ABOUT US

Coffee Bags Direct is a leading stockist and distributor of flexible packaging from rewind rolls to fully formed coffee or food bags and pouches.

With our large range of stock stand up pouches, side gusset and box bottom bags we offer just-in-time inventory as well as custom-made packaging solutions to a range of clients throughout Australia, New Zealand and the world.

We serve the food and beverage industry as well as specialty health/pharmaceutical, pet foods, agricultural products, retail and more. This broad range of packaging offerings ensures that we have a solution for all of your requirements.

We value our customer's brand, vision and their products; working closely each time to provide packaging solutions bespoke to each production/scenario.

- We provide local, friendly and expert service.
- We offer fully-customisable solutions to help you stand out on the shelf
- We have products and solutions to cater to all budgets. From complete custom solutions with high volume annual quotas to introductory level offerings for start-ups and small enterprises.

ECO COFFEE BAGS

RECYCLABLE WRAPS & BAGS

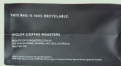

Coffee Bags Direct is proud to continue to push for improvements in sustainable packaging solutions. We are determined to provide the most sustainable options without compromising the quality, integrity and presentation of your product.

Our recyclable wraps and bags are made using only the highest quality 100% original raw material. Utilising a mono-polymer or single-polymer barrier our product ensures no material contamination and an easy product for recycling. Known as soft-plastics as they do not contain a foil lining. Current barrier permeation testing of the advanced PE polymer is yielding excellent results, far improved against LLDPE and others.

AVAILABLE FOR CUSTOM PRINTING NOW:

-  Stand Up Pouch
-  Flow Wrap / Rewind Roll
-  Side Gusset bag
-  Box Bottom bag (with or without Rippa Zipper)

Due to their popularity soft plastics are now accepted at many organisation based recycling programs – with collection bins located at most Coles and Woolworths supermarkets. Due to their softer material structure, when compared to traditional plastics, some local city council recycling plants are not yet tooled up to accept soft plastics. We recommend you check with your local council guides for confirmation around their ability to recycle of soft plastics.

Digital Printing

- Low minimum order quantities (500 units)
- Fastest turnaround in the industry
- No special set up fees
- Free flat press proofs

Gravure Printing

- Custom printing without the custom price tag
- Minimum order quantities (5000 units)
- Full flexibility on design, colour and material finish
- Leadtime: 7-8 weeks from artwork approval

CUSTOM PRINT

Rely on Coffee Bags Direct for your custom printed bags, pouches and rewind. The team are experts and will guide you through the process. Our design team have worked with hundreds of customers to create their own unique brand and capture their product. Ensuring the packaging dimensions, scaling, spacing and colours look incredible.

Our sales and production team will ensure your options are communicated with clarity, ensuring the desired packaging is exactly what you wanted. Further providing excellent pricing, formal artwork approvals and accurate lead time estimates ensuring you can let us handle your job through to delivery, with proactive communication throughout.

Our experienced quality control and dispatch teams will ensure your delivery is thoroughly checked and to you as swiftly as possible. With guarantees on every bag and pouch delivered you can feel at ease.

OUR STEPS

We work as a team with you to understand your requirements.

1.

Client provides artwork/logo files in an approved format or previous sample to match.

2.

We only do print proofs or samples after deposit payment.

3.

Client approves the proof and approves the job.

4.

Upon receipt of the balance payment your goods are shipped to our office for quality control checks. Once vetted your goods are delivered.

8.

Final invoice is payable before goods ship.

7.

Production completed with final quantities and production images to be supplied to client.

6.

Our factory produces a packaging proof to be approved by the client with approval via image or physical sample.

5.
