supply.

**DAISY CHAIN  
MEP-PDC-8A  
\$12.95**

8-Plug Daisy Chain, for use with any power adapter.

**DAISY CHAIN  
MEP-PDC-10S  
\$14.95**

10-Plug Daisy Chain, for use with any power adapter.

## CONNECTORS

**Z-SHAPED CONNECTOR**  
MEP-PCZ / \$10.95

**COLUMNED CONNECTOR**  
MEP-CC / \$10.95

**STRAIGHT CONNECTOR SINGLE**  
MEP-CS / \$10.95

## PATCH CABLES

**2" MOULDED PATCH CABLE - MEP-AC2 / \$8.95**

**4" MOULDED PATCH CABLE - MEP-AC4 / \$9.95**

**6" PATCH CABLE - SINGLE - MEP-PC6 / \$11.95**

**8" PATCH CABLE - SINGLE - MEP-PC8 / \$12.95**

**2" SPARK SERIES PATCH CABLE - MEP-FC-2 / \$14.95**

**4" SPARK SERIES PATCH CABLE - MEP-FC-4 / \$15.95**

**6" SPARK SERIES PATCH CABLE - MEP-FC-6 / \$16.95**

**8" SPARK SERIES PATCH CABLE - MEP-FC-8 / \$17.95**

## GUITAR CABLES

**12 FT. GUITAR CABLE**  
MEP-GC-12S / \$39.95  
Metal Jacks: Straight/Straight

**12 FT. GUITAR CABLE**  
MEP-GC-12SA / \$39.95  
Metal Jacks: Straight/Angled

**12 FT. GUITAR CABLE**  
MEP-GC-12A / \$39.95  
Metal Jacks: Angled/Angled

## FOOTSWITCH TOPPERS

**FOOTSWITCH TOPPER JAR 100PC**  
MEP-FT-JAR / \$99.95

Colourful plastic footswitch toppers for footswitch of pedals, contains 100.

### FIREFLY 6-PEDAL FLIGHT CASE / MEP-M6 / \$89.95

Protect your investment from the rigours of the road and have your effects ready to go. Case only suitable for Mooger Micro pedals.

- Travel Case: Holds 6 Mooger micro pedal.
- Pre-wired: Includes 6 plug multi DC power cable.
- Dimensions: (HxWxD) 98mm x 390mm x 170mm / Weight: 1.6kg.

Requires 9 Volt Centre Negative power supply for operation (available separately - suggested model MEP-9V2A, see page 15).

### FIREFLY 4-PEDAL FLIGHT CASE / MEP-M4 / \$74.95

As above but for 4 pedals.

### TRANSFORMER PEDAL BOARD IN HARD CASE / MEP-TF20H / \$349.00

The Transformer pedalboard series is MOOER's latest addition to their extensive range of unique pedalboard solutions.

Its double platform configuration allows the shape to be easily transformed to accommodate different pedal layouts.

Designed with both practicality and function in mind so you can create the setup you want, keep everything neat and tidy and have a pedal board which looks as great as it sounds. Comes with flight-ready hard case which features a retractable luggage handle and wheels for easy transportation.

- A unique, sleek design construction using a special aluminium alloy ensures light weight and durability.
- The two pedal platforms are independently adjustable, allowing the user to transform the shape of their pedalboard to accommodate any pedals or processors they wish to use.
- Dual power supply brackets on the underside which can be quickly adjusted to hold most dedicated pedalboard power supplies without the need for any tools. This is crucial for making the most out of available pedalboard real-estate.
  - Supplied with strong self-adhesive Velcro, cable tidies, skid proof rubber feet pads and hard case.

### TRANSFORMER PEDAL BOARD IN SOFT CASE / MEP-TF20S / \$249.00

As above but in Soft Case.

## PEDAL BOARDS & CASES

### **STOMPLATE MINI PEDAL BOARD / MEP-SPMINI / \$129.95**

The Mooer MEP-SPMINI Stomplate Mini Pedal Bag holds 5 Mooer micro pedals.

Compact size and simple styling reflect the consistent design concept of Mooer products. A unique injection moulding technology is combined with a custom aluminium alloy to form a rigid lightweight support structure for your pedals. A matte black finish is coupled with an excellent non-slip bottom design to ensure stable use on stage. The well-designed durable bag can accommodate the majority of popular effects pedals. Durable fabric and thick padding protect your equipment; right-sized for ease of use.

- Pedal Bag holds 5 Mooer micro pedals
- Dimensions (HxWxD) 935mm x 99mm x24mm / Weight 1.6kgs

### **FOLDING 10-EFX STOMPLATE MINI PEDAL BOARD / MEP-PB-10 / \$169.95**

Cleverly designed, the PB-10 can accommodate up to 10 Mooer micro series pedals. Patented 180° folding Aluminium alloy frame allows for multiple angles on stage, making it more convenient to access all pedals. Strong & light weight frame construction that folds conveniently in heavy duty carry bag.

### LITTLE MONSTER BM / MEP-LMBM / \$449.00

Comes with power adapter and shoulder Carry Bag.

- Tiny all-tube guitar amplifier head with 'Bassman' Type Tone.
  - Normal/Top Boost channel select
  - Thin/Mellow tone control.
- Gain and Volume controls & 8Ω/16Ω speaker output select.

**COMING SOON**

### LITTLE TANK D15

MEP-LT / \$TBA

#### MINI MODELLING GUITAR AMP

Mini guitar amp head with built-in amp modelling.

- 15 Watts.
- Built-in effects: reverb, tremolo, chorus, delay, DSP / misc.
- 4 Channels.
- Built-in tuner.
- Speaker output.
- Weight 0.5 kg.

### LITTLE MONSTER AC / MEP-LMAC / \$399.00

Comes with power adapter and shoulder Carry Bag.

- Tiny all-tube guitar amplifier head with Vintage 'AC-30' Tone.
  - Normal/Top Boost channel select
  - Thin/Mellow tone control.
- Gain and Volume controls & 8Ω/16Ω speaker output select.

### SUPER TINY TWIN / MEP-TWIN / \$149.95

Super Tiny Twin has 2 x 3" speakers and 2 x 0.8 watts output, 4 Drive Sounds, 3 DSP Effects, 80 Drum Rhythms, Tuning Function, 3.5mm Phones Jack & 3.5mm AUX In Jack and Stereo Sound. It can be used as a Stereo Multimedia Amp. Includes a clip so it can be hung at waist. Powered by a DC 9V Adapter (Supplied) or AA battery (x4) power supply.

### BABY BOMB 30 / MEP-BB / \$229.95

True 30 Watts of power with an impedance of 8 Ohm - 16 Ohm. Connect your pedalboard to the input of baby bomb. Connect the output to your preferred guitar speaker cabinet using a speaker cable. Set the Presence switch to warm or bright and adjust the volume control. If you push the volume control past 12 o'clock Baby Bomb can provide a warm true tube like post stage overdrive which feels natural and pleasant to the touch. Ideal for any musician on the move who needs to pack light.

Jade MC Australia P/L is the exclusive Australian distributor of Moer EFX Pedals.
