

MTS11 Smart Socket

Experience next-level power management with the MTS11 Smart Wi-Fi Socket. Setting up is a breeze with its plug-and-play installation. This device transforms a regular appliance into a smart one effortlessly. Simply insert the socket into an outlet, connect your device, sync it with your Wi-Fi, and unlock its potential through the intuitive app. Seamlessly power your device on or off remotely and take charge of your energy consumption. Dive into the app to monitor your device's real-time energy usage, providing you with the insights you need to optimize your efficiency such as current draw, power consumption, and total kWh. With a robust 16 Amps at 220-240V you can tailor your schedule with precision, whether it's weekly, daily, hourly or per minute. Plus, enjoy the added convenience of a child lock feature. Experience simplicity, efficiency, and personalization with MTS11, the key to smart living.

Features

- Smart App Compatibility: Easily access advanced features by downloading the free Major Tech Hub Smart App.
- Energy Consumption Insights: Gain in-depth insights into your energy consumption through the Smart App.
- Advanced Timer Functions: Enjoy precise control over your devices with a variety of timer options, including weekly, daily, hourly, or per minute settings.
- Voice Control: Seamlessly integrates with popular third-party voice control platforms such as Alexa, Google Assistant, and SmartThings enabled devices or speakers for hands-free operation.
