

## What's in the box

- (A) Mounting Platform with locking mechanism
- (B) 1/4-20 male screw to mount camera/ball head
- (C) Counterweight holder
- (D) Locking mechanism for extension arm
- (E) Phone holder
- (F) Ball head

## Setup

- (1) Use the Mounting Platform (A) to attach the OH50 onto your tripod
- (2) Mount Ball Head (F) onto the 1/4-20 screw (B)
- (3) Sandwich counterweight between the 2 plates and lock in position with the supplied nut (C)
- (4) Adjust the position of the Mounting Platform (A) and the length of the Extension Arm (D) to get the camera into position
- (5) Lock the extension arm into position using its locking mechanism (D)
- (6) Lock the Mounting Platform (A) into position using the platform's knob
- (7) Mount your camera on the ball head or the phone holder if you are shooting with a cellphone
- (8) Use the ball head (F) to orientate the camera in the desired position
