***READ ALL INSTRUCTIONS THOROUGHLY FROM START TO FINISH BEFORE BEGINNING INSTALLATION! ***

For questions or help with the installation, please call SDHQ Offroad @ 480-633-2929
Mon.–Fri. 8:00am–5:30pm and Sat. 8:00am–3:30pm Arizona Time. www.sdhqoffroad.com

Installation Instructions:

1. Unbox your parts and familiarize yourself with them.

2. **Install the Switch Pros.** Install your Switch Pros Keypad into the 3D Printed Bezel as shown below. Thread in the (4) Switch Pros threaded studs into the Keypad, RCR-Force-12 Keypad threaded stud locations shown below.
3. Align the Laser Cut Panel to the Keypad. The Keypad harness will install through the ¾" hole. Take note of the orientation of the keypad harness wiring.

9100 Keypad Mounting   **RCR-Force-12 Keypad Mounting**

For questions or help with the installation, please call SDHQ Offroad @ 480-633-2929
Mon.–Fri. 8:00am–5:30pm and Sat. 8:00am–3:30pm Arizona Time. www.sdhqoffroad.com

4. Align the Acrylic Backer on the back of the Laser Cut Panel. Thread the (4) Switch Pros nylock nuts onto the threaded studs. Tighten the nylock nuts until the Keypad stops moving on the panel. Overtightening the nylock nuts will deform the panel and make install difficult.

9100 Keypad Mounting

RCR-Force-12 Keypad Mounting

5. **Install the Keypad and Panel.** Locate the panel on the driver's side lower dash. Using a panel removal tool, remove the panel. It is recommended to wire your Switch Pros now.

6. Install the Keypad and Panel into the factory location. Installation is complete! Enjoy your new SDHQ Switch Pros Keypad Mount.
