# SIMPLY BAMBOO

— The Natural Toothbrush —

Make a difference today by choosing a bamboo toothbrush and help fight plastic pollution.

- Let us move towards a world without waste •

Worldwide, approximately 3.5 billion plastic toothbrushes are thrown away, sent to landfill or end up in the ocean each year. These cannot be recycled and do not biodegrade. Every plastic toothbrush ever manufactured still exists in some shape or form today.

Simply Bamboo is the solution to this problem by cutting out the plastic and replacing it with a 100% biodegradable handle.
