

# TMP50

- 1 **PRIOR TO USING THE TMP50**, you will need to install a teleprompter application on your cell phone or tablet.

**WARNING:** Please note that the application must allow mirroring of text to be used with the TMP50.

**WARNING:** The TMP50 does not come with an application for cell phone or tablet.

- 2 The TMP50 can be set on a flat surface or mounted onto a tripod.

When using a tripod, remove the cheese-plate from the tripod head and screw it onto one of the 2 mounting holes at the bottom of the TMP50 (Fig. A).

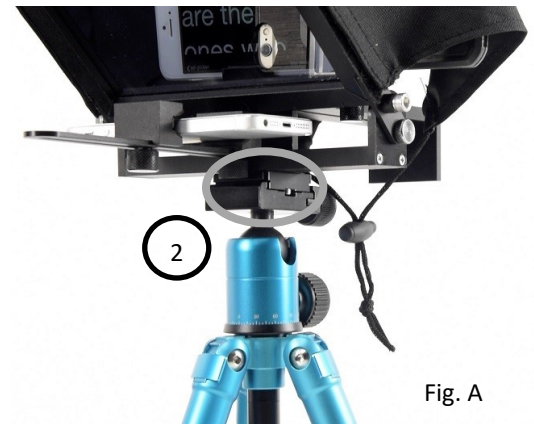

Fig. A

- 3 Unlock the pins on both sides of the frame so that the frame can move (Fig. B).

- 4 Rotate the frame towards the back of the TMP50 (Fig. B).

- 5 Set the frame in a 45-degree angle and use the screws from 3 to lock it into position (Fig. C).

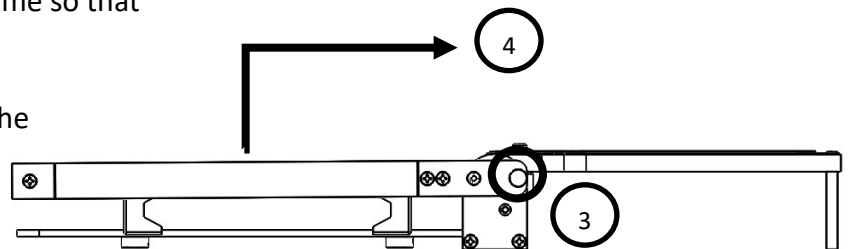

Fig. B

## CHECK POINT

Your TMP50 should now look like in Fig C.

Fig. C.

# TMP50

6 Place your tablet or cell phone in landscape orientation between the 2 clamps in front of the frame (Fig. D).

7 Position the tablet/cell phone to the desired position by sliding the clamps along the slot (Fig. D).

8 Once in position lock the clamps in position using the screw at their bottom (Fig. D).

9 **When shooting with a camera:**

- Mount your camera on the 1/4-20 screw in the back of the TMP50.
- Slide your camera along the slot so that the lens is as close as possible to the screen.

10 **When shooting with a cell phone (Fig. E):**

- Use the cell phone holder provided with the TMP50 and mount it on the 1/4-20 screw in the back of the TMP50.
- Slide your camera along the slot so that the lens is as close as possible to the screen
- Use the T-slot to center the phone's camera.

11 Adjust the black cloth so it covers the camera/cell phone without obstructing your field of view (Fig. F)
