

The Mill

The Mill has the products needed to produce a terrific stand of turf. We offer contractor and volume discounts, so give us a call for pricing. Some of our suppliers include:

- **Agro Liquid**
- **American Excelsior**
- **Chesapeake Valley Seed**
- **Ernst Conservation Seed**
- **Hanes/Geo Components**
- **Helena Chemical**
- **Kirby Agri**
- **Lebanon Turf Products**
- **Monty's**
- **Nature's Safe Organic Fertilizer**
- **Oldcastle Stone**
- **Profile Hydro-mulch Products**
- **Pro's Choice Sports Field Products**
- **Solu-Cal**
- **Union/Ames/True Temper tools**
- **Winfield Chemical**

If you have a specific product need or requirement and cannot find it at a Mill store, please give us a call and we can order the material. In addition, we will deliver either with vans or flatbed trucks including one with a Moffit forklift. We can deliver and off load, no help from your staff is required.

We have agronomists/turf specialists on staff; I have listed their names and cell numbers below. Please contact them if you have soils questions, nutrient management questions, or clarification on the use of a product.

David Boniface	443-807-8286	Ben Hushon	443-807-8282
David Shriver	410-409-4017	Smoke Shaffer	443-243-7264
Dennis Berger	410-688-7565	Aaron Robey	443-244-1032
Henry Holloway	443-807-8330	Tim Hushon	443-617-4256
Cassie Holloway	410-452-8177		

If you have interest in liquid fertilizer, please contact one of our agronomists listed above. The Mill has the capability of custom blending and delivering high efficiency liquid fertilizer in 200-gallon totes or in larger quantities. This same company, Agro Liquid has several foliar products.

Turf Products

Grass Seeds Designed for Our Region:

- **Bel Air 3-Way Tall Fescue Grass Seed** – Known for its eye-catching dark green color; Superior disease resistance and drought tolerant; Performs extremely well in full sun to partly shady areas
 - 3 types of Tall Fescue specifically designed to perform well in the Mid-Atlantic climate
- **Bel Air Sun & Shade Grass Seed** – Produces a thick, fine bladed, dark blue-green lawn; Provides the most versatile lawn in sunny to moderately shady areas; Disease resistant and drought tolerant
 - 80% 3-Way Tall Fescue (listed above), 20% Creeping Red Fescue
- **Bel Air Athletic Mix Grass Seed** – Produces an elegant, thick lawn; Extremely wear tolerant for high traffic areas; For use in full sun to partial shade
 - 80% 3-Way Tall Fescue (listed above), 10% Kentucky Blue Grass, 10% Perennial Rye
- **Double Coverage** – Not only do these varieties have terrific color, you get the natural drought tolerance and toughness of the Turf Type Tall Fescue and the dense sod quality of the Kentucky Bluegrass all in one package; A favorite of sod growers
 - 90% 3-Way Tall Fescue (listed above) and 10% of a Premium Variety of Kentucky Bluegrass
- **Landscapers Mixture** – Very attractive seed mix for fast establishment
 - 80% Turf Type Tall Fescue and 20% Perennial Ryegrass
- **Contractors Mixture** – Gives lawn care professionals the color and durability of tall fescue and the fast germination of annual ryegrass, for a quick cover and early growth advantages
 - 80% Tall Fescue and 20% Annual Ryegrass
- **Special Purpose Mix** – Combines Hard Fescue and Chewings Fescue (both fine fescues) to provide for a low maintenance turf area; The Fine Fescues are slow growing and require less mowing
 - 75% Hard Fescue, 25% Chewings Fescue
- **Dense Shade Mix** – Combines the most shade tolerant cultivars including Hard Fescue, Chewings Fescue and Creeping Red Fescue in one package. This mix also works well for low mow areas such as road banks.
- **Erosion Mix** – This blend will give you a quick cover and fast germination
 - 50% Barley, 25% Annual Ryegrass and 25% Tall Fescue
- **Tri Rye** – Blend of 3 Grey Leaf Spot tolerant perennial rye grass varieties

Turf Seeding Rates:

New Seeding: 8-10 pounds per 1,000 square foot; or 350-400 pounds per acre

Over Seeding: 4-5 pounds per 1,000 square food; or 175-220 pounds per acre

Fertilizers:

- **Liquid fertilizers also available** – easy to handle, yield great results & work well with Nutrient Management requirements
- **18-0-4 with Prodiamine** – A pre-emergent crabgrass killer with fertilizer that will give your lawn a healthy start to re-growth while helping to control 35 weed seed varieties. Covers 12,500 square feet. DO NOT USE IF YOU ARE SEEDING. Gives 16-20 weeks of annual grass control.
- **16-0-5 with Dimension** – A pre-emergent crabgrass killer with fertilizer that will give your lawn a healthy start to re-growth. Covers 12,500 sq. ft. and gives 12 to 16 weeks of annual grass control. For best results, make two applications.
- **25-0-8 with Trimec** – This Weed N’ Feed will feed your lawn and control broadleaf weeds. Trimec is the active ingredient that controls weeds such as Dandelions, Plantain, Clover, and more. Covers 15,000 square feet (just over 1/4 acre)
