# EU Declaration of Conformity for PLA

REDLINE FILAMENT GmbH declares that the coloured version of its filament suitable for 3D printing, as mentioned below, complies with the compositional requirements according to EU regulation No 10/2011 on plastics materials and articles intended to come into contact with food.

It can be used to manufacture articles in compliance with the requirements of EU Regulation No 1935/2004 on materials and articles intended to come in contact with food.

The fabrication process of the product meets the requirement of EU Regulation No 2023/2006 on good manufacturing practice for materials and articles intended to come in contact with food.

The conditions and limitations of use for the base polymers are defined in the natural declaration.
