

NEOZ

## Cordless Table Lamps

NEOZ

Created by Lighting designers, the award winning NEOZ Cordless Lamps are a rechargeable, portable and dimmable luminaire range designed with the specific requirements of hotels and restaurants in mind.

We have incorporated over 30 years of experience into the design of every NEOZ Cordless Lamp. What distinguishes our lamps is their impeccable craftsmanship, use of appropriate material and most importantly exceptional quality of light.

We have developed a warm white LED bulb with a remarkable Colour Rendering Index (CRI ) of 95+ ensuring that skin tones, food colours and textures are seen in the best light - critical in the hospitality environment.

To guarantee performance year after year, NEOZ Cordless Lamps are hand assembled in Sydney using only the highest quality components with up to three years warranty.

PETER ELLIS

Peter Ellis  
Co-founder, Director & Chief Designer

NEOZ

### EXCEPTIONAL LIGHT QUALITY

The NEOZ LED array provides extended light time, a beautiful warm white with **95+ Colour Rendering Index**. Critical to ensure skin tones and colours are seen accurately.

### EASY CHARGING OPTIONS

Choose from a range of recharging solutions from single base station to a trolley for 48 lamps. Simply place lamp on docking point and lamp charging status is indicated.

### LASTING POWER

Powered by Japanese made Sanyo lithium-ion battery cells providing over **300 hours** of light time on a single charge. Select from a range of battery power outputs to suit all users.

### NO ADDITIONAL LIGHT REQUIRED

Up to 20x brighter than a tea candle, these are not table markers. Provides enough illumination to read menus by. Select from 3 dimming levels for the perfect light ambience.

### SUSTAINABLE DESIGNS

Every component has been designed to be serviceable and replaceable because we know mishaps do happen. We're still servicing lamps from nearly 20 years ago!

### CREATED BY LIGHTING DESIGNERS

Designed & assembled in Sydney Australia since 1995, select from 37 unique diffuser designs to control light distribution & over 130 combinations of colours, materials and finishes to achieve the best ambience.

### AWARD WINNING

Recognized by the prestigious Red Dot Design Award, International Design Award & Australian International Design Awards for product innovation and design excellence.

### SPECIFIED BY LEADING ARCHITECTS & HOTELIERS

Pritzker Prize winning architect Jean Nouvel, interior architect Martin Brudnizki and Rockpool's Neil Perry are just some of the leading lights in their field specifying NEOZ Cordless Lamps for their projects and establishments.

### NO HASSLE 3 YEARS WARRANTY

Shop with confidence thanks to our dedicated customer service and after sales support. All NEOZ Cordless Lamps are covered by our industry leading 3 years warranty.

### INTERNATIONAL DELIVERY & APPROVALS

With clients from over 100 countries worldwide, our experienced team will supply and deliver your order almost anywhere in the world.

# BIRTH OF THE CORDLESS LAMP

It all started back in 1995, we were working on the lighting design for Penfold Wine's Magill Estate restaurant in the Adelaide hills with Sydney architects Allen Jack+Cottier.

A major challenge with restaurant lighting is the need to move tables around and still illuminate them appropriately; we were tasked with designing an electric lamp with no cord to solve this problem.

As there were no off-the-shelf battery systems; we designed our own exactly to our requirements. The end result was the Magill cordless table lamp.

## MAGILL

First released in 1995, this is the original NEOZ Cordless Lamp designed for the Penfolds Magill Estate Winery. Brush body with part frosted acrylic providing direct downlight and soft ambient side light.

## COLLINS / LITTLE COLLINS

The Little Collins comes with opal polymer diffuser and a brushed stainless steel top. The Collins has an additional stainless steel base for increased surface illumination.

## WOOD

Available in native Victorian Ash or Western Australian Jarrah body with opal diffuser providing a soft ambient light. A wonderful addition to any indoor or outdoor settings.

Magill & Collins are available in the following material / colours

- Stainless Steel
- Antique Bronze (Magill Only)

Wood is available in the following material

- Victorian Ash
- Jarrah

# TALLER, BRIGHTER, TOUGHER

An all new design for 2017, the 'Tall Poppy' has been designed to provide twice the brightness, a wider glare-free light coverage in a beautiful ribbed zinc alloy diecast body.

The 'Tall Poppy' is fitted with a 2600k warm white LED that produces 100+ lumens of downlight for over 10 hours on one charge, enough to light up a table for up to six diners.

A diecast construction has been selected for improved durability, the lamp is nicely weighted top and bottom for greater stability on the table.

In order to achieve a superior level of fit and finish, each lamp is individually hand polished before one of five electroplating or paint finishes is applied.

## TALL POPPY

The Tall Poppy provides direct down light in a slender ribbed form. A new bright LED disc light source casts light evenly, widely and glare free.

Its robust solid metal diecast construction ensures durability and is available in a range of electroplated and paint finishes.

Available in the following  
colours / material combinations

● Satin Silver

● Satin Brass

● Satin Bronze

● Satin Black

● Gloss White

# TRUSTED BY CHEFS & RESTAURATEURS

As the most awarded and now one of the largest restaurant group in Australia, The Rockpool Dining Group has been at the forefront of the Australian dining scene for the last two decades.

Our association with Neil Perry and Rockpool started back in 2008 when we first supplied them with a bespoke cordless lamp design for 'Spice Temple' and 'Rockpool Bar & Grill' in Sydney. This was followed by eight further locations in Perth, Melbourne, and Sydney.

*"The battery powered lights gave us the solution for bringing light to the table tops as lighting from above was not an option. I chose the Cooee 2c because it was compact and suited the design but importantly reflected all light down to the table top hence avoiding any glare."*

Grant Cheyne - Architect

### COOEE 1 / COOEE 1c

Featuring an internally ribbed dome diffuser providing soft ambient side light and direct downlight. The Cooee 1c has an additional dome reflector giving maximum direct downlight without glare.

### COOEE 2 / COOEE 2c

Featuring a cylindrical opal diffuser and top plate providing soft ambient side and downlight. The Cooee 2c has an enclosed diffuser giving maximum direct downlight without glare.

### COOEE 3 / COOEE 3c

Featuring an internally ribbed conical diffuser providing soft ambient light. The Cooee 3c has an additional conical reflector giving maximum direct downlight without glare.

Available in the following colours / material combinations

# AWARD WINNING DESIGN

As a design based manufacturer, we have a long tradition of being a pioneer in the lighting field. From 1983, NEOZ designed custom floor, wall, table and task lights and in the 1990's revolutionised the industry with our award winning Lightrail and Lightwire track systems.

The NEOZ Cordless Lamp range was first developed in 1995, and awarded its first Australian Design Award in 2001, another in 2004 and a third in 2006. A prestigious international 'Red Dot' Design Award followed.

*"Fabulous attention to detail, great feature set,  
beautifully implemented development.  
This is terrific product design !"*

# “PUTTIN ON THE RITZ”

Originally made for the Ritz hotel in London, the classical style of the Ritz Cordless Lamp embraces the period's ambience and understated elegance.

Hot forged from a single ingot of raw brass, the Ritz together with the more compact Victoria and Albert are CNC machined and then polished to a deep lustre. The solid brass base is then teamed with a handmade shade providing direct down light and soft diffused sidelight.

## RITZ

Handmade parchment shade on a solid forged and polished brass base, this classic cordless lamp provides direct downlight and soft diffused sidelight. The Ritz is available in either 1W LED or 5W Halogen light source.

*Customised shade available for commercial quantity.*

## VICTORIA

Handmade fabric shade on a solid forged and polished brass base, this slim refined cordless lamp provides direct downlight and soft diffused sidelight.

*Customised shade available for commercial quantity.*

## ALBERT

Handmade fabric shade on a solid forged and polished brass base, this slim refined cordless lamp provides direct downlight and soft diffused sidelight.

# 17 YEARS AND COUNTING!

Overlooking the breathtaking views of Sydney harbour, Café Sydney is a regular favourite for locals and visiting tourists alike.

The first Neoz Cordless Lamp was put into use in their elegant dining space back in 2001. With over 60 lamps, they upgraded to the V4 System in 2008 to take advantage of the improved conductive charging & docking system.

As with all NEOZ Cordless Lamps they're built to last and all parts are serviceable. To this day Café Sydney's 'Gem 2' lamps are still lighting up their tables against one of the most iconic backdrops in the world!

*"They are the most stunning rechargeable orange lamps and whilst the simplicity of operation and reliability remains, the technology continues to evolve. We could not imagine Cafe Sydney without them - they are as much a part of Cafe Sydney as the view! Thank you for a wonderful design.."*

Jan McKenzie – Director of Operations, Cafe Sydney

### GEM 1 RESIN

Handcrafted solid resin rectangular shaped diffuser, providing a soft ambient light in four different colours.

### GEM 2 RESIN

Handcrafted solid resin cylindrical shaped diffuser, providing a soft ambient light in four different colours.

### MEDUSA

Hand crafted in the Blue Mountains by one of our favourite artists, the Medusa Cordless Lamp with its complex production cycle has a solid resin form that encapsulates a reflector providing glare free table lighting in a unique illuminated form.

# WHY LIGHT QUALITY IS IMPORTANT

We have always believed our cordless lamps should not only look great but also produce a light that is very natural, complimenting skin tones and food colours - perfect for the dining environment.

In order to do so, we have developed an energy efficient warm white LED (2600k) capable of producing a colour rendering index of 95+, this value quantifies the ability of a light source to reproduce the colours of various objects faithfully in comparison with an ideal or natural light source.

*"We love Neoz products and we will always specify them in our lifestyle projects as we believe they are the best cordless lamps in the market."*

Gerardo Olvera - Associate Creative Director,  
Isometrix Lighting Design, London

# ARCHITECT'S CHOICE

With its pure minimalistic form, the 'Ice Square' and 'Ice Round' range of NEOZ Cordless Lamps perfectly complement most interior settings and is a firm favourite for many architects and designers.

The famed French architect Jean Nouvel is one of many long-time supporters of our cordless lamps, the Pritzker Prize winner has specified the 'Ice Square 100' for his own personal use and a number of projects including Quai Branly Museum in Paris, Hotel Sofitel Vienna Stephansdom and most recently the Renaissance Barcelona Fira Hotel.

The benefit and versatility of NEOZ Cordless Lamps can clearly be seen at the Les Ombres, a roof top restaurant in Paris that relies on no other lighting for it's tables, as a result the view of the neighbouring Eiffel tower and river Seine is uninterrupted.

*"All the lamps arrived in Paris on time.  
The same day they were in the private apartment  
and he (Jean Nouvel) was very happy with the light.  
He loves this product."*

Charlotte Kruk – Ateliers Jean Nouvel, Paris, France

### ICE SQUARE 100 / 85

The Ice Square features a pressed frosted glass diffuser in a square tapered shape providing a soft ambient light, they are available in two sizes.

## DESIGNED FOR DEMANDING LIFE OF THE SERVICE INDUSTRY

To guarantee performance night after night, year after year, NEOZ Cordless Lamps only use the highest quality components sourced locally and around the world to our exact specification.

Take the 'Gem Square' for example, we worked closely with our manufacturing partner to perfect the thick wall acrylic polymer diffuser. Evonik's Plexiglas® was selected for its **high strength, good weather resistance** and most importantly its **excellent light diffusion** characteristics.

The finished product is one that is both a delight to look at and will have the durability to stand the test of time.

## ILLUMINATED FURNITURE

NEOZ Cordless Lighting technology is incorporated into special illuminated furniture designed by Henrietta Gothe-Ellis and Paul Morris for commercial and home use.

Manufactured from durable linear low-density polyethylene (LLDPE) these illuminated furniture are IP51 rated, suitable for both indoor and outdoor use. We offer three type of light source, the standard 80 lumens 1.2W LED, optional high brightness 300 Lumens 5W LED or remote controlled colour changing 3W RGB LED.

## CORDLESS FLEXIBILITY

Powered by the award winning NEOZ Cordless Lighting System, use the illuminated furniture wirelessly for up to 56 hours\* or operate from the mains power while simultaneously charging the battery.

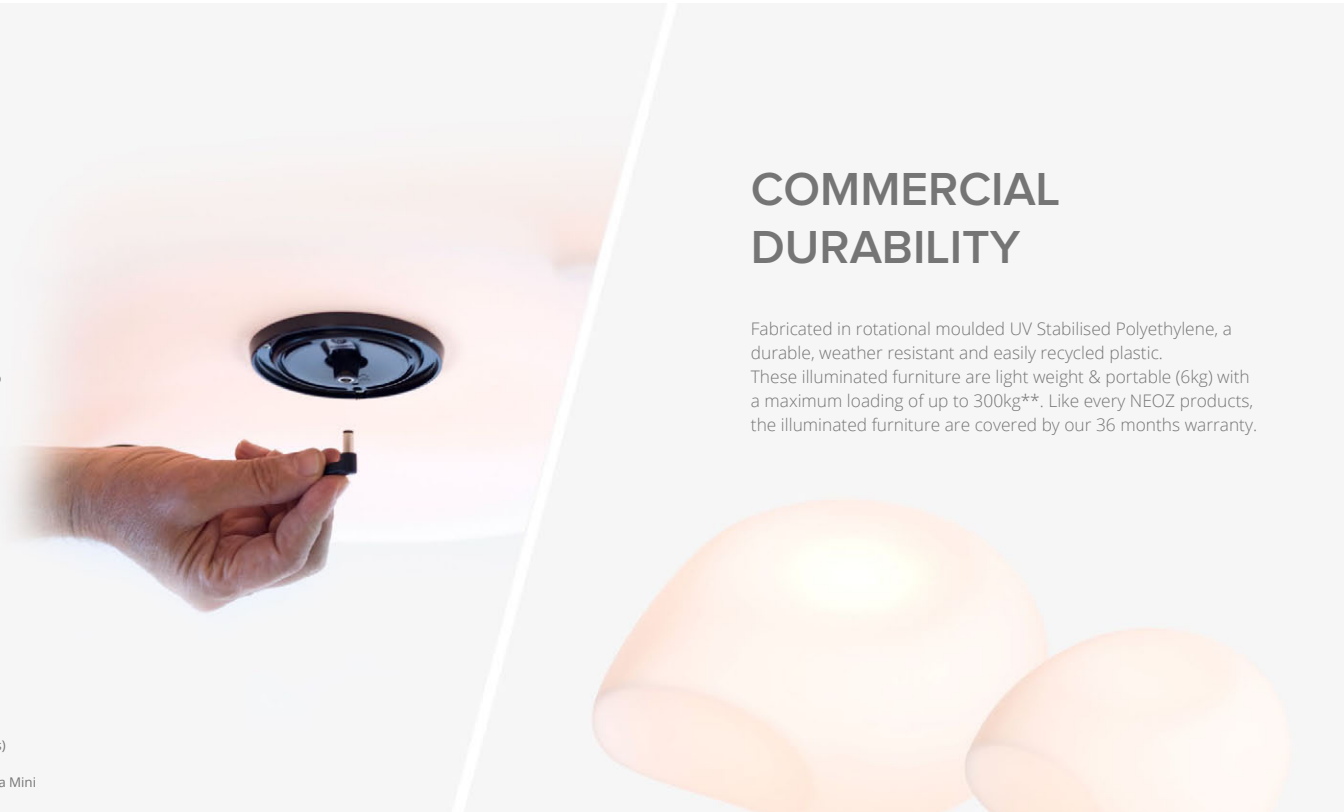

A 5 unit charging solutions can also be provided upon request.

\* Operating on high light output settings (97+ lumens) with 1.2W LED & PRO battery pack.

\*\* Max load for the standard Aura, 200kg for the Aura Mini

## COMMERCIAL DURABILITY

Fabricated in rotational moulded UV Stabilised Polyethylene, a durable, weather resistant and easily recycled plastic. These illuminated furniture are light weight & portable (6kg) with a maximum loading of up to 300kg\*\*. Like every NEOZ products, the illuminated furniture are covered by our 36 months warranty.

## AURA
