

# Pump & Engine Lubricating Oils

## Water Pumps..

Lubricating oil for common Pressure Washer and Drain Jetter pumps,  
Is recommended as follows..

### In 20 to 80 degree F. weather..

Use "Universal Tractor-Transmission Oil.. API #GL4 or ISO100,

... or Air Compressor Oil 30 weight

... or gear-oil 75w-95wt or similar,

... or Industrial pump oil.. 30 weight

even better.. is the Synthetic version..

..like SAE 85w90 Synthetic "Hydraulic oil" from Wal-Mart

..or AmsOil.. Synthetic Compressor oil ISO-100 at \$17.95 per Qt.

### At "desert temperatures" ..over 80 degr.F

Use ISO-150 hydraulic oil.. like WW Grainger # 2EPU7 quarts at \$14/qt.

or better yet, a synthetic version..

... Synthetic Compressor oil ISO-150 ..by AmsOil at \$17.95 per Qt.

... or SAE 85w140 Synthetic "Hydraulic oil" from Wal-Mart.

## Pump Geart Reduction Units..

Use same as in the example above, for all temperatures

Synthetic is HIGHLY recommended at higher temps.

## Small Engines ..single & V-twin.. in 30-70 degree weather..

require 30wt HD motor oil, ..or better yet..

**synthetic** 10-40wt in 10 to 90 degr.F

and.. Synthetic 15-40w at **100degr.+**

..like AmsOil or Schaeffer's brand oil !
