

CLASSIC II AT A GLANCE

Seven Exclusive Innovations

DIVIDE & CONQUER® FLEXIBLE COOKING SYSTEM

Exclusive multilevel, half-rack design doubles cooking space and frees you to cook different foods on different levels and on different cooking surfaces.

WIRE MESH FIBERGLASS GASKET

All-new, double-thick gasket offers superior air-tight seal and 10x the life of normal industry gaskets. Developed in conjunction with Davlyn Manufacturing in Pennsylvania, the most renowned high temperature gasket manufacturer in the world.

KONTROL TOWER TOP VENT

Patented, all-aluminum, no-rust, rain-proof top vent maintains consistent air setting for precise airflow management.

AIR LIFT HINGE

Breakthrough hinge reduces dome weight by 96%. Developed in conjunction with Weber Knapp in upstate New York, the world's leading premium hinge maker.

STAINLESS STEEL LATCH

Self-activating latch for a category-leading, ultra air-tight seal.

AMP FIREBOX

The new Advanced Multi-Panel FireBox eliminates breakage. This patent pending six-piece design defies physics and solves a major consumer pain point.

SLIDE-OUT ASH DRAWER

Patented slide-out ash drawer takes the hassles and mess out of emptying your ash.
