LASTING STYLE

Tradewinds Aluzone parasols were designed to offer a modern lightweight yet strong parasol utilizing a modern mix of aluminium, stainless steel and the finest kiln dried Eucalyptus timber that is FSC (Forestry Stewardship Council) certified. High quality materials and workmanship ensure that Tradewinds parasols are the number one choice for corporate, private and promotional buyers.

FINELY CRAFTED

Stainless steel fittings are used for high durability and fabric options are naturally resistant to rotting and mildew, acids and alkalis and in addition, all fabrics are Teflon treated to provide water, oil and soil protection.

The combination of wood and aluminium is durable and attractive

The strut-to-strut joint is strong and will not allow pre-mature canvas wear

All components are made for easy replacement

The "sock" style pocket is double layered for added strength

The wood is certified by the Forestry Stewardship Council (FSC)

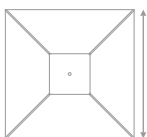

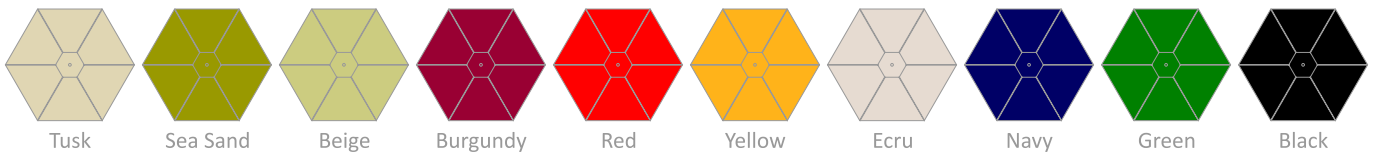

Tradewinds **ALUZONE** parasols come with a wide option of fabrics, including solution dyed acrylic and polyester. **Acrylic** is naturally resistant to rotting and mildew, acids and alkalis, making it suitable for outdoor use. Our **Polyester** is also protected with an acrylic coating which gives the same protection, and enables us to colour the fabric with high light fastness pigments. Additionally, we treat our fabrics with the **TEFLON** system, which gives water, oil and soil protection. This finish is resistant to washing and dry-cleaning, leading to long lasting protection

GUARANTEE

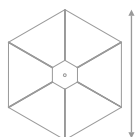

Aluzone parasols are guaranteed, from original date of purchase by the initial buyer, for a period of 2 years against defects in metal fixtures and fittings and against defects resulting from faulty workmanship. Although the manufacturer strives to provide the highest quality, we accept no responsibility for defects in timber, colour variation of processed wood, fading of fabric or fabric print degradation. The manufacturer will not be liable for any extra costs incurred by the buyer as a result of defects found in the product or as a result of faulty products, over and above those covered in the guarantee contained in the paragraph above. Tradewinds products are covered by a full spares backup from our international distribution network.
