TITAN SERIES IP54 Water Resistant

The SOUND TOWN TITAN series compact coaxial loudspeaker system is designed to provide high quality sound reproduction in applications requiring extreme weather resistance. All cabinets are built from water-resistant polyvinyl board with tough texture coating. The hydrophobically-treated grill, moisture-sealed crossover and water-proof connector makes it reliable under long-term exposure to tough environmental conditions.

The TITAN series consists of full range 6"/8"/10"/12" coaxial speakers and a dual 8" subwoofer; all cabinets are available in black and grey. Ideal for stadiums, fairgrounds, outdoor entertainment centers, athletic fields, swimming pools, background music, worships, multipurpose outdoor and indoor venues etc.
