

5TH GRADE MATH

TABLE OF CONTENTS

CHAPTER ONE— NUMBER SYSTEMS & NUMBER THEORY

TOPIC A: Whole Numbers	
PART 1: Reading and Writing Whole Numbers to Millions	
Section a: Writing Verbal Whole Numbers to Numeral Form	1
Section b: Writing Whole Numerals to Verbal Form	2
Section c: Reading and Writing Whole Number Word Problems	3
PART 2: Comparing and Ordering Numbers to Millions	
Section a: Ordering from Least to Greatest	5
Section b: Ordering from Greatest to Least	5
Section c: Identifying Numbers Within a Given Range	6
Section d: Ordering Word Problems	6
PART 3: Understanding Place Value Structure of Base 10	10
TOPIC B: Common Fractions	
PART 1: Creating Equivalent Fractions	14
PART 2: Comparing and Ordering Fractions with Like and Unlike Denominators	20
PART 3: Understanding the Concept of Ratio	24
PART 4: Expressing Ratios in Different Forms	26
PART 5: Comparing Fractions Using $<$, $>$, and $=$	30
TOPIC C: Decimals, Fractions, and Percents	
PART 1: Reading, Writing, and Ordering Decimals to Thousandths	33
PART 2: Comparing Decimals Using $<$, $>$, and $=$	39
PART 3: Understanding that Percent Means Part of 100	40
PART 4: Writing Percents as Fractions and Decimals	44
TOPIC D: Prime and Composite Numbers	48
TOPIC E: Multiples and Least Common Multiples	53
TOPIC F: Factors	
PART 1: Identifying Factors of a Number	57
PART 2: Finding Common Factors and Greatest Common Factors	60

CHAPTER TWO— OPERATIONS

TOPIC A: Multiplication and Division	
PART 1: Multiplying 3-Digit Numbers by 3-Digit Numbers	63
PART 2: Dividing 3-Digit Numbers by 1- and 2-Digit Numbers	66
TOPIC B: Evaluating Expressions Using Order of Operations	70
TOPIC C: Fractions and Decimals	
PART 1: Simplifying Fractions to Lowest Terms	73
PART 2: Converting Between Improper Fractions and Mixed Numbers	77
PART 3: Adding and Subtracting Fractions with Like Denominators	82
PART 4: Adding and Subtracting Mixed Numbers with Like Denominators	85
PART 5: Adding, Subtracting, Multiplying, and Dividing Decimals to the Thousandths Place	90

CHAPTER THREE— ALGEBRA

TOPIC A: Variables and Expressions	
PART 1: Defining and Using Appropriate Terminology when Referring to Constants, Variables, and Algebraic Expressions	97
PART 2: Translating Verbal Expressions into Algebraic Expressions	99
PART 3: Evaluating Variable Expressions Using Order of Operations	101
TOPIC B: Equations and Inequalities	
PART 1: Solving One-Step Equations Using Whole Number Facts	104
PART 2: Solving One-Step Equations Using Inverse, Whole Number Operations	106
PART 3: Evaluating Perimeter Formula for Given Input Values	108
TOPIC C: Patterns, Relations, and Functions	
PART 1: Creating and Explaining Patterns and Algebraic Relationships	113
PART 2: Creating Algebraic or Geometric Patterns Using Objects or Drawings	119

CHAPTER FOUR— GEOMETRY

TOPIC A: Perimeter of Regular and Irregular Polygons	127
TOPIC B: Geometric Relationships of Triangles	
PART 1: Identifying Pairs of Similar Triangles	139
PART 2: Identifying the Ratio of Corresponding Sides of Similar Triangles	146
PART 3: Classifying Triangles by Properties of Sides and Angles.....	151
PART 4: Finding the Sum of Interior Angles of a Triangle	158
PART 5: Finding the Missing Angle When Given Two Angles of a Triangle.....	162
PART 6: Identifying Pairs of Congruent Triangles	168
PART 7: Identifying Corresponding Parts of Congruent Triangles	177
TOPIC C: Geometric Relationships of Quadrilaterals	
PART 1: Classifying Quadrilaterals by Properties of Angles and Sides	181
PART 2: Finding the Sum of Interior Angles of a Quadrilateral.....	189
TOPIC D: Lines of Symmetry of Basic Geometric Shapes	194
TOPIC E: Coordinate Geometry	
PART 1: Identifying and Plotting Points in the First Quadrant.....	202
PART 2: Plotting Points to Form Geometric Shapes	209
PART 3: Calculating the Perimeter of Rectangular Shapes Having Sides with Integer Lengths and Parallel to the Axes.....	221

CHAPTER FIVE— MEASUREMENT

TOPIC A: Length	
PART 1: Measuring to the Nearest Inch, 1/2 Inch, 1/4 Inch, and 1/8 Inch.....	233
PART 2: Identifying Equivalent U.S. Customary Length Units	243
PART 3: Measuring to the Nearest Centimeter	244
PART 4: Identifying Equivalent Metric Length Units	254
PART 5: Converting Measurements Within a Given System	
Section a: Length.....	257
Section b: Volume	261
Section c: Weight.....	266
Section d: Time.....	269
TOPIC B: Measurement Tools and Methods	
PART 1: Determining the Tool and Technique to Measure Lengths and Angles	270
PART 2: Measuring and Drawing Angles Using a Protractor.....	272
TOPIC C: Elapsed Time in Hours and Minutes	279
TOPIC D: Estimation	
PART 1: Determining Personal References for U.S. Customary Units of Length.....	288
PART 2: Determining Personal References for Metric Units of Length.....	291
PART 3: Justifying the Reasonableness of Estimates	293

CHAPTER SIX— ESTIMATION, STATISTICS, & PROBABILITY

TOPIC A: Rounding to the Nearest Hundredth and Up to 10,000.....	299
TOPIC B: Estimation	
PART 1: Estimating Sums and Differences of Like Fractions.....	301
PART 2: Estimating Sums, Differences, Products, and Quotients of Decimals.....	305
PART 3: Justifying the Reasonableness of Answers Using Estimation	310
TOPIC C: Collecting and Recording Data from a Variety of Sources.....	318
TOPIC D: Displaying Data in a Line Graph	326
TOPIC E: Calculating the Mean for a Given Set of Data and Using the Mean to Describe a Set of Data.....	340
TOPIC F: Predictions and Conclusions from Data	344
TOPIC G: Probability	
PART 1: Listing the Possible Outcomes for a Single-Event Experiment.....	357
PART 2: Recording Experimental Results Using Fractions and Ratios.....	362
PART 3: Sample Space and Probability of a Single Event Given a Simple Experiment	366

APPENDIX—HOW TO ADD MATH GRIDS & TABLES TO AN EXAM	379
---	-----
