The reason we don't cut corners on Hp per CFM's... The extra HP **delivers** the cfm's through a **longer 2"** hose. Our SGV systems suck **real** hard.. & can collapse a 55gl drum! This is why we use 30gl XHD waste-hauling drums, and our 16hp vac can out-perform most 35hp carpet systems! With our equipment, EVERY demo is a compelling demo! **Call with any every question!**
