To help create & enhance your gorgeous outdoor living area, which you will enjoy for a lifetime.

MORSO FORNO - OUTDOOR OVEN

- Grilling meat
- Pizzas
- Roasting meat/veges
- Slow cooking
- Smoking fish etc

Morso Forno

Versatile cooking with the Forno. Now you can experience for yourself how easily delicious food can be produced – from juicy Steaks to smoked salmon, homemade crispy pizzas or delicious lamb steaks.

When you have finished cooking, the Forno can provide warmth, cosiness and the flames create a natural focal point for the long summer evenings.

The Morso Forno is the perfect oven to sit on our large table, which provides you with space to prepare

the food and offers the ability to move the table and Forno around the terrace or patio. The table also provides plenty of space underneath to store your wood to allow you to refuel quickly and easily.

Oven Weight: 96 kgs, **Size (DxH):** 70 x60 cm (comes apart easily for carrying & installation) **Material:** Senotherm UHT Black painted cast iron

FORNO STONE

Technical details for Forno stone:

The unique stone is based on fibre free cement and pure minerals, approved for cooking and produced in compliance with EC 1935/2004 and 84/500 EEC.

The stone has a unique high temperature stability up to 1250°C degrees. It has been tested down to -20°C degrees.

MORSO FORNO - ACCESSORIES

Garden Table

Italian summer is inextricably linked with outdoor life, community and plenty of good food. And now you can bring the Italian atmosphere to your terrace.

The award-winning Danish designer Klaus Rath has created the Morsø Outdoor Table. Giving you a comfortable working height when mixing your favourite ingredients and baking a wonderful pizzas in your Morsø Forno. The table is made of powder coated steel, and its sleek design plays beautifully with the round shapes of the Morsø Forno.

The large space under the table is ideal for storing firewood, fresh ingredients, herbs, and whatever else a real pizza baker might need to have at his fingertips. The Outdoor Table can be easily manoeuvred using the stainless steel handles and robust rubber wheels. With three convenient hooks perfect for hanging your utensils and pizza oven tools.

Table Weight: 71kgs, Size (WxDxH): 120x60x77 cm, Material: Black Powder coated steel and stainless steel handles.

Cover for Morsø Forno

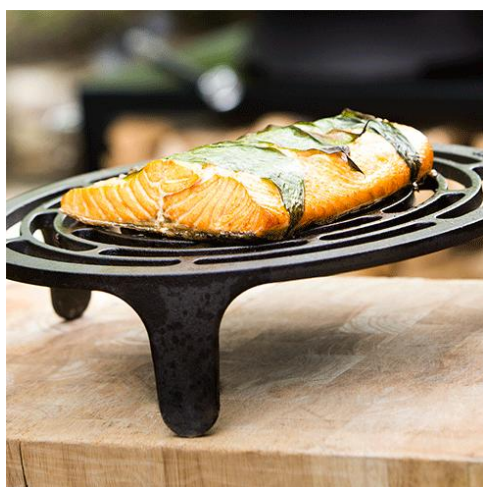

Even though our Italian inspired Outdoor Oven is robust, stylish and spreads a generous all year round warmth and charm to both pizzas and surroundings, the extra protection a new rain coat can offer is a great idea.

The cover is made from specifically shaped black waterproof polyester with a discrete drawstring hem and strong rope secured around the base. Using the cover, the Morsø Forno will remain in exactly the same condition as it was when last used, without any need for cleaning.

The use of the Morsø Forno cover protects and keeps the oven in excellent condition between usage

Tuscan Grill

The Morsø Tuscan Grill is an enamelled grill grate. Its **diameter of 33 cm** gives it an effective grilling area of over 800 cm². The Tuscan Grill can be used in the Morsø Outdoor Oven and allows you to produce steaks and vegetables with sharp, well-defined grilling lines.

The concept of the Tuscan Grill originally comes from Tuscany in Italy, where there is a tradition of cooking juicy meat & seafood with a fantastic smoked taste

Size: 33 cm round

MORSO FORNO - ACCESSORIES

Door for Morsø Forno

For the Forno, a separate stainless steel door is available, that when fitted on the Morsø Forno, makes possible:

- **slow cooking**
- **baking**
- **smoking**

MORSO FORNO - ACCESSORIES

Ash Scraper

“If you play with fire, you wet your bed at night.” We at Morsø do not believe that old Danish saying. On the contrary, we love to play with fire, so we asked the award-winning Danish designer Klaus Rath to develop an ash scraper especially for the Morsø Outdoor Oven.

Not only is it ideal for clearing up, it is also particularly suitable for moving round the embers and breaking them into smaller pieces, for example to grill good steaks. The built in blow pipe is also a great help when you need to perk up the fire.

Morsø Fire Tongs

Some of us can't stop playing with fire. Luckily, sometimes it's necessary. You may need to move the firewood to get the fire going, or to rearrange the embers to evenly heat the grill grate. But you quickly feel the heat if the poker is too short.

The award-winning designer Klaus Rath has developed these fire tongs especially for the Morsø Outdoor Oven. The length is just right for moving around the firewood inside the oven. The tongs can of course also be used with the Morsø Firepit. With their elegant stainless steel hanger, the tongs are also a decoration in your outdoor kitchen.

The Forno Garden set consists of the following Morsø products: [Forno Oven](#), [Garden Table \(120x60cm\)](#), [Tuscan Grill](#), [Ash Scraper](#), [S/S Door](#), [Tongs](#) and [Oven Cover](#).

The Morsø Forno garden set is perfect for someone who appreciates good food, originality and quality outdoor time. The set has a simple yet functional design with clean lines and a truly tactile attraction. Award winning designer Klaus Rath has captured perfectly the modern Nordic design together with a range that is easy to use to provide an outdoor room for your home.

The Morsø Forno garden set contains all the accessories you need for grilling, roasting and making delicious food in your Forno oven. The optional door turns the oven into a perfect smoker for fish etc.

MORSO FORNO TERRA

Forno Terra

Bright sunshine, friends, family and delicious food. The Morso Forno brings outdoor cooking to a higher level making it possible to produce special food with ease and expertise.

The flames provide a focal point with everyone can enjoy the warmth, cosiness and atmosphere late into the evening together with that last drink. The Morso Forno Terra Set on the small table is perfect for smaller terraces or patios and when looked after correctly, can be left outdoors all year round.

When burning at a high temperature the Forno oven will burn off all oil and grease after cooking and will leave the inner fire chamber sterile and ready for reuse.

The Morso Forno Terra set is the perfect oven sitting on a smaller square table (60x60cm) which has wheels making it possible to move the Forno oven around even when it is burning. This allows you to literally bring heat to your guests or adjust for wind directions.

The Forno Terra Set consists of the following Morsø products: [Forno Oven](#), [Terra table](#) (60 x 60 cm), [Tuscan Grill](#) , [Ash Scraper](#) , [SS Door](#) , [Tongs](#) and [Oven Cover](#)

MORSØ GRILL FORNO

Grill Forno

Morsø Grill Forno - New multi grill from Morsø . It's made from solid painted cast iron that gives unsurpassed advantages in connection with grilling.

The cast iron grill is fitted on a base with 3 legs made from teak that are held together with a stainless steel ring. 3 hangers are fitted on the ring where grill tools and the door for the Grill Forno can be hung. A coal insert and a grill grate both made from cast iron come with the Grill Forno.

The special surface of the grill grate has innumerable small pores that absorb the fat and flavourings from the meat. A unique feature which ensures that the meat is grilled in its own juices – unlike stainless steel grates where the meat is NOT grilled but roasted

Size (DxH): 55 cmx110 cm, Weight: 48kgs

Material: Senotherm UHT Black painted cast iron

Grilled steak – grilled to perfection

Grilling fish or seafood

MORSO GRILL FORNO

Door for Morsø Grill Forno

As an accessory to the Grill Forno, Morsø has developed a special designed stainless steel door, that makes Morsø Grill Forno a proper oven grill.

Cover for Grill Forno

Take good care of your Morsø Grill Forno between use

This cover designed to fit the Morsø Grill Forno is manufactured from a strong waterproof material that will protect your Grill Forno against all weather conditions.

The cover naturally also protects against dirt and rain and will help keep it clean and the high quality cover is also UV-protected and will keep your Grill Forno looking its best for years to come.

Steel Handle

Stainless steel handle which ensures you won't burn your fingers on the cast Iron plates.

The steel handle can be used for the frying pan, the grill platter, and the grill grate which is available for the Morsø Grill Forno".

Size: 27 cm×2.5 cm×2.8 cm, Weight: 0.272Kg

MORSØ GRILL '71

Grill '71

The Morsø Grill '71 was hailed as the best grill in a large test in 2004, ahead of others including Weber and Dancook. And this was not surprising. Grill '71 has a grate of solid cast iron, which gives some entirely unsurpassed advantages when it comes to grilling.

The special finish of cast iron has innumerable small pits, which can retain fat and flavours from the meat. This achieves just the right effect of the meat frying in its own fat. On the other hand, smooth stainless steel has the disadvantage that the fat slides off, so the steak isn't fried, but toasted.

The grill grate swings aside and can be placed at four heights. The accompanying windbreak is easy to fit and remove as needed.

Height 51-65 cm, Depth 33cm, Width 33cm

Morsø Grill Starter

The new grill starter makes lighting the grill easier without using lighter fluid.

This starter with its attractive design and ease of use makes lighting coals or briquettes easy & safe.

The unit is manufactured from 1mm stainless steel and is powder coated to prolong the life of the starter.

Size: Diameter 12.5cm, Height 54.5 cm, Weight 1,4 kg

MORSØ FIRE PIT (& GRILL PLATE)

Ignis Fire Pit

Fire captivates – dancing, warm flames are a natural meeting place, offering calm, concentration and comfort. The Morsø Firepit is an ideal choice for anyone who likes comfort, and creating a great atmosphere in the garden. Imagine sitting with a glass of good red wine in your hand and your eyes resting on the living flames.....

The firepit is designed on the basis of Morsø's old series of cooking equipment. With its clean lines and simple, functional design, it also serves as a beautiful decoration on the patio or at the front door. The firepit is made of solid painted cast iron and will last you a long time if it is used and cared for correctly.

Size (DxH): 45 cm×32 cm, Weight: 20kgs

Material: Senotherm UHT Black painted cast iron

It comes with the Stainless Steel Grill

Grate for Ignis Fire Pit

There is a bit of the scout in everybody ... it's just so cosy to sit around the fire and cook food! The atmosphere quickly becomes an experience, and the children will love it. With this grill grate, you and your family will get more out of your Morsø Firepit .

The grate fits elegantly and securely in the notches, and hey presto, the perfect grill for e.g. sausages and vegetables.

The grill grate is made of polished stainless steel

Size (D): 41 cm round,

Weight: 1.3kgs

MORSØ KAMINO – OUTDOOR FIREPLACE

Kamino

The outdoor fireplace “Morsø Kamino” base & body is shaped from cast iron with a steel flue. It is a stunning addition to your outdoor area - giving a stylish appearance and heating for the outdoor surroundings – it also prolongs the outdoor experience – from early spring months, through the chilly summer nights until the beginning of autumn.

Morsø Kamino can be turned depending on the wind direction.

Size (DxH): 50 cm×180 cm, Weight: 76.5kgs

Material: Senotherm UHT Black painted cast

You can use with the Ash Scraper to move round the embers and break them into smaller pieces. The built in blow pipe is also a great help when you need to perk up the fire.

Cover for Kamino

Take good care of your Kamino Cover between use.

This cover designed to fit the Morsø Kamino Fireplace is manufactured from a strong waterproof material that will protect your Kamino against all weather conditions.

The cover naturally also protects against dirt and rain and will help keep it clean and the high quality cover is also UV-protected and will keep your Kamino looking its best for years to come.

MORSØ's COMMITMENT

More than 160 years of experience in cast iron wood burning, Scandinavian values, quality, 'hygge' and by Appointment to the Royal Danish Court.

Scandinavian design, German made.

We are experts in what we do, committed to what we do, professional in how we do it and our products have 5-year warranty.

The Senotherm UHT 600 paint system that has been tested to meet the NORSOK C3 tested corrosion category standard and ISO 12944 marine and offshore industry coating tests

Surface

of the Morsø Forno - Grill Forno - Ignis and - Kamino

Corrosion resistant coating system:

1. The ground coat is a high temperature resistant primer that protects the cast iron against corrosion.
2. The top coat is also a high temperature resistant coating with an added UV resistance, which allows the colour and visual appearance to withstand prolonged exposures to extreme climates and therefore giving an exclusive surface resistance

The coating system has been tested conforming to the NORSOK corrosion resistant standards, as used in the offshore marine industry, classification class 'C3 medium'

Therefore allowing a 5-year corrosion warranty on a continuous unbroken surface
