For questions or help with the installation, please email help@sdhqoffroad.com
Store front hours: Mon. – Fri. 8:00am – 5:30pm and Sat. 9:00am – 2:00pm Arizona Time.

Installation Instructions:

1. Take your compressor and using a 4mm hex key remove the M5 bolt holding the compressor body to the frame, set aside as it will not be reused.

2. Prepare your Mount by assembling the Air Chuck as shown above. **Note:** that you can install the Mount on either side, choose your side first to make sure you install the Air Chuck in the correct orientation.
3. Replace the removed bolt with the prepped mount and using a 3mm hex key install the supplied shoulder bolt.

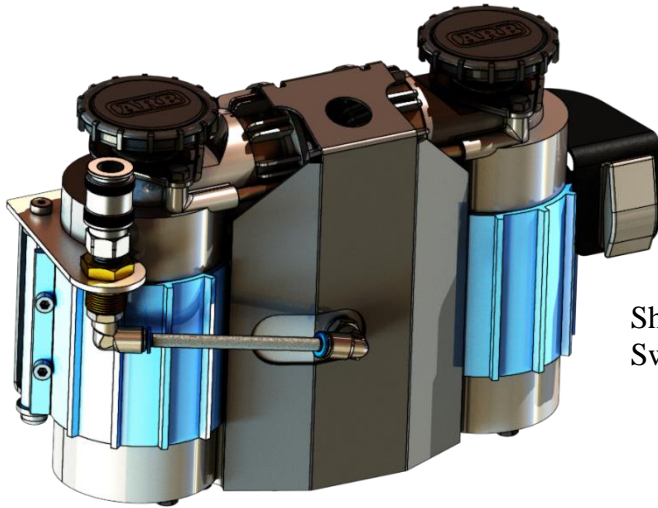

For questions or help with the installation, please email help@sdhqoffroad.com
 Store front hours: Mon. – Fri. 8:00am – 5:30pm and Sat. 9:00am – 2:00pm Arizona Time.

4. Thread in the remaining 90deg Push to Connect fitting into the port on your ARB Air Compressor and connect the (2) fittings with the supplied airline.

5. Enjoy your SDHQ Built ARB Vertical Air Chuck Mount!

Shown installed with SDHQ ARB Compressor Switch Mount (SDHQ-00-1103-SM)

Double check all hardware is installed correctly and tight

Re-torque ALL bolts after 100 miles
